APPLES,

ORANGES, LEMONS, &c.

Physicians' Prescriptions carefully compounded.

A. DIXON,

Doucet.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effective for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

ODDS AND ENDS.

Mr. PARKER, a member of the International News and Polo Club, has performed at Brighton, the extraordinary feat of shooting 100 penny pieces successively in fifty minutes, thereby winning a heavy wager—it is said 200 to 1. The "thrower up" of the coin is an old soldier. The arrangements were that he should stand eight yards from the "booster," and that he should not throw a piece more than three feet above his head.

Among the most recently discovered population of savages, the cannibals of New Ireland, in the South Sea, there is a custom which requires that a chief's daughter shall be kept in a cage within her father's house until her introduction into society. The cage scarcely gives her room to move, and she is not allowed to see any one but her father during any part of the day, though she is allowed to take a stroll with her relatives after nightfall.

CODFISH.—The codfish off the shore of Newfoundland are split, washed, and laid on spruce boughs, when they are assorted into "merchandise," for sale as second quality and "dun," or broken fish exported to not countries are packed by screw power in casks. Very large quantities are sent to countries as remote as Greece, Spain and Portugal.

SIR ELKANAH ARMITAGE, the head of one of the largest cotton spinning concerns in the world, died recently at his residence, Hull, Manchester, at the age of 83. He was originally a hand loom weaver, and created the business of which he was the principal.

The Japanese Government have followed the suppression of the last insurrection by sentencing twelve leaders to capital punishment, 234 to hard labor for life, and 14 to forfeiture of rank and estate. A large number were pardoned, and 165 committed hard labor.

The Rev. Mr. Talmage preached on Journalism last Sunday. The part where he intimated a reporter standing up a firebrand, and lighting in the chimney in order to deliver a conversation, is said to have been very impressive. —*Norwich Bulletin.*

A late professor was one day walking near Aberdeen, he met a well-known "natural." "Pray," said the professor, "how long can a man live without brains?" "I don't know," said the other, "but I don't know." "But how old are you?"

FUNKES FALLS Reporter.—"The time approaches when a fellow boy by his cousin's sister a great ornamental valentine, the highest centre of attraction of which is a picture of the fabled boy who has decidedly more wings than overcoat."

A little boy was much exercised for four he would not know his father. When he got to Heaven, but when he came back he found his father had died. "All you will have to do is to look for an angel with a red nose."

Said a woman speaker in New Haven suffrage meeting: "Woman is in every respect the equal of man. Her reputation for heroic bravery" — at that point a mouse ran into sight, and the orator jumped on the table and screamed.

"A Troy girl, whose bean accompanies her daily, and pays her fare to and from school, has saved \$14 car fares given her by her parents, which she has laid up for the purpose of buying her lover a Christmas present."

A three year old happened to have a tooth to be attended to just as his mother was busy with the baby. "Go away," I won't be bothered with you now," "What do you have so many children for, if you can't be bothered with 'em?" he unexpectedly inquired.

SENTIMENTAL YOUTH: "Ah, Anna Maria, you look to me like a daisy kissed with dew." Guilty party: "Oh, John, I don't like it." "I don't like it," said Tom Stubbs, and I told the idiot at the time that every one would find it out?"

THERE are some delicate impulses that a good woman cannot resist; she cannot hesitate to put three hairpins and a spare shawl into the hands of a poor fellow who has been better than men in this respect.

An exchange remarks:—"This is the time to go out wolf hunting. Nothing will give you higher percentage on your time and money than chasing the wolf from your neighbor's door."

Mrs. ANNA FOWLER, of Rockaway, U. S., while whitewashing a bedroom stood upon the top of a bed post, from which she was slipping, becoming impaled upon the sharp head of the post, death resulting.

ALTHOUGH the Sultan is miserably poor for a Sultan, he is spending six or seven thousand francs upon the wedding festivities of two of his sisters.

DURING three months of last year the British railways have killed 264 persons and injured 1,166 others.

Said a Hindoo:—"These Englishmen know nothing but to spin cotton and conquer the world."

WORTHY OF NOTE.—An exchange says there is scarcely a day passes that we do not hear, either from persons coming into the office or in some other way, of the success of Johnson's Anodyne Liniment in curing coughs and colds, so prevalent about the town just now.

