"I suffered from nervous prostration and was so weak that I could not even sweep the floor and during the day I would have to lie down four or five times. I tried to walk, but found out that half a block was all I could stand before I would give out. Nervous spells came on me often. Finally my husband urged me to try Tanlac and I am indeed glad he did, for

it proved to be just what I needed. The first two bottles did not seem to help me. I guess it was because I was so bad off, but on the third bottle I could tell I was improving and that gave me more hope than ever of getting well. Mr. improvement from then on was rapid and by the time I had taken five bottles I was better and stronger than I had been in years.

"It enabled me to sleep soundly at night and I have gained twelve pounds. That was several months ago and from then until now I have been as good health as I ever was in my life. I have told all of my friends and relatives what a wonderful medicine Tanlac is."
