WINNIPEG MARKET LETTER

(Office of the Grain Growers' Grain Company Limited. October 11, 1918)

Wheat.—Prices were somewhat irregular this past week, weaker at the outset but towards the middle a much firmer feeling settled in, later reaching to within 1 cent of las. Saturday's close for October; May loss for the week being about 1 ceut.

The demand on the whole has been indifferent, but towards the close of the week all grades were well inquired for. Arrivals are very heavy and quality is keeping up well.

Foreign news wired. Dry weather continues and holders of wheat there are asking advances. Hungarian offers were held firmly. France continued a free buyer of wheat in all positions and the Mediterranean countries were taking more of this grain. These conditions at least particuly offset the effect of continued free offerings by Russia and Canada, coupled with the better outlook in Australia. Foreign crop conditions by cable say that in the United Kingdom everything has been favorable for seeding and finishing the harvest. In Germany seeding for the new crop is favorable.

Oats.—Oats held fairly steady all week and the close was 1 over the October Option last Saturday. Demand fair.

Oats.—Oats held fairly steady all week and the close was I over the October Option last Saturday.

Demand fair.

Barley.—Demand very poor practically all week and the close sees no buyers for either 8 C.W. or 4 C.W.
Flax.—Situation unchanged, trade fair and prices steady, closing I lower for October-compared with last Saturday's closing figure.

Liverpool, Oct. 11.—The steady Winnipeg market yesterday and firm Canadian offers stimulated some covering by shorts here and there was an improved demand from the continent for cargoes. Later, market was dull but steady, with speculative specific, notwithstanding the expected liberal stipments from America, as indicated by Bradstreets, talk of heavy Russian shipments, favorable weather and crop advices from Argentine, and freer native offers. Market closed steady, unchanged to f bigher.

Broomball says during the past period of large production, price of wheat has not been depressed as average price of contract wheat in Liverpool during the past four seasons has been but 6 shillings per 100 fbs., or 86 shillings per 480 fbs. Prices are now well below that level, and it appears that we are not far from the bottom, as the pressure of Russian and Canadian supplies is now about as severe as it will be at any time this season.

CHICAGO GRAIN MARKET
Chicago, Oct 12.—Well directed pressure on the selling side Saturday, broke the price of wheat. There was no good support. The market closed nervous, I to I to I off. Corn finished I to I to I cent down, and oats at a decline of I to I to I. Notwithstanding that cables were firm; the hear captured control of wheat almost at the outset and managed throughout the session to prevent any important rally. Brokers for a well-known speculator were conspicuous in the selling, but many of the larger houses joined in the raid on prices. Wheat longs had to contend with the fact that receipts here this week were larger than shipments the first showing of the sort in some time. Pesides, Winnipeg arrivals were about equal to last week and far in excess of a year ago, with stocks piling up at Duluth and Minneapolis, despite a falling off in the movement from first hands.

Liverpool. Liverpook
Liverpool. Oct. 12.—Frank Devaney and Company report that with the advent of cooler weather the demand for beef has been improved somewhat and therefore cattle at the stock exchange are firmer. Prices, however, are not notably higher and deman at 134 to 14 cents per pound for Irish steers and heifers.

Stockyard Receipts

Receipts at the local yards for the past week amounted to 2,927 cattle, 542 calves, 1,906 hogs and 2,888 sheep, as compared with the previous week's figures of 3,500 cattle, 299 calves, 1,172 hogs and 699 sheep. For the corresponding week last year the number amounted to 4,309 cattle, 1,230 hogs and 2,974 sheep.

Cattle

The taking of the American duty off cattle imported from Canada has had the immediate effect of stimulating the trade and raising the price from 25 to 50 cents per hundred. Choice butcher stuff advances to \$6 50, best fat cows to \$5 75, best bulls to \$4 75 and so on all along the line. A keener demand was felt from Western buyers especially on stockers and freeders. Best freeders, 900 lbs or so, commanded \$5 60 to \$5 85, and the fair to good sort, weighing 100 to \$60 lbs less, sold \$5 35 to \$5 60. Best milkers and springers have gone up to \$70 00 to \$80 00, and common and medium milkers and springers are worth \$45 00 to \$60 00. The outlook is good for continued better prices. Some dealers are complaining that the opening of the American market will clean out too many cattle and leave Canada quite depleted, but up to the present the main effect has been the stiffening up of prices. A big offering of veals kept the prices down to \$7 00 and \$7 50 for the best, \$6 00 to \$6.50 for the medium good.

Moderate supplies of togs came to hand during the week, but prices held level up to Saturday. With the new week hogs went down to \$4.70, with the \$2 cent cut on roughs. Little change is expected in this level.

Sheep and Lambs

Nearly 3,000 sheep and lambs were received

Sheep and Lambs
Nearly 3,000 sheep and lambs were received during the week and the trade was slow. Values are unchanged, best sheep worth up to \$5.50, best lambs \$6.00 to \$6.50.

Country Produce

Note -Quotations are f.o.b Winnipeg, except those for cream, which are f.o.b. point of shipment.

those for cream, which are Lo.b. Winnipeg, except Butter

No changes have occurred in the butter market during the week, fancy dairy still being worth \$1\$ to \$5\$ cents. No. I dairy \$2\$ cents and good roundlots \$0\$ cents. The reduction of the American duty is expected to have some effect before long, but as yet there has been no appreciable effect on price. The American demand for round lots of butter of the common sort will be large, as they can renovate butter in their own plants.

Candled eggs have jumped up to \$7\$ cents, while 35 cents will gladly be paid for as many of the strictly new laids as dealers can get their hands on.

Postoner

Po atoes

Potatoes are offering f.eely, and are worth 88 cents, shipped in sacks. This is expected to be the level for a good while, as the supply in sight is quite large.

the level for a good while, as the supply in sight is quite large.

Milk and Cream

The same scale of prices as have prevailed for two weeks will hold until the middle of the month, when there will be an increase, but the dealers have not determined what the new schedule will be.

Dressed Meste.

Dressed Meats

Dressed heef is up \$\frac{1}{2}\$ cent, now being worth 11 cents for choice. Other meats are about the same, 14 cents for veal, 18 cents for dressed hogs, 12\$\frac{1}{2}\$ cents for mutton and 15 cents for fresh spring

Wild hay is unchanged, at \$11 00 to \$12 00 for best Red Top, \$10 00 to \$11 00 for best Upland. Timothy is down a couple of dollars, \$13 00 to \$15 00 for best grade. No effect is yet seen locally on account of the U.S. tariff reduction.
