complacent comments about the possible opening of the Dr. Daniel's 'so British people will consider the question carefully before they rush to the conclusion that British interests will be most seriously and also French interests, owing to France's interest in the Levant, we do not deny; but now that we hold Egypt we have no special interests in the Turkish end of the Mediterranean.

This exposition is shaped by a committee of the ablest business men of Portland and the Northwest, and is deserving of the confidence of Asiatic governments. It will be well worthy of a visit, also, not only to see the exhibits but to become acquainted with the states, cities, interests and people of the Pacific Northwest, which is rapidly forging to the front as a most important section of America.

Portland has now under way plans for an Exposition to celebrate the 100th anniversary of the expedition of Lewis and Clark, the celebrated pioneers, to the Pacific Northwest, and the consequent opening up of that country to settlement which led to the final acquisition by the United States, not only of Oregon, Idaho and Montana, while it will not be as large as the Louisiana Purchase Exposition, it will be of sufficient importance to deserve creditable exhibits from Asiatic countries.
