Student Building Begins

The sod turning ceremony last week marked the first step in the completion of the new student centre to be built by the students of the University, of St. Thomas, and of Teachers College.

Three student council presidents simultaneously turned sods at the site, symbolizing the cooperation of the institutions in student

SUB Art Contest a Success

SUB board will choose Gilles Tautin

Directors of the building after international figure Martin Luther King, who was assassinated in 1968. The meeting last week did not disprove of this idea, but members of the board suggested that an appeal to the public (students) be made for suggestions. Several students submitted names with some suggestions.

Suggests SUB be named after Gilles Tautin

I respectfully submit that the new SUB be named the "Gilles Tautin Memorial Building" in honor of this sparkling French youth who lost his life in the struggle against the causality of the "revolution", each throwing a rose upon his sepulchre. I in no way question the sincerity of Mr. Davis in his desire to name the SUB after Martin Luther King, and that his fearful action be remembered by naming the SUB named after him. This tribute will insure that he is remembered as long as SUB stands.
