Mgr. Emard.

Resolutions of Condolence.

At the last regular meeting of Branch No. 91
Alliston, on motion of Brother Hart, seconded in Brother Kelly, it was Resolved, that the members of this Branch desire to offer Chancellor O'Callaghan an earnest expression of their serrow on account of the heavy affliction he has sustained in the death of his promising son. That the youth removed by death for a time from a loving family circle, was a sweet, mild mannered boy, making it all the harder for the bereaved parents to bear their heavy burden.

PORT DALHOUSIE.

From our own Correspondent.

The other day I made up my mind to cross the lake and visit Port Dalhousie. I boarded the "Lakeside" in the afternoon, and although a stiff gale was blowing from the west the little steamer behaved herself admirably and did not roll very much, for which I was devoutly thankful. Port Dalhousie is picturesquely situated on a miniature promontory between the canal and the lake. The business portion of the village borders on the harbor, which is an enlargement of the entrance to the canal. The private dwellings, for the most part, occupy the eminence. As evening drew on I ascended the hill and wandered along the quiet streets. After having spent some months amid the din and tumult of Toronto, the contrast here afforded was restful and refreshing. The flower-laden air, the soft green of the verdure, the stillness of the evening, all tended to subdue the mind and stir the fancy. It made one think that here would be a fitting retreat for one of those sensitive poetic souls to take refuge in and sing his songs undisturbed by a too practical world. During my walk I passed a neat stone church. The cross on top showed that there were a number of Catholic people living in the neighborhood. On making inquiries I learned that there are about forty families whose spiritual wants are attended to by Rev. Father Allain of the western hill, St. Catharines. I was told that since he became pastor he has worked unceasingly to raise the religious and moral status of the people, and that he has been eminently successful. Although there is no Separate school, the children, nevertheless, are thoroughly grounded in the doctrines of holy faith, there From our own Correspondent.

being a well-attended Sunday school under the supervision of Dr. Considine. The Toronto Rubber Company opened a factory in the village last summer which gives employment to over a hundred people under the efficient management of Mr. Sheehan. Since the establishment of this tactory the Catholic population has increased somewhat, and more families are coming in.

The Catholic people of Thorold, a town about six miles farther up the canal, are looking forward to the 19th of June, on which day their beautiful new church is to be opened and will also be consecrated, as it is entirely free from debt. "The cathedral of the peninsula," as it has been appropriately called, is a fine large structure built of brown stene, the same kind of material as is in St. Peter's cathedral, London, and designed by the same architect, Mr. Joseph Connolly, of Toronto. A handsome new residence for the priest has also been erected, and is likewise free from debt. The good people of Thorold and their worthy pastor, Rev. Father Sullivan, are to be congratulated for having their parochial affairs in so satisfactory a state.

the harder for the bereaved parents to bear their heavy burden.

To Chancellor O'Callaghan and the mother of the dear boy whom God in His infinite wisd mas called to his reward, the members of this Branch convey their profound sympathy.
The loss they have met is a great one, and as yet they are perhaps unable to trace the merciful designs of Providence, but "the Lord loveth whom He chasteneth," and Brother O'Callaghan and his amiable spouse, in their well-founded belief in the beatific visions on which their dear one's sight is now feasing, may well exclaim "He doeth all things well."

Resolved, that the Cartholto Record and the Irish Canadian be asked to publish this motion and that a copy of it be spread on the minutes of this meeting and also sent the afflicted parents.

Mrs. Michael Langan, Plympton.

It is with deep regret I annoance the death of Mrs. Langan, of the township of Plympton, which occured on Friday, 13th of May, at the age of thirty-seven years, after an ilines of about five months. She suffered through her iliness with great patience and without a murmur. She died as she lived, in the bosom of the Church. She received the last rites of the Church shortly before, she died. She passed away in the midst of her friends, being conscious to the last. She leaves a husband and four children and many friends to mourn her loss. She was a faithful wife, kind mother and good neighbor. Her remains were followed to the church by one of the largest funerals ever seen in this locality. Requiem High Mass was celebrated for the deceased by the worthy pastor, Father Gnam. About three fourths of the people who attended the funeral were non-Catholics, whom Father Gnam thanked very much, on behalf of the bereaved family, for the sympathy they showed towards them, and was glad to know that bigotry was fast dying out. He then explained to the people in a firm and satisfactory way why Catholics so frequently pray for the dead, and spoke for a while on the loss the family had sustained until the people were moved to tears. The remains were then taken to the family plot in the cemetery. May her soul rest in peace!

