And choke us with catarrh. A horse's head where his tail should be."

GOLD 7-30 LOAN. A profitable and secure Investment THE Northern Pacific Railroad Companyoffers to the public an investment security which combines the ready negotiability, the conveni-ence, and the high credit of a first-class Rail-road Bond, with the solidity and safety of a ome one, and the high credit of a first-class Railroad Bond, with the solidity and safety of a
Real Estate Mortgage on Land worth at least
twice the amount loaned.

Troffic. As officially reported, the gross earn
ings of the present Pacific Railroad (Union and
Central) for 1871, the second year of through
business, (December earnings estimated) reach
Seventeen Millions and a Quarter. Of this, 65
Seventeen Millions and a Quarter. business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent, is from Local business, and, it is stated. fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses, An equal traffic on the Northern Pacific Road will pay a dividend of more than 91/2 per cent. on its total cost. With its great and unquestion advantages in distance, grades, climate and tridec 29 3m butary fertile country, the Northern Pacific is assured of a vast and profitable business from he outset, with a large increase for the future.

The Value of Land Grants. The average price at which the twenty-six leading Land-gran Railroads have thus far sold their lands, is \$7.00 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few excep tions, the average selling price has steadily in-creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per ac:e, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific lroad earninge, and the market value o Railroad Lands, as shown by actual sales ettlers, show the three-fold security of Northern Pacific Railroad Bonds. Construction. The road is now complete across Minnesota, (255 miles); work is progres ng westward through Dakota, and 65 miles a under construction on the Pacific coast. In luding purchased lines, the Northern Pacific company now has under its management 575 iles of finished track. Contracts are let for the struction of 635 miles more, to be finished pefore the close of 1872. The 7 30 Gold Bonds. The first mortgage J. H. PULLEN. 86 Charlotte street.

The 730 Gold Bonds. The first more age bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features;

1. They are exempt from United States tax: the Principal and Interest are payable in gold the principal in 30 years, and the interest semiannually at the rate of 73-10 per cent. per annum, Denominations, from \$100 to \$:0,000, Present selling price-par and accrued interest United States currency at pres nt rate of Brown's Tracheal Drops. 2. The bonds are a first and only Mertgag on the Road, its Equipments and Earnings, and also on a Laud Grant which on the completion of the Road will average 23,000 acres to each ST. JOHN. N. R. 3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a

provision which practically gives the holder the power of foreclosure at will. 4. The proceeds of all sales of Land are re quired to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edga nompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or emporarily to the payments of interest thereon f necessary. Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,— \$140,000,000 having been called in for cancel lation since September 1st—many holders of 5-20s are exchanging them for Northern Pa-cifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without exoense to the investor.
