Halifax, N. S.

20th November, 1941.

Hon. T. A. Crerar,  
Minister of Mines & Resources,  
Saint Lin, Quebec.

Dear Mr. Crerar:-

I should have loved dearly to have been present today at Saint Lin to do honour to the memory of Sir Wilfrid Laurier. But circumstances forbid.

Sir Wilfrid always drew others to him with a ready liking, which deepened into warm regard as they grew to know him better and, ever more highly, to appreciate his true worth. An invariable courtesy marked his every word and gesture. A man of many gifts he possessed a charm of manner which enabled him to mix with men of all ages and every rank.

Fortunately he devoted his great talents to the public service throughout life and all who knew him in that field of action will bear willing testimony to the great services with which throughout his brilliant career he enriched the public life of Canada. His example and achievements remain a fitting pattern and living challenge for emulation by succeeding generations of youthful Canadians.

Yours sincerely,

*F. B. McCurdy*
