THIS MEDICINE IS BREATHED.

That's why it is sure to cure Ĉatarrh. You see it goes direct to the source of the disease,—its healing vapor repairs the damage caused by satarrhal inflammation. "Catarrhozone" always cures because it goes into those 'tiny cells and passages that ordinary remedies can't reach, goes where the disease actually is. Impossible for "Catarrhozone" to fail as any doctor will tell you. Don't be misled into thinking there is anything as good as Catarrhozone—use it and you'll soon say good-bye to catarrh.

Catarrh in its various forms is a national disease, and the fact that nearly everybody suffers from it more or less leads many to neglect its proper treatment.

Nasal catarrh is a common cause of headaches, destroys sense of smell and if neglected reacher the throat, causing impairment and sometimes total loss of voice. Bronchial catarrh leads easily to consumption. Catarrh of stomach and liver are very serious and obstinate tron-

agging. The old style of treatment with doucher inhalers, sprays, salves, etc., simply give temporary relief and everyone who has used any of them knows how useless they are and their inconvenience is such that very few have the time or patience to

continue their use.

A radical cure of catarrh can only be obtained from a treatment which removes the catarrhal taint from the blood because no one will now dispute that Cararrh is a constitutional or blood disease, and local applications can because the catarrhan taint or some constitution of the catarrhan can be catarran and local applications can have no effect exept to temporarily relieve local symp

If desired, when there is much stoppage of the nose, the tablets may be dissolved in warm water and used as a douche in addition to internal use, but a douche is not at all necessary. A few dissolved in the mouth daily will be sufficient. Tree That Turns to Stone. There is a tree that grows in Mexico called the chijol, or stone tree. It is of enormous proportions, both in circumference and height. It has a number of branches spreading out widely ber of branches spreading out widely and carrying leaves of a yellowish green color. The wood is extremely fine and easily worked in a green state. It is not given to either warping or splitting. The most remarkable thing about it is that after being cut the wood gets gradustly harder, and in the course of a few years it is absolutely partified whether left in the open air petrified whether left in the open air or buried in the ground. From this timber houses can be built that would in a few years become completely fire-proof and would last as long as though built of stone.

Dodd's Dyspepsia Tablets Cured The Stomach Trouble That Confined Henry A. Coles to His Bed.

One of the unpresent features of Indigestion and Dyspepsia is that it always keeps getting worse. Take the case of Henry A. Coles, of St. Mary's River, Guysboro Co., N. S.

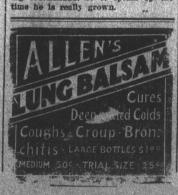

He says:

"I had Stomach Trouble for about five years, more or less, and at last I was taken to my bed and the doctor called in. He did me no good. I was suffering a great deal and did not know what to do."

Everyone must admit Mr. Coles was in a bad way. But that's what Indigestion leads to if you neglect it. But if Mr. Coles did not know what to do, his wife did. She said, "Try Dodd's Dyspepsia Tablets." Like a wise man he took his wife's advice, and of the result he says:

"I took seven hoxes, and I have not felt any of the trouble since. I heartily recommend Dodd's Dyspepsia Tablets to any sufferer from Stomach Trouble. They cured me."

The Lobster's Advantage The lobster has been endowed by na-ture with two gifts which go far to offset the evils attending his lot. One is the ability to fight early, often and all the time if becessary, and the other is the ability to grow a new member—an eye, a leg or a claw—whenever the orig-inal is lost in the fortunes of war or by reason of any domestic unpleasantness. It is these two gifts which enable him to grow up and become a useful mem-ber of society, most of his members be-ing secondhand, so to speak, by the

Ghosts would frighten many people who are not afraid of germs. Yet the germ is a real danger. If this microscopic animalism could be magnified to a size in proportion to its deadliness it would show like a giant python, or fire breathing dragon. The one fact to remember is that the germ is powerless to harm the body when the blood is pure. It is far easier to keep the germ out than to drive it out after it obtains a hold in the system. Dr. Pierce's Golden Medical Discovery is the most powerful and perfect of blood purifying medicines. It increases the quantity as well as the quality of the blood, and enables the body to resist disease, or to throw it off if disease has obtained a footing in some weak organ. Wherever the digestion is impared, the nutrition of the body is diminished, for the blood is made from the food which is eaten, and half digested food cannot supply the body with blood in quantity and quality adequate to its needs. For this condition there is no remedy equal to "Golden Medical Discovery." quality accquate to its needs. For this condition there is no remedy equal to "Golden Medical Discovery."
