W. F. SMITH,
Barrister and Solicitor.

How Do You Know?

How do you judge
crackers? By their crackling
crispness—their snowy light-
ness—their appetising deli-
ciousness? That's the way to
judge

Mooney's Perfection Cream Sodas

Measure them by quality's
standard and they score 100
per cent. If you haven't tried
MOONEY'S, you've missed
a treat in crackers.

Wanted New Habits.

Sad Looking Man—I see you have
a sign out, "Maker of Women's Hab-
its." Do you mean it? Ladies' Tailor—
Certainly I do. Sad Looking Man—
Well, since my wife's been going to the
club she's lost all the good ones she
had, and I wish you'd make her a com-
plete new set regardless of expense.
And please include the habit of staying
at home once in awhile and mending
my clothes.

DID YOU GET UP TIRED?

At this season tiredness fastens it-
self upon the healthy and strong
and if not feeling well you should
build up, get more blood into your
veins, increase your store of nerve en-
ergy. What you need is that rebuild-
ing and tonic, Ferrozone, which con-
tains the strengthening elements of
flesh, nerve and muscle; gives you
appetite, abundant energy, buoyant
spirits—in short, Ferrozone assures
health and costs 50c. at all druggists.
Get Ferrozone to-day.

The Man in the Iron Mask.

All the best informed persons of my
famous history have thought that this
figure was founded upon the
Piedmontese political prisoner, who
died in the Bastille in 1793. In those
days prisoners were made to wear
masks when traveling, but it would be
strange exact to say a mask the color of
iron. All the details which Voltaire
added were simply fabulous and laugh-
able, and I think you will find that my
theory of the iron mask is the right
one.—From the French Noblesse.

THOUSANDS ACQUIRING THE DOPE HABIT.

The dope habit is being acquired by
thousands of Canadians through us-
ing so-called cures for Catarrh con-
taining an excessive amount of alcohol
and other dangerous drugs. Doc-
tors claim there is only one safe and
certain cure for Catarrh—Ferro-
zone. It is a powerful medicine, which
cures by healing Catarrh, which
breathed direct to the seat of the
disease. The balsamic vapor of Fer-
rozone kills the germs, heals sore
spots, stops dripping in the throat,
eradicates every trace of catarrh
from the system. Catarrh can't
fail; it's guaranteed. Two months'
treatment \$1.00; trial size 25c.

Inflammability of the Diamond.

The diamond, being pure carbon, will
burn and be consumed without leaving
a trace behind. The inflammability
of the diamond was known till the
middle of the seventeenth century. The
ancients were firmly convinced that a
diamond could not either be burned or
broken. This was disproved in 1670 or
thereabout, when a four karat stone
was consumed in the flame of a blow-
pipe. I think it was in Rome. The
Grand Duke of Florence in 1694
thought that fire would reveal the se-
cret of the diamond's composition, and
he caused a stone to be placed under
the focus of concentrated sun rays.
The diamond cracked, consumed and
disappeared—Exchange.

A TWO MINUTE CRAMP CURE.

That isn't equalled the world over
is Nerviline, the greatest relief for
cramps and stomach pains ever dis-
covered. Nerviline acts promptly and
is very pleasant to take. "I think
Nerviline is the finest remedy I know
of for colic and cramps," writes
W. B. Wilton, of Toledo. "When I
relieve quickly and for it's going to
be an ever without it. I have found
Nerviline good for sick headache and
stomach troubles and recommend it
for strength and soundness." Excel-
lent Price 25c.

Those who who the least consid-
eration for others usually expect the
most for themselves.

Financial conditions alter a good
many legal cases.

Lever's T-2 (Blue) Disinfectant Soap
Powder is a boon to any home. It disin-
fects and cleans at the same time.

The married man is seldom older
than he looks.

GOVERNORS-GENERAL.