Mrs. Margaret Dunn, Woodstock.

Mrs. Margaret Dunn, widow of the late Denis Dunn, of Woodstock. died suddenly at the residence of her son, Michael Dunn, of St. Thomas, on the morning of Friday, the 2-th ult. The deceased lady was in her seventy-fifth year of age, and enjoyed comparatively good health all through life. About one year ago she suffered from a severe attack of influenza, from which, although at times apparently well, she never rallied completely. On the evening of last Thursday it was deemed advisable to call in the family physician; but he declared there was no danger whatever, left some medicine and promised to call in the morning. Her daughter-in-law sat up until past midnight, ministering to her according to the doctor's prescription, and then retired leaving her quite easy and sleeping. Her first thought on awaking next morning was to send for the priest, but on entering the room of the invalid she found her past all human sid; the old lady had passed away quietly, it is surmised, from heart failure. From the warmth of the body it was evident life was not long extinct. Although Mrs. Dunn's sudden death could not have been foreseen, it must be gratifying to her surviving relatives to know that on the Sunday previous to her demise she attended Mass at her parish church and received holy Communion. The funeral obsequies took place on Sunday morning from the church of the Holy Angels. Rev. Father Flannery sang Requiem High Mass and preached an eloquent sermon on the suddenness of death and the necessity of living always prepared. A very large concourse of sympathizing friends attended the funeral to the Catholic cemetery. R. I. P. Mrs. Margaret Dunn, Woodstock.

Daily Journal, May 13.

At the forenoon service in St. Catherine's Church yesterday Very Rev. Dean Harris preached a most eloquent and interesting sermon, taking his text from the words of the Gospel for the day.

Tho Canadian Freeman, Kingston, says: "Workingmen are flocking around the old Regiopolis College in expectation of getting a job of some kind. Archbishop Cleary has created more work for the poor workingman and mechanic since he first came to Kingston than all the other denominations and members combined. A glance at the immense structures just about completed will readily convince any one of the fact. His Grace is indeed a true friend of the mechanic and artisan." For the same reason one may truly say that the Very Rev. Dean Harris, of this city, is "indeed a true friend of the mechanic and artisan."

Services in connection with the opening of the new St. John's Catholic church in East Toronto village were held yesterday. Father Reilly celebrated Mass, and His Grace Archishop Walsh delivered the sermon. He congratulated Father O'Reilly as well as Catholics and Protestant friends who had assisted in building the church, which was a credit to the eastern part of the city. Amongst the residents present at the church were: Mayor Stephenson, Councillor Morton and Messrs, Rogerson, Murray, McLaughlin and Lynch. Several prominent people from the city also attended, viz., James Murray, of W. A. Murray & Co.; J. J. Cosgrove, deputy collector of Inland Revenue, Angus Kerr and James McGuire. The choir of St. Joseph's church, of Leslieville, looked after the musical part of the service and acquitted themselves creditably. — Toronto Empire, May 23.

Miss McKeon felt very much flattered to
think her slight efforts had merited such tokens
of regard as was manifested by all, particularly
by the members of the choir, since her coming

THE TELEPHONE DEAL.

THE BELL PEOPLE ACQUIRE THE ONTARIO STOCK ON TERMS SATISFACTORY TO THE SHAREHOLDERS.

Peterborough Examiner, May 18, 1892. Peterborough Examiner, May 18, 1892.

The telephone deal, by which the Ontario Telephone Company is to be absorbed by the Bell, was practically consummated last night at the annual meeting of the former. There was a good attendance of shareholders, and President Kendry's report, which we give be low, placed before the meeting in a very concise way the present position of the company and the reasons for the deal in which the Directors are leading.

President Kendry's report, which we give below, placed before the meeting in a very concise way the present position of the company and the reasons for the deal in which the Directors are leading.

After a very full and frank discussion, with explanations from the President and members of the Board, the report was unanimously adopted. The following is the full text of THE THE INDEXENT'S REPORT.

To the Shareholders of the Ontario Telephone Company:

Gentlemes—In presenting to you the first annual report of the transactions of our company. I regret that I cannot congratulate you on the result of last year's operations. The estimates furnished us by the gentlemen who undertook the construction of our system proved altogether urpeliable. The plant instead of costing us 89,000, as was promised and anticipated, cost us nearly, if not quite, double that amount. To this one fact alone we can lay the whole blame of our present position, for it is easy to understand that the rate which was calculated to yield a dividend upon an investment of 19,000 is altogether insufficient under existing circumstances.

