HALIFAX, N. S.

## A Dollar Saved IS A Dollar Earned

WE have been wondering whether a number of ladies in the north and south end of this city who occasionally pass our door in the street cars realise that it would pay them to come in and get some prices on grocery supplies. If they did we know we would see quite a number more of them than we do at present. For instance, in a house where many canned goods are used, it surely ought to pay to buy them by the dozen instead of by the single can. We are wholesalers as well as retailers and the customer who buys a dozen gets our wholesale price. We try to carry absolutely everything that the average household is likely to want in the way of food supplies. We buy in the biggest quantities and we buy for cash so that we know to a certainty that at least our cost prices are as low as anybody can obtain. Our telephone number is 795 and if you want to know what we sell things at, all you have to do is to call us up. Our team delivers goods at all parts of the city. Some of the shrewdest house-keepers in the province get practically all their groceries from us. They have found it pays.