The Departing and the Coming Head of
Canadian Society

Ottawa, Nov. 16.—Col. Hanbury
Williams, military secretary to Earl
Grey, has arrived. He states that it
is not quite certain whether the new
Governor-General will sail from Eng-
land on Dec. 1 or 8.

Capt. Trotter, formerly of the 1st
Coldstream Guards, has been ap-
pointed an A.D.C. to Earl Grey, in
addition to Viscount Bury and Capt.
Newton.

Lord and Lady Minto leave here by
special train on the C.P.R. short line
at 4:30 to-day for Quebec. On reach-
ing London they will spend a week
or two in London, and then go on
to their estate in Scotland.

Major Maude will rejoin the 1st
Coldstream Guards as second in com-
mand. He was offered, but refused, a
position in the intelligence branch of
the War Office.

A new seal is being procured for
Earl Grey. This is customary
after a Governor-General leaves the
crest of His Excellency.

One of the most brilliant musical
and society functions ever held in Can-
ada was the gala State concert
well to their Excellencies Lord and
Lady Minto. The Russell Theatre,
which was beautifully decorated, was
filled with admirers of the vice-regal
brilliance. Sir Wilfrid Laurier,
Cabinet Ministers, military officers in
uniform and the dignitaries of church
and State, wearing their robes of of-
fice, combined with the stylishly
titled ladies to make a most beau-
tiful picture. The affair was arranged
by C. A. E. Harries of Ottawa, and
was a grand success.

This afternoon their Excellencies
will receive a farewell address from
the city and will leave at 4:30 for
Montreal, en route to England.

Says He Tried to Save George.

Toronto, Nov. 16.—George H. Bird
was remanded until Friday by Mag-
istrate Denison. Bird is charged with
murder of a lad named W. J. Burke.
Mr. Robinette, counsel for Bird,
wished to have the charge laid on
assault, claiming that his client, in-
stead of trying to push the boy un-
der the car, had tried to pull him out
with the car.

Dead At 109 Years.

St. Thomas, Nov. 16.—The oldest
resident in the County of Elgin pass-
ed away yesterday morning in the
person of Daniel Gorman of Port
Stanley, who was in the 109th year
of his age. Death was caused by can-
cer of the past nine months. The de-
ceased had lived in three centuries,
and 56 years of his life was spent in
Port Stanley.

Hanged With Fire Fencing.

Kingston, Nov. 16.—John Way,
farm laborer, at Denorestville, wan-
dered away on Friday night. On
Saturday a neighbor found him in
the woods standing with his back to
him. The neighbor called, got no an-
swer, and investigating found Way
wire fencing. He was aged 65, and
father of a large family.

Canadian Surfact Has Effect.

London, Nov. 16.—A Berlin corre-
spondent says grave anxiety prevails
in German industrial circles with re-
gard to the differential tariff with re-
spect to German goods by the Canadian
tariff. The conviction is expressed
that, sooner or later German trade
with the Dominion will succumb be-
neath this treatment.

Agreed in St. Lawrence.

Montreal, Nov. 16.—The Black Dia-
mond Liner Louisbourg, coal laden,
agreed to the St. Lawrence at
Three Rivers yesterday morning, but
is not believed to be seriously dam-
aged.

Held At Soda Point, N.Y.

Kingston, Nov. 16.—The tug Emer-
son was reported at noon yesterday
to be at Soda Point, N. Y. It is
held there by heavy seas.

Not a Christian.

Kingston, Oct. 15.—The Senate of
Queen's University will have to deal
with a serious charge made in
public place by one professor against
the character of another. At the
Bible Institute meeting in Syden-
ham Street Methodist Church Thurs-
day night, Prof. Pike declared that
Prof. John Marshall was not a
Christian and that he held danger-
ous views and that he should not
address the institute gathering.
Prof. Marshall, it is understood, will
ask the Senate to deal with the
matter.

Boy Who Killed Father Freed.

