

Toronto. The vast regions of New Ontario contain thousands of miles of lakes, forests and streams, whose resources for sport and pleasure have not yet been even touched. To the tourist from other cities, Toronto itself is a delightful visiting place, replete in beauty and opportunities for enjoyment. Its situation gives it an equable and healthy climate; its excellent street railway service affords great convenience for sight seeing, and its hotel accommodations are both extensive and moderate in cost. It has been called "The Convention City," and the thousands who have visited it on such occasions bear cordial testimony to the hospitality of its people and the multitude of its attractions. The city contains 150 hotels, 300 boarding houses, 5 theatres, 22 music and concert halls and nearly 250 public buildings and halls for meetings of all kinds.

**Toronto—
A City of
Charming
Homes.**

It is safe to say that no city of equal size in America contains so many substantial and artistic homes and so delightful a series of residential districts as Toronto. It is essentially a city of homes, a city which presents attractions to home life unequalled elsewhere. In summer the thousands of wide-spreading trees throw their cooling foliage across the roadways, forming, with the well-trimmed and flower-bordered lawns, many vistas of surpassing charm. Parks of large expanse and great natural beauty may be found in every section of the city, while the deep vines of Rosedale, the heights of the northern boundary, and the wonderful panorama of Lake Ontario's changing tints, lend their added loveliness to the surroundings. In front of the city is Toronto Island, where, within but a few minutes of the busiest streets, one may find quietness, fresh air, and all the delights of shady groves, sandy beaches and tumbling waves. Several other summer suburbs of the same attractiveness exist along the lake shore, while steamers ply in every direction, affording a wide variety of pleasure excursions at moderate cost. The climate of Toronto is very moderate, and the somewhat short winter is full of pleasant occupations, each season bringing its series of notable dramatic, musical and other entertainments; for Toronto is a generous patron of good art and never fails to attract to its doors those who are most famous on the lecture platform or the dramatic stage.
