## PORT ARTHUR CAPTURED

Stubborn Besieged Overcome By Gallant Invaders.

News Believed in London Although Not Confirmed From Japanese Sources—Guns of the Victors Dominate the Tientsin Town, and Although the Fall of the Fortress is Announced the Firing Still Continues—It Now Appears That Only Surrender or Extermination Will Close the Contest.

London, Aug. 29.—The correspondent of The Evening Standard cables from Tientsin that the Japanese have captured Port Arthur after days of fighting, and although the battle is still raging inside the city and the garrison under Gen. Stoessel is stubbornly contesting every inch of the way, the invasion has actually taken place, and it is a surrender or extermination for the brave defenders.

This is the news that has reached this city and, while it lacks official confirmation from Japanese sources, it is generally believed. The Evening Standard openly announces the fall of the fortress on the authority of its Tientsin correspondent. Under date of yesterday this correspondent, of whose reliability there can be no doubt, writes:

"Have good reason to believe from private information that the Japanese have effected an entrance to Port Arthur, and that the fall of the fortress is consequently virtually accomplished. The Japanese, however, are reluctant to say anything officially until the fighting is altogether suspended. The entrance was effected at the Etchashan forts. The Japanese occupied the Pelyushan parade grounds within the forts at dawn of the 24th, from which point they swept down with an unceasing fire throughout the day. The Japanese casualties were very heavy, but their courage remained undaunted to the end."

London, Aug. 29.—A despatch from Fusan to Lloyd's Weekly says: "After a desperate day and night of fighting the Japanese penetrated the principal defence of Port Arthur. Their guns dominate the entire town. They hold every position they won despite the desperate and furious counter attacks of the Russians. The losses on both sides were enormous."

A despatch from Kobe to The Weekly Despatch dated Sunday says news from a reliable source states that the Japanese have captured the outlying fortifications of Port Arthur. The Russians still hold the citadel on Antseshan, northwest of the town, the Golden Hill forts and the forts on Tiger's Tail Promontory. The Japanese hold the parade ground. The fall of the fortress is believed to be imminent. The Russians are likely as a last extremity to make a desperate sortie, for which it is believed they are in readiness.

London, Aug. 29.—The Daily Mail's Kobe correspondent, in a despatch dated Saturday, says: Following is the position of Port Arthur. The Japanese have captured all the outlying fortifications, but the Russians still hold the citadel on Antseshan, Golden Hill Fort and the forts on Tiger's Tail and Liashi Mountain. The Japanese are in possession of the parade ground and barracks under the Antseshan Fort on the outskirts. The fall of Port Arthur is believed to be imminent. It is believed that the garrison will make a desperate sortie before the end comes.

London, Aug. 29.—A Central News despatch from Rome says that it is stated on good authority that Port Arthur has fallen. There is no official confirmation.

London, Aug. 29.—Seven Chinese who went to Port Dalny in the hope of sharing with the Japanese in the business boom there, returned to Che Foo yesterday, and reported that the Japanese are monopolizing all opportunities at the port. These Chinese say that twenty transports, bearing 20,000 troops to reinforce the besiegers at Port Arthur, have arrived at Port Dalny during the past fortnight.

Che Foo, Aug. 29.—Information which, to a very great extent, confirms previous reports of the conditions at Port Arthur was received here by junk which left there on Aug. 24 and 26.

The most important statement confirms the reports that the Russians have been driven from the fort immediately east of the railroad. During the night of Aug. 22 an heroic band of 500 Japanese attempted to capture Fort No. 5 in the midst of a storm. Almost the entire detachment was killed.

On Aug. 27 the fort on Liashi Mountain was fired on from six Japanese torpedo boats, but the result of this action has not been made known. The Russian batteries are working at the land batteries. Shells from the Japanese fire continue to fall in Port Arthur and the dockyards, and the warships have been scattered about the harbor in attempts to protect themselves from the enemy's projectiles.

A Chinese who was employed at the docks at Port Arthur says that the battleships Retvizan, Poltava

and Sevastopol are badly damaged. The battleship Pobieda is in fighting condition. There are also four gunboats and several torpedo boat destroyers in the harbor. The recent report that eight destroyers escaped from Port Arthur cannot be confirmed. The Japanese are constructing forts at Lousia Bay, northwest of Port Arthur.

St. Petersburg, Aug. 29.—The general staff has received the following telegram from Lieut.-Gen. Sakharoff, dated Aug. 27: "Our advance guard on the southern front yesterday retired slowly towards the fortified position at Anshanshan. The Japanese artillery cannonaded our position at different points. Our heavy fire eventually compelled the enemy to move their vast camp from Faimaina to Baizaza. At 6 o'clock in the evening there was a lull in the firing. The hottest fighting occurred on the left flank on the south front, where our losses amounted to 200. During the night our advance guards retired to the principal position."