Winnipeg, Man., Nov. 16.—Before
Judge Pringle at Roostern, N. S.,
Stewart, an eleven-year-old boy
charged with murdering his father,
Alfred Stewart, was taken up. The
affair happened on June 20 last. The
defence averred that the father had
tried to kill his daughter with an
axe, the wife interfered, and the boy
ran into the house, seized a gun and
aimed it at his father's legs with
intention of wounding him only.
The mother struck up the barrel to
save Stewart, but when it was on
level with Stewart's neck, the boy
pulled the trigger, death resulting.
After being out fifteen minutes the
jurors returned with a verdict of just-
ifiable homicide, and the prisoner was
acquitted.

THERE IS GREAT DANGER IN CATARRH

If Left to Run its Course Unchecked,
It Often Causes Death.

Catarrh scatters its poisons
throughout the entire system. The
stomach and lungs are affected by
the droppings that fall into the
throat, and are swallowed during
sleep. Dyspepsia, inflammation of the
stomach, bronchitis and consumption
are the results. The blood also be-
comes contaminated and carries the
poison to all parts of the system.
Frequently the bones of the head be-
come decayed and the air passages are
a foul and offensive as to be un-
bearable. The expression, "rotten with
catarrh," is not overdrawn or exag-
gerated.

Stuart's Catarrh Tablets strike at
the root of this terrible, odious dis-
ease and eradicate it from the system.
They are a constitutional remedy
of all poisons and the system thor-
oughly cleansed and purified by the
under their influence the blood be-
comes clear, the discharges at the
nose, the droppings into the throat
cease, the best tone of the throat
stored, the foul breath becomes pure
and the odious, disgusting disease is thor-
oughly expelled from the system.

A Cincinnati man says: "I suffered
tarry for twelve years. My case be-
came so aggravated that I seriously
interfered with all my business op-
erations. The disease became so offen-
sive that I could not venture into
any one's presence unless it were ab-
solutely necessary. I tried every re-
medy that I could get hold of. Some-
times I was temporarily, but as soon as
I ceased taking them, I would relapse
into the old condition."

"Finally a friend told me of Stuart's
Catarrh Tablets and I insisted
spared of ever finding help, but
noticed the improvement within three
days. Before the first box was taken
the treatment I had taken three
never had a recurrence of the trou-
ble from that day to this. My head
clear and well and none of the head-
ache, dizziness, and other symptoms
since I stopped taking them."

Stuart's Catarrh Tablets are for
sale by all druggists at 50 cents a
box.

A Lesson For George.

Betty-George intends to have his
own way in everything when we are
married. Grace—Why are you going
to marry him, then? Betty—Just to
relieve his mind of a false impression.

THE BEST LAXATIVE SOLD.

Is Dr. Hamilton's Pills of Mandarins
and fell ill, which relieves con-
stipation, headache and liver com-
plaint in a few hours. Very mild,
yet certain. Use only Dr. Hamil-
ton's Pills. Price 25c.

Wife—Do you believe that marriage
is a duty?

Husband—Because when a man
draws a blank in a lottery he can
tear it up and take another chance.

"The blood is the life."

Science has never gone so far as
to state that simple statement, but
it has illuminated that statement and
given it a meaning ever broadening
with the increasing breadth of knowl-
edge. When the blood is "bad" or im-
pure it is not alone the body which suffers
through disease, the mind and judgment
are affected, and many an evil deed
or impure thought may be directly trac-
ed to the impurity of the blood. No
body whose blood is impure, no one
can have a wholesome mind and no
one whose blood is pure. Poul blood
can be made pure by the use of Dr.
Pierce's Golden Medical Discovery.
When the blood is pure, body and
brain are alike healthy and life be-
comes a daily happiness.

Medical Adviser, 1008 pages, 700 il-
lustrations, is sent free on receipt of
stamps to defray expenses of mail-
ing and customs. Send 81 cent
stamps for paper covers, or 50 cent
for cloth binding. Dr. R. V. Pierce, 663
Main Street, Buffalo, N. Y.

It is not until they get in a tight
squeeze that some men become spon-
ges.

