Year! New

IS ALWAYS THE FIRST TO

REDUCTIONS.

Everything will go for what it will bring.

GOOD OLD STORE THE

J. D. WILLIAMSON & CO

If not, you should at once get them exchanged for a pair that will, for nothing is more injurious to to the sight than using glasses which are misfitted. If they are too strong or too weak there is a continual strain upon the nerves and cords of the eye, oreating an inflammation which will, if you continuousing the misfitted pair, ruin the eyesight altogether. Many merchants who sell spectacles know little or nothing about the principles of fitting the eyes, and you are therefore liable to buy a wrong pair just because they seem to suit when you first try them on, which, after wearing for an hour or so, will "draw" until it is painful to wear them. From my study of the eye, and long experience in selling spex, I can safely affirm that more eyesights are destroyed by wearing improperly fitted glasses than from any other cause. I have an instrument invented by Kent Brothers, Toronto, which proves to a certainty what muber of lease you should are, with which I will be pleased SHOES
