

in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited and still continues to use it.

I believe, under kind Providence, Fellows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used, I think its value is no appreciated.

Yours truly,

JOSEPH A. EVANS,

Fellows' Hypophosphites.

CAMPBELLTON, N. B., July 1873.

JAMES I. FELLOWS, Esq.

DEAR SIR:—In the fall of 1865 William Young, Esq., merchant, Caraquet, Gloucester County, was ill with Typhoid fever. Immediately after his recovery he became effected with a cough, accompanied by much expectoration. Residing at the time in that neighborhood, my attention was called to his case, the usual tonics and expectorants were administered without any perceptible benefit. Having business in Montreal, Mr. Young consulted several eminent physicians there, including Dr. Campbell, of McGill College who advised a residence in a southern climate, as his right lung was very seriously affected with a tubercular deposit, and agreed with the opinion I had previously formed. He spent the following winter in Savannah. On his return, little or no improvement could be observed, and in a short time, frequent and profuse hemorrhage from the lungs, night sweats, and much expectoration, causing great emaciation, had reduced him to a very feeble state of health. Ascertaining the ingredients of Fellows' Compound Syrup of Hypophosphites, I resolved to give it a trial in his case. He commenced using the Syrup and in much less time than I could expect began to improve, the progress of his disease seeming to be arrested almost immediately. He had no return of the hemorrhage, his appetite has returned and his cough has abated. He was at Halifax a few days ago and is now at ending to his usual duties. I deem it a duty to you—and the public generally to give you the above statement of facts.

I certify the above to be correct,

WILLIAM YOUNG.

Yours respectfully,

A. SMITH,

Testimonial to Mr. Fellows.

We, the undersigned, clergymen of the Methodist Church in Nova Scotia, having used the preparation known as Fellows' Compound Syrup of Hypophosphites, prepared by Mr. James I. Fellows, Chemist, St. John, N. B., and having known cases wherein its effects were beneficial, believe it to be a reliable remedy for the diseases for which it is recommended:

JAMES G. HENNINGAR,
Pres. of Conference.
WM. SARGENT,
JOHN W. HOWIE,
RICHARD W. WEDDALL,
CRANSWICK JOST,
JOHN JOHNSTON.

JOHN McMURRAY,
Ex-Pres. Conference.
JOHN A. MOSHER,
STEPHEN F. HEUSTIS,
ALEX. W. NICHOLSON,
ROWLAND MORTON.

Kept Alive by Fellows' Hypophosphites.

This is to certify that in the autumn of 1867, I contracted a severe cold and cough, and was seized with pains in the chest and back. I obtained medical advice but the prescriptions effected no good whatever. The cough kept growing worse, and other symptoms set in which complicated my case, until finally I was given up to die by three physicians, who said I was far advanced in consumption, and could not recover.

I had been fourteen months gradually wasting away, unable to perform the lightest service, and fast approaching the end. At this time I had never heard of Fellows' Compound Syrup of Hypophosphites, but some of my family noticed the letter from Capt. Coßill, concerning the cure it had effected in his case, and I was persuaded to send for some of the medicine.

I commenced to take it in accordance with directions, and before I had used half a bottle I was able to resume light work in my shop, and, notwithstanding that my disease was so far advanced as to be incurable, my making use of it from time to time during the last three

years, it has sustained me, and I feel certain that I have obtained a perfect cure.

We, having been years, fully indorsed.

Horton, N. S., 1

Asthmatic

MR. JAMES I. FELLOWS:—I have received benefit from your Syrup of Hypophosphites for the last nine years. I could not time suffering intensely.

The least exposure to cold or dampness would induce an attack of the disease. Finding your Syrup of Hypophosphites in all, taken twelve for the last year have the least effect enough in praise of your remedy.

You are at liberty to use my name in any way you may think proper.