C. C. RICHARDS & CO.

Dear Sirs—A few days ago I was
taken with a severe pain and con-
traction of the cords of my leg, and
could not sleep for pain, and was un-
able to put my foot to the floor. A
friend told me of your MINARD'S
LINIMENT, and one hour from the
first application, the pain entirely dis-
appeared, and the leg was able to walk.
You can use my name as freely as
I can, as I consider it the best
remedy I have ever used.

INGERSOLL, ONT.

FOR A BAD COLD.

If you have a bad cold you need
a good reliable medicine like Cham-
berlain's Cough Remedy to loosen and
relieve it, and to allay the irrita-
tion and inflammation of the throat
and lungs. The soothing and healing
properties of this remedy and the
a favorite everywhere. For sale by
all druggists.

Even the red-headed man hates to
realize that he is getting bald.

ELECTROTHERMIC BLANKET.

Will Insure Warmth Even in the Shades of
the Pole.

A well known French engineer, M.
Camille Herrold, of Belfort, has in-
vented a most valuable blanket.
It always keeps warm, no matter
how cold the weather may be.
The invention is not confined to
blankets, but may be applied to
rugs, sheets, clothes and all kinds
of cloth.

The heat is furnished by fine elec-
tric wires of peculiar construction,
woven into the cloth. A very small
battery is needed to work a blanket,
and the apparatus is within the
reach of the humblest homes.

The electric thermophilic is the in-
vention is called, is intended to be
used in connection with fabrics of
all kinds and does not alter their
ordinary appearance or their usual
flexibility.

This result is obtained, in the first
place, by a peculiar thread specially
designed of a mixture of textile fi-
ber and conducting wire. The latter
gives strength, while the fiber
makes up in fabric of any desired
thickness, for use as light or heavy
clothing, carpet or hangings, taking the
place of the fabrics ordinarily used
for such purposes. The thermophilic
tissues are so constructed that they
are able to give off the uniform
temperature for which they were
made.

The weave of the electrothermic
blanket being very close, the heat
scarcely higher than that of the
whole fabric, so that any abnormal
therefore dangerous heating is
avoided.

The cloth cannot possibly take fire,
because the wire will break before the
heat becomes sufficient to cause
that.

Another remarkable advantage is
that when the cloth becomes wet it
can be dried by the electric current.

ANCIENT TREATY MEDAL.

Compact Between Greeks and British Dur-
ing Reign of George III.

A silver medal struck in commem-
oration of a treaty between the
Greek people and Great Britain dur-
ing the reign of George III. is in
possession of a Muskegon citizen. The
medal weighs three and a half ounces
and measures three inches in diam-
eter and is in an excellent state of
preservation. Having been treasured
up here, dropped there, and exhib-
ited on occasions when national festi-
vities were observed.

Upon the face of the medal ap-
pears in bold relief a picture of King
George and an inscription as follows:
"GEORGE III. D.G. MDCLXXXI. A. D.
P.D." Upon the reverse side ap-
pears a picture of an Indian and an
Algonquian man sitting under a tree
smoking the pipe of peace, with three ships
at anchor in the distance and the
trees by the seashore. Above the
picture is the legend: "Happy white
and Indian united." Surrounding the
picture is the inscription: "Treaty
between the Greeks and Great Britain
during the reign of George III. 1830."
This treaty medal is regarded as
probably the oldest in existence and
commemorates the first and the
most important treaty between the In-
dian and the Greek people.

Whence the Tip?

Whence did the tip first arise to
spoil the digestion of the diner un-
accustomed to restaurants and afraid
of giving the wrong gratuity to the
waiter. According to Dr. Johnson,
it had not become a "common prac-
tice in his day, for he says of his ear-
ly life in London, when he was
lodging with one Norris, a staymak-
er, in Exeter street Strand: "I din-
ed very well for eight pence, with
very good company, at the Plas-
apple, in New street, just by. If
they drank wine, but I had a cut of
penny, and gave the waiter a penny,
so that I was quite well served, and
better than the rest, for they gave
me nothing."