Your directors during the past year have devoted many hours weekly to the management of the company and have further carried the concern entirely on their own personal credit with the banks. In addition to the heavy load, as you know, to fight against the strongest possible competition from the Bell Company. The result, as I said before, has not heen encouraging, and your directors feel that they cannot longer devote the time and money to a proper management of feel that they cannot longer devote the time and money to a proper management of the business and the operation of the exchange.

have led to the present surrender, and will

The balance sheet and auditor's report, which,
I regret to say, are so unfavorable, are submitted herewith for your inspection.

mitted herewith for your inspection.

In regard to the future policy of the Bell Telephone Company, nothing has been decided nor will be done until the meeting of the Board. Those who understand the inside working of the local telephone company know that President Kendry and his board of directors have fought a good fight, and that if success had been possible they would havegained it. While the officials frankly give expression to their belief that the fight is over, they retire not without honors. The public will echo their congratulations that they have given their patrons an excellent service, and that in trying the experiment of cheap telephone service they have given it every chance of success, and the result is not due to any fault of theirs. The arrangement is an amicable one and as such will be hailed with very general satisfaction.

MARKET REPORTS.

London, June 2nd, 1802.

There was a large market to-day, and a great quantity of produce came, so much so that the narket square was filled with teams and the alpining streets as well. Grain deliveries were good, and wheat was steady at \$1.88 per cental. No change in peas and barley. The meat market had a large supply, and beef was easier, at 50 50,59 per cwt. Mutton steady, at \$8 cents a pound. Veal, 4 to 6 cents a pound by the carcass. Pork was scarce, at \$5.50 cwt. The poultry supply was large, and spring chickens went down to 50 and 70 cents a pair. Turkey, 10 to 21 cents a pound. Butter was cheap, at 12 to 15 cents a pound. Eggs were more plentiful, at 10 to 12 cents a dozen. Potates went dull, at 55 to 40 cents a pound. Eggs were more plentiful, at 50 to 40 cents a bag. Green vegetables at our quotations. A few apples sold at \$1 a bag. Young pigs, 82,59 to 55 apair. Milch cows, 335 to 50 apiece. CATTLE.—The market was weak all round, there being no improvement from last week's drop. Exporters were off from \$4 to \$5 per head. Choice animals moved fairly well, but dealers were not inclined to move with a vim, and a good deal of stuff was left over at the close. Practically the highest figure reached for export cattle was 5c per pound, athough some dealers quoted at \$c\$ higher for one or two extra fancy lots. A number of loads were bought at \$4c\$, and the range was from \$4c\$ to \$4c\$ per pound for the bulk of the stock taken.

Milch Cows and Sringers—Business in this line is still somewhat draggy. Choice backward springers for export self fairly well at from \$40 to \$50 per head. A few head were taken at a fraction higher than the latter figure. Milch cows found only a slow sale, those with calves at heel being most in demand for local dairymen. These brought from \$50 to \$5.50 per head, according to quality. A carload of sheep was sold for the former figure. Yearlings are most in demand. Spring lambs were a little more ilentiful, but the demand was not extra brisk. These sold at from \$5.50 to \$5.50 per head, according to size and condition.

CALVES—There is nothing to note toward improvement in this line, the general dullness of the market pervading everything. One or two extra choice veals brought that shigh as \$0 to \$5.50, but most of the sales were made at figures away below this. A bunch of nineteen \$2.50, but most of the sales were made at figures away below this. A bunch of nineteen \$2.50, but most of the sales were made at figures away below this. One of the best known American proprietary medicine houses, the head of which is the president of a leading National Baak in New York state, has recently purchased a half interest in the trade mark of the Dr. William's Medicine Co. for the United States only, for which, we understand, the consideration was \$25,000. This sale is probably the first instance in which an American institution has purchased an interest in a Canadian remedy, and offers the very best proof of the sterling merits of Dr.

Canon Hobson, of Exeter, England. has made an amusing and effective re-futation of charges by Miss Cusack against the Catholic Church. He has against the Catholic Church. He has taken the 'Life of the Blessed Virgin," by "Sister Mary Francis Clare," in 1880, and culled from it passages dealing with Miss Cusack's charges. On every point the refutation is complete, the nun denouncing in the warmest language the accusations now made by the ex-nun.