Five divisions of the enemy took the offensive against our south front. Our troops repelled towards the southeast all attacks, while our troops on the right, towards evening, drove the Japanese back on Lousinpu. Our losses on the south front were about 400.

A turning movement by the enemy against the left flank of the Targow position and the ensuing fire of their batteries on Khasovio Heights forced the Tamboff Regiment to retire and the retreat was effected in good order. Six guns were abandoned, but they were rendered useless. The Japanese attacked like fanatics, and their losses must have been great. A wounded Japanese officer who was taken prisoner, escaped observation after his wound was dressed and killed himself by dashing his head against the stones. Our troops captured many rifles, and articles of equipment. Our losses on this front have not been definitely ascertained, but they exceed 1,500 killed or wounded.

On Aug. 27 the enemy had not assumed any defensive movement at any point along the whole front, and our troops retired gradually to new positions. At about 2 o'clock in the afternoon it was discovered that the Japanese were moving on Lampein.

Tokio, Aug. 29.—The general staff maintained silence throughout yesterday concerning the fighting in the vicinity of Liaoyang. It is reported that Gen. Kuroki has seized and cut the railroad south of Mukden, thus separating the Russian forces and cutting Liaoyang from a direct line of retreat, but confirmation of this report cannot be obtained. The fighting reported east and southeast of Liaoyang is regarded here as preliminary to the contest in the immediate vicinity of Liaoyang. It is expected that Generals Kuroki, Oku and Nodzu will press forward speedily.

Washington, Aug. 29.—Japan has addressed a note to the powers informing them that unless Russia forthwith disarms her warships in Shanghai Japan will be forced to take whatever steps she deems necessary to protect her interests. Mr. Takahira, the Japanese Minister, called at the State Department Saturday and left with Mr. Adee, the acting Secretary of State, the communication of the Tokio Government.

The Minister spent some time with Acting Secretary Adee, but further than to receive the communication, Mr. Adee was careful not to disclose the attitude of this Government, although the Minister was assured that the continuation of Chinese neutrality was earnestly hoped for by the United States.

It is understood that a similar note also was delivered at the various Foreign Offices by Japan's diplomatic representatives.

St. Petersburg, Aug. 29.—A joint commission representing the Foreign and Marine Ministers, to be presided over by Prof. Denartons, professor of international law at the University of St. Petersburg, will sit forthwith to consider the distinction between conditional and absolute contraband of war. It is expected that the result will be communicated to the American and British Ambassadors and that it will tend to the removal of existing causes of friction.

London, Aug. 29.—(C.A.P.)—Cargoes from Newfoundland are quite common now in Glasgow harbor, and the rows of barrels on the wharf make a goodly show.

The longest railroad isn't blamed for running to extremes.

## CANTERBURY AT QUEBEC

His Grace Preaches Learned Sermon Sunday Morning.

Service Was Held in Quebec Cathedral Which Was Consecrated 100 Years Ago to a Day By Its First Bishop—An Anglican Outpost Turned By Devoted Men Into Rallying Point For Church in This Vast Dominion.

Quebec, Aug. 29.—The Archbishop of Canterbury arrived here at six o'clock yesterday morning by special train from New York. His Grace was accompanied by his wife, Rev. Mr. Ellison, Vicar of Windsor; Rev. Mr. Holden, domestic chaplain, and J. Pierpont Morgan, the American millionaire.

His Grace attended service at the Anglican Cathedral, which was crowded to the doors. Before the service the Bishop of Quebec presented His Grace with an address of welcome, in which reference was made to the fact that on the 28th of August, one hundred years ago, the Quebec Cathedral was consecrated by Bishop Mountain, the first bishop. His Grace made a short reply to the address.

When the morning service was concluded the Archbishop of Canterbury ascended the pulpit and preached a learned and deep sermon, taking for his text St. Paul's Epistle to the Romans, v. 6. He referred to the great progress made since the church was consecrated one hundred years ago, when it was almost the only outpost of the Anglican community in Canada.

George III. displayed great foresight when at his own expense he erected the building to become the Cathedral Church of the Diocese of Quebec, which then covered nearly the whole country. Since then many dioceses have been created out of the territory in charge of the first Bishop of Quebec, and the Cathedral of Quebec, instead of being an outpost, was the rallying point for the church in this vast Dominion.