Under Which King?

A Toronto man was questioning
his twelve-year-old son about names
and dates in English history, and a
reference was made to the Edward
who conquered Scotland.

"And which Edward lost Scot-
land?"

"Edward II," replied the boy.

"Now was it Edward II. or Ed-
ward III?" asked the father, to test
the boy's confidence in himself.

"Wasn't it Edward VII?" asked
the boy's aunt.

"No," replied the boy. "It was
Alaska," replied Edward VII. "lost."
Which goes to show that the children
of to-day are picking up the history
of the present as they go along.

May's Funny Sayings.

Grandpa has a chain pump that
turns with a crank. Little May was
visiting at the farm, and seeing
grandpa pumping, rushed out, ex-
claiming: "Oh, grandpa, grandpa!
Let us grind the water!"

LIQUOZONE FREE

Any sick person who has never used
Liquozone should write the Liquid Zone
Co., 4-6-4 Wash Ave., Chicago. They'll
send you an order on your druggist for
a sec. bottle free, if you will state the
disease to be treated.

Reglan Castle.

Reglan, near Monmouth, in England,
is pre-eminent among English castles,
as Heidelberg among those upon the
Rhine. Its towers and halls have a
rich hue given by the red sandstone
of which they are built. It has a
mighty tower that was half destroyed
after its last great siege so that it
might not trouble the enemy again.
For here, after his fatal battle at
Bosworth, Charles I. found refuge with
supporters, although already past four-
score years. Fifty thousand men and
lucky guest, but in vain. Then
came Fairfax, and the last castle faith-
ful to the monarch fell, costing the
loyal owner a second sum of equal
value and imprisonment.

WAKEFUL CHILDREN.

For a long time the two year old
child of Mr. P. L. McPherson, 59 N.
Tenth St., Harrisburg, Pa., would
sleep but two or three hours in the
early part of the night, which made
it very hard for her parents. Her
stomach concluded that the child had
one of Chamberlain's Stomach and
Liver Tablets, which quieted her sto-
mach and she slept the whole night
through. Two boxes of these tab-
lets have effected a permanent cure,
and she is now well and strong. For
sale by all druggists.

The Family Tree.

A pleasant pastime, literally, for
those who have no more pressing dis-
turbance than to get outside their en-
vironment at least in thought will open
up before her who begins to mount a
family tree. Tracing one's genealogy
may become—probably will become—a
matter of absorbing amusement and
attention, for it entails a thread gath-
ered up here, dropped there, a letter
to write, a book to read, a register to
consult. To the self absorbed, the
omniscient, the listless, one may re-
suit even rather morbid conditions of
temperament, and yet as certain to
gently force the mind away from it-
self to other persons and things in
opening up a wider and wider field of
reflection.

BETTER THAN A PLASTER.

A piece of flannel dampened with
Chamberlain's Pain Balm and bound
to the affected part is superior to
any plaster. When trouble with
limbs, back, or pains in the side or
chest, give it a trial and you are
certain to be more than pleased with
the prompt relief which it affords.
For sale by all druggists.

Good Bread For Dyspeptics.

Pulled bread is served at several of
the best restaurants, and it is not only
palatable, but much better for people
inclined to be fat or dyspeptic than or-
dinary bread. When kneading the
bread for baking do it in such a way
that the grain will be lengthwise of the
loaf. When baked, and before it is
cut remove the crust, pull the loaf
into halves and again into quarters
lengthwise of the loaf, so that dividing
it until the bread is of the desired
shape; it is usually in long pieces about
two inches in circumference. Place
the pieces on a rack, put in a pan and
dry the moisture in a slow oven
and color a light brown.

WINTER IN COLORADO.

Your own physician will tell you
that the dry mountain air of Colora-
do is an air of life stands pre-
eminent. Always rigorous and stim-
ulating, the crisp atmosphere of Col-
orado
