BT Manure Carriers

have proved their value and superiority. They are easy to install—the track can be bent around curves without heat; the only tools needed are a hammer and wrench. The hangers button through holes in the I-beam track; can be suspended at any angle; only one style of hangers needed for any barn. The rounded surface of the track prevents accumulation of dirt or ice. The handwheel windless makes it easy to raise and lower the tub when loaded; also serves as a clean handle with which you can run the loaded bucket out of the barn—keeps your hands from touching the manure. The tub holds half-a-ton of manure; made of 18-gauge galvanized iron, and strong enough to stand up to the work for 50 years. Carefully galvanized to hold all the liquid manure. Carrier dumps either way; is self-cleaning. You will be interested to know about the above and many other features of the BT Carriers. You will be interested in other BT Equipment.
