

The Grain Growers' Guide

G. F. CHIPMAN, Editor.

Published under the auspices and employed as the Official Organ of the Manitoba Grain Growers' Association, the Saskatchewan Grain Growers' Association, and the United Farmers of Alberta.

The Guide is designed to give uncolored news from the world of thought and action and honest opinions thereon, with the object of aiding our people to form correct views upon economic, social and moral questions, so that the growth of society may continually be in the direction of more equitable, kinder and wiser relations between its members, resulting in the widest possible increase and diffusion of material prosperity, intellectual development, right living, health and happiness.

Published every Wednesday at Winnipeg, Canada. Authorized by the Postmaster-General, Ottawa, Canada, for transmission as second class mail matter.

Volume V. August 21st, 1912 Number 8

FARMING FOR PROFIT

Every farmer can increase his income by increasing his knowledge of farming. Agricultural science has advanced with tremendous strides in the last few years. What is known as "Dry Farming" is now regarded as one of the greatest discoveries. In Western Canada this subject is of the deepest interest to every farmer. The World's Dry Farming Congress meets in Lethbridge in October. Farmers should equip themselves to use all the useful information. We have secured the best book on the subject. "Dry Farming" by Dr. Wm. Macdonald deals with every phase of the dry farming question and it is a mine of information for any farmer who desires to increase his knowledge of his business. Sent to any address postpaid by return mail for \$1.30.

The capital employed in manufacturing increased during the decade by 178.58 per cent., and the value of products by 142.11 per cent. The number of establishments employing five hundred hands and over last year was 19,202, being an increase of 4,552 in the decade.

TAXING SUBURBAN LAND VALUES

Moose Jaw, Sask., Aug. 19.—The rural municipality of Moose Jaw has decided to take to itself some of the profits that are being made by the owners of sub-divisions within its boundaries. In other words it is taking full advantage of the taxing powers conferred upon it by the rural municipalities act and, as a result, expects to collect from the owners of sub-divisions about \$25,000.

The owners of sub-divisions lying outside the city limits have been enjoying what has been considered a particularly good thing. They have reaped all the advantage resulting from advertising of the fact that their holdings are only a comparatively short distance from the city, while at the same time they have escaped the high civic assessment and the not inconsiderable tax rate. It, however, came to the ears of those composing the rural municipality that certain amendments to the act enabled them to take for municipal and school purposes a little of those good things. They consulted with their solicitor, who said "certainly," and now the secretary-treasurer is busy issuing his tax papers. These papers will be received with mixed feelings by owners who viewed with equanimity the boosted civic assessments of their neighbors.

The Guide is the only paper in Canada that is absolutely owned and controlled by the organized farmers. It is entirely independent, and not one dollar of political, capitalistic or special interest money is invested in it. All opinions expressed in The Guide are with the aim to make Canada a better country and to bring forward the day when "Equal Rights to All and Special Privileges to None" shall prevail.

ONE OF THE OBJECTS IN VIEW

A couple of hundred years ago a favorite device of arbitrary rulers, troubled by popular demands for reform at home, was to engage their nations in foreign war as a means of diverting attention from domestic grievances. A somewhat similar policy is apparently being pursued to-day in Britain by the great brewers, the landlord class, the Established Church, the House of Lords, and other like selfish interests. These are, there is good reason to believe, deliberately using the alleged danger of German aggression as a means of side-tracking Lloyd George schemes for land reform, temperance reform, disestablishment of a church no longer national and a general readjustment of conditions in the interests of the toiling masses. The great selfish interests referred to form a powerful ally for the manufacturers of armaments and professional soldiers and naval officers who profit directly by war alarms. Combined, these may, unless checked, bring about the thing concerning which they are maintaining such a continuous clamor and by so doing set back the clock of civilization for a century.

The most effective check that could be given to what is going on would be the absolute refusal of Canada and the other Dominions to have any part or lot in the matter.—Toronto Sun.

GOVERNMENT AIDS FARMERS

The New South Wales Minister of Works on Saturday formally opened a canal at Yanco supplying 14,000 acres of the first section of the Murrumbidgee irrigation settlement, for which a perpetual water supply has been ensured by the great Burrinjuck reservoir. The settlement scheme covers one million acres in the Riverina, of which 300,000 acres are irrigable. The Government will establish a non-political Commission, which will control the settlement and auxiliary industries, including butter and bacon factories and fruit canneries, and will also handle the produce for market. All these industries are eventually to be transferred to the settlers for co-operative working.—Australian Paper.
