

COUNTER & CO'S

IMPROVED
SELF-HEATING SMOOTHING
— AND —

Polishing Iron.

THE NEW PATENT IMPROVED GRATE

which I now use in this iron makes it a most complete success. It can now be kept hot without the least difficulty, which, combined with its other superior qualities, renders it the most pleasant and profitable article in existence for performing this most necessary work. We will send them on approval. Write for terms and testimonials, also for

Mrs. M. Counter's Patent Ironing Table and Shirt-board Combined.

BAIN'S
IMPROVED
BOB-
SLEIGH.

Patented January 13, 1888.

Reasons Why our Sleigh is the Best in the Market:

BECAUSE with our Patent Attachment to Hind-Bob, it is the easiest running Sleigh made. Because it will go in and out of pitch-holes without any strain on itself, even when heavily loaded. Because it will go in and out of pitch-holes, without hind bolster sliding back and forth on the box or rack, as it does with the old coupling. Because with our improved coupling it can be backed up the same as a wagon. Because with our swivel in coupling it can be used on the roughest roads without any twist to the reach. Because with our swivel in coupling it will allow either bob to turn up or its side when loading or unloading logs without any danger of breaking the reach. Because with our improved coupling it can be turned around in its own length. Because it is always in line and will track under all circumstances. Because it cuts off less than any other sleigh made. Because it is well made of the very best wood and iron. Because it has a good length of runner and faced with a two-inch steel shoe. Because all sleigh-makers who have seen our coupling, say that it is just what was wanted to make the bob-sleigh perfect, and wonder why such a simple and necessary improvement was not thought of before.

310-k-O MADE BY THE BAIN BROS. MFG. CO., L'td., BRANTFORD, ONT.

The Bain Wagon Co., Woodstock, Ont.

WE WON'T BE UNDERSOLD.

BAIN WAGON CO'Y.

The Razor Steel, Secret Temper, Cross-Cut Saw

WE take pleasure in offering to the public a Saw manufactured of the finest quality of steel and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A Saw to cut fast "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves.

These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good ask your merchant to let you take them both home, and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a Saw for one dollar less, and lose 25 cts. per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.

MANUFACTURED ONLY BY

SHURLY & DIETRICH,

GALT, ONTARIO.
