LIGHT WHEAT CROP

"The world's wheat crop this year
will be at least from 200,000,000 to
250,000,000 bushels less than last
year," was the estimate made yesterday
by Mr. R. R. Dobell, manager of the
foreign department of the Ogilvie Flour
Mills Co., Limited, who has just re-
turned from a two month's trip abroad
in the interests of his company.

Referring to European crop con-
ditions, Mr. Dobell stated that they
showed very mixed prospects. While
several important countries would have
better yields than last year, India was
estimated as only likely to ship
40,000,000 bushels of wheat or about
half her last year's export figures. As
India's wheat export forms a large
proportion of Great Britain's mill
supply, the shortage will be felt sever-
ly, consequently a liberal quantity will
have to be garnered elsewhere in order
to make up the deficiency.

"With respect to Russia," added Mr.
Dobell, "the reports, as is natural with
so vast a country, are varied. While
in Britain I saw reports from the
Volga districts, saying the seed had
failed to germinate, which forebadowed
that suffering and famine in this section
will be rampant. In South-western
Russia harvesting is reported to be
progressing under favorable conditions,
and the prospects point to good crops."

While ridiculed by many, he stated
that the belief, however, was enter-
tained by conservative people that the
possibility existed of the Russian Gov-
ernment prohibiting the export of
wheat, especially if the sufferings
from famine reached an acute stage.
In any case, the crops in the south-
east, east and centre of Russia would
show a very serious falling off from
those of recent years. In Roumania
the crop is estimated at fully 40 per
cent under that of last year.

It was therefore quite evident that
America would be more the dictator of
prices than had been the case in most
recent years.

Germany, Mr. Dobell proceeded to
say, would likely garner an excellent
crop, and considerably in excess of last
year, the production having received an
impetus by increased duties levied to
protect the agricultural classes.

From Spain, which country suffered so
severely last year from bad crops,
came reports to the effect that the
outlook was excellent, and both France
and Italy were expected to harvest
crops at least equal to those of last
year.

He likewise observed that stocks
generally of wheat and flour in the for-
eign markets were light, and the general
opinion was that higher prices
were likely to rule in the near future.

"What about the British Isles?" he
was asked.

"The crops in Great Britain are a
good average," said he. "Public sen-
timent towards Canada is exceedingly
favorable, and the disposition, is gen-
eral to turn all possible business in
this direction."

Food Value of Cheese

Good cheese, properly ripened, says
J. A. Riddick, Dairy Commissioner,
a very nutritious and easily digested
food. One pound of it is said to con-
tain as much nutriment as 2½ pounds
of beef. A well-made cheese should
not be eaten before it is six months
old, and if kept under proper conditions
it will be better when twelve months
old.

The use of cheese by Canadians of all
classes is rapidly increasing.

The great curative powers of this
remarkable remedy is attracting much
attention and everywhere it has been
introduced it is win-
ning its way among
the people. It is a
powerful, penetrating
oil which we believe
has a larger percentage of cures of
rheumatism to its credit than any
other remedy ever offered for this
dread disease. It acts directly on the
bone—the lodging place of rheumatism
—dispels the poisonous acid from the
joints to be carried out of the system
in the natural way and by its splendid
work has proved that the surest and
quickest method of getting relief from
the torturing pains of rheumatism, as
well as the common sense way, is by a
direct attack on the affected part. For
the small ills of life it is invaluable.

Mrs. W. H. Thomas of Lombardy
writes as follows:—I was subject to
stiff neck. Suffered for years and
have been as long as two weeks at a
time not able to turn my head without
turning my whole body. I doctored
and got relief only to have the trouble
return again. In August last I had a
severe attack and I tried Tuck's
Rheumatic Bone Oil having been
reading in the newspapers about how
good it was for rheumatism &c. These
applications completely cured me and
I have had no return of the trouble
since. I recommend Tuck's Bone Oil
to everyone.

Mrs. W. H. Thomas,
Lombardy, Ont.

For rheumatism, lame back, neur-
algia, sprains, coughs, colds, quinsy or
bronchitis, in short for any and all
kinds of inflammation there is nothing

Men's Suits from \$8 to \$14

We call "United" brand, because a number of S.-R.
agents have "united" (joined together) and are buying
cloths direct from the old country mills, thereby saving
from 25 to 50 per cent on the cloth. They then get
Semi-Ready Co. to make up these cloths into suits.
The finished article is a "United" Suit—prices from
\$8.00 to \$14.00.

And, sir, if you purchase one of our "United suits,
you are wearing clothes that cost you from \$3.00 to
\$5.00 less than you would have paid for them any
where else.

We don't ask you to believe this

but we ask you to find out for yourself whether it is
true or not. If it is not true, **we are liars,**
and you may call us such, if you find us to be such.

Every one of our United suits are made from old
country Bannockburn tweeds (twisted wool), and not
an inch of shoddy or cotton in a mile of the cloth.

We want to convince you

Are you ready? Are you?

United suits for men from \$8.00 to \$14.00.
Semi-Ready suits \$15.00 to \$30.00.
Youths and boys (United) \$2.50 to \$15.00

We pay one way to Brockville
if \$10.00 of goods are bought.