His Grace referred to the great sacrifices made by the early missionaries to the Indians in Canada in their efforts to bring the red men under the influence of Christianity, mentioning several of the French missionaries by name. His Grace was listened to throughout his learned discourse with the most marked attention by the large congregation.

Before the collection was taken up, was the rallying point for the church in this vast Dominion. It was his intention to start an endowment fund for the cathedral, which it has never had, and said that the collection at the present service would be devoted to that purpose. The collection amounted to \$1,246.

Among those present at the service were Admiral Douglas, commander of the British North American Squadron, and Lady Douglas, J. Pierpont Morgan and a large number of American visitors. Rev. J. S. Mountain of Cornwall, Ont., who is a grand-nephew of the first Bishop of Quebec, was also present and took part in the service.

The Archbishop of Canterbury and his party will leave here for Montreal on Wednesday next.

During his stay in Quebec he is the guest of the Bishop of Quebec.

Dean of Rochester Dead.

Noted English Preacher Who Visited Canada Recently Passes Away.

London, Aug. 29.—The Very Rev. S. Reynolds Hole, Dean of Rochester, since 1887, died of heart disease Saturday morning at Rochester. He had been ill some time and passed away while asleep. The Dean was born in December, 1819.

Sketch of His Career.

The Very Rev. S. Reynolds Hole, who visited Canada and lectured in Toronto some five or six years ago, was a noted wit and lover and cultivator of roses. He was educated at Newark and Brasenose College, Oxford, was ordained curate as far back as 1844, and became vicar in 1850. In 1874 he was nominated Rural Dean of Southwell, in 1875 Canon of Lincoln and in 1887 was appointed to the Deanery of Rochester, which he held until his death. He was for some time chaplain to the late Archbishop of Canterbury. The Dean was a most popular platform speaker, bubbling over with good humor, yet strong in opinion and forcible in address. He was a constant contributor to Punch, and was an intimate friend of John Leech, Mark Lemon, Sir John Tenniel, Charles Dickens and others of the famous brilliant satirists and writers who flourished in the early days of that publication. He was the highest authority on the cultivation of roses, his "Book About Roses" running through many editions and being translated into several languages. His "Memories" were published in November, 1892, and later he wrote a book on humor.

## LOST CONTROL OF AUTO

Barney Oldfield Kills Two Men at the World's Fair.

Painfully But Not Seriously Hurt Himself By Driving Through Fence—Accident Was Caused By False Start, and Lost From Webb's Swiftly Moving Machine Smothering the Injured Motorist—Other Accidents.

St. Louis, Aug. 29.—Blinded by the dust thrown by the swiftly moving machine of A. C. Webb of Toledo, Barney Oldfield of Cleveland, lost control of his machine in a false start of the fifth event of the World's Fair automobile speed contest Saturday, and, crashing through the outer fence of the course, instantly killed John Scott, a watchman employed at the park, and inflicted injuries upon Nathan Montgomery, a negro, from which he died a few hours later. Oldfield was painfully but not seriously injured and his machine completely demolished.

Fort Worth, Texas, Aug. 29.—Four persons were severely injured in a collision between a fast passenger train on the Texas & Pacific Railroad, and several freight cars, one mile outside this city, at a late hour Saturday night. None of the injured will die.

Toronto Man Drowns.

Rochester, N.Y., Aug. 29.—A man supposed to be Nat McDonald of Toronto, 40 years of age, was drowned yesterday afternoon on the Genesee River at Charlotte, while out swimming. The body was not recovered.

Drowned While Bathing.

Hamilton, Aug. 29.—Sunday afternoon William Gilpin, 17 years of age, who lived on Sanford avenue, was drowned while bathing off the International Harvester Co. dock. His body was recovered.

Sault Ste. Marie, Aug. 29.—The body of H. D. Hill, drowned with J. C. Patterson in St. Mary's River Thursday, was removed Saturday evening to his home in St. Thomas for burial. The remains were accompanied by his father, Archdeacon Hill, who arrived earlier in the day. The funeral of J. C. Patterson was held here yesterday afternoon from St. Luke's Episcopal Cathedral to Greenwood Cemetery and was largely attended. Hon. J. C. Patterson arrived from Ottawa Saturday evening and attended the funeral of his son.

Talents never wear out.

The good of to-day must grow into the better of to-morrow.

Peru Shows Calm.

Lima, Aug. 29.—Jose Pardow, who was elected president of Peru January last, will be inaugurated Sept. 21. Excitement over the political situation in Peru is becoming more calm. It is known that former President Pierok, Dr. Durand and the people are opposed to a revolution.

The more trouble some people have the more they want to borrow.
