

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Orb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misapplied. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes, and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

QUESTIONS AND ANSWERS. Miscellaneous.

TENANT REMOVING SHEAVES.

Can a tenant remove oat sheaves from a rented farm, the terms of the lease being straw to be fed or left on farm?

Ontario. O. K.

Ans.—No.

POISONING FOXES—KILLING DOGS.

1. Can a person put out poison (strychnine) to poison foxes on their own land without violating the law?

2. Can I put out strychnine on a bait below high-water mark on the river?

3. What could my neighbor do if I poisoned his dog?

4. If my dog runs to the road after teams or passersby, are they at liberty to shoot him? (It is Quebec laws I want.)

Quebec. H. G. Y.

Ans.—1 and 2. Write to the Superintendent of Fishery and Game, Quebec, Que., for a copy of the printed regulations.

3. He could bring an action against you for damages.

4. Not unless it be actually necessary in self-defence, either of person or horses.

SCHOOL TEACHING.

1. What is the present law regarding a teacher's salary for next year?

2. Is it necessary for a teacher to teach a fifth class in a public school, providing one or two more are sent to the school?

3. If so, what subjects may be taught?

4. Who has any authority to expel a fifth class from school?

5. What are the grants to a public-school section for next year?

6. Are any of the grants cancelled by hiring a non-professional teacher at present salary assessment?

Ontario.

Ans.—1 and 5. The statutory provisions in point are lengthy and somewhat elaborate, and we have, accordingly, to refer you to the statute books, at certain pages, for the desired information, viz.: Ontario Statutes, of 1901, at pages 106, 146 and 147; of 1906, at pages 450 and 451, and of 1907, at pages 377 and 378.

2, 3 and 4. As to these matters, and, indeed, with regard to all the questions you ask, it would be well for you to see the Inspector, and have him show you the provisions applicable contained in the regulations, as well as those to be found in The Public Schools Act and amending Acts.

6. Yes.

STORING CABBAGE FOR WINTER.

I would be glad to find out a proper way to put away cabbages for winter use. Cannot they be put away in moulds? How about beet roots?

A BEGINNER.

Ans.—Re keeping of cabbages during the winter season, as your subscriber suggests, these can be and are best kept out of doors beneath soil. Our plan is to turn the cabbages on their heads, setting them closely together in a bed, say, 4 feet to 5 feet wide, then putting a second tier above the first in between the stalks, these, also, being packed close together. After that, a small quantity of earth is put over, possibly two or three inches; and, if kept until late into the winter, we further cover them with stable manure to the depth of five or six inches. Beet roots can be either pitted the same as potatoes, or put in a root-house, in bins. If placed in house cellars, where the temperature rises above 40 degrees, where it is dry, they should be put into boxes, or cases, and covered, with earth put over in order to keep them from wilting. We use the word "bed" in reference to the pitting of cabbages; this is only to denote the form of placing, they being actually set on the surface of the ground.