W. D. B. CARR, Sussex, N. B., writes, Jan. 25, 1877:—"Great relief has been derived from your Vaginal Liniment, by those in the neighborhood who have used it for rheumatism, &c. We keep a supply on hand, and find it a useful medicinal friend."

DAVID CHAMBERS, of Kouchibouguac, testifies that he has found SPENCER'S Vaginal Liniment invaluable for cracked chaps, chapped hands, Feltman, and other who are much exposed to the weather, cannot do without it.

IF WE CAN BENEFIT the readers of the CHIGNECTO POST any by recommending PARSON'S Purgative Pills to be the best and most efficacious medicine in the country, we are willing to do so. We have had about as good a chance to know as any one.

Our Ottawa Correspondence.

OTTAWA, Jan. 19, 1877.

Since I last wrote the Hon. George Brown for contempt of Court has been dismissed, the court being for the Justice Morrison against, and the Wilson being an interested party not sitting on the case. A cartoon in Grip represents the case as Geo. B. standing in dread of a bombshell which is smoking, then his countenance brightens as he says, "I am safe so long, it has failed."

Word has gone forth that the Times "shall be no more." After a rugged, changeable life it expired for want of cash. Three times in as many years it has changed faith, but I am glad to be able to say it died in the end.

The appointment of Mr. Powers, Jr., to the Senate is accounted for here by the fears of the Government to open the Halifax constituency. It is generally conceded that Mr. Powers, Jr., is only to keep the seat warm for Mr. Powers, Sr., until that gentleman can be put in without risk of a seat until after the next General Election.

A strong movement is on foot in Ottawa to remove all exemptions from taxation. The local Government is divided about the question, and are trying to pass it, but their organ and mentor the Globe is a very strong advocate of the proposed measure, and they will be forced to do something. Growing out of this question is the extension of the Franchise for municipal purposes. A bill has been introduced by Mr. Bithune providing for plural votes. The principle of the bill is that every man shall vote as many times as he has qualifications; thus, supposing a voter's qualifications is \$400 income, if he has an income of \$1000 he shall have four votes, and so on.

Lord and Lady Dufferin have just returned from Toronto. While there he made two as pitiful speeches as I have read for many a day.

The Dominion Board of Trade is in Session in this city at present. In informed circles it is generally supposed that Mr. C. A. P. Pelletier, of Kamouraska, will succeed Hon. Luc D. St. Just as Minister of Agriculture. Mr. P. is a Frenchman of good ability, a lawyer, and a man whose influence will be felt. So far as I know he is honest and upright, and his character to injure his power for good. He has just completed his 40th year, being born Jan. 22, 1837. There seems to be a difficulty at heart quarters as to who will go into the Ministry. Mr. Cameron or Mr. Pelletier. There is no Minister of French extraction now in the Senate. There is no doubt the Ministry would be glad to get rid of Mr. C., as his room is considered immensely preferable to his company. But there is no such good luck for them. Mr. Cameron is too fond of place and power for that. Mr. Cauchon is the progeny of Quebec, a man of ability and some good parts, which however is quite overshadowed by his great gain.

A letter written by Lord Macaulay in 1857, and now published for the first time in *House's Monthly* contains the following passage:—"It is quite plain that your Government will never be able to restrain a distressed and discontented majority. For with you the majority is the Government, and has the rich, who are always a minority, absolutely at its mercy. The day will come when in the State of New York a multitude of people, none of whom has more than half a brain, but who are all of them, expects to have more than half a dinner, will choose a Legislature. It is possible to doubt what sort of a Legislature will be chosen? I seriously apprehend that you will in some such season of adversity, do things which will prevent prosperity from returning. There will be, I fear, spoliation. The spoliation will increase the distress. The distress will produce fresh spoliation. There is nothing to stop you. Your Constitution is all sail and no anchor. As I said before, when a society has entered upon this downward progress either civilization or liberty must perish. Either some Caesar or Napoleon will seize the reins of government, and make the best he can of the fearful plunder and laid waste by barbarians in the twentieth century as the Roman Empire was in fifth."

Tur Wesleyan drops down on the Rev. J. L. Keating, curate of the Episcopal Church of St. James, and writes to the *Church Chronicle* asking for aid for an Episcopal Church, and in his letter, he said that the place had no church, but that the Methodist had a church, and at night had a violent storm with rain, wind S. W., which sunk our canoe with a load of stone, drove all of our canoe ashore and split the stern of the canoe so badly that we were obliged to mend her before we could set out again. 16th, cloudy and windy; 17th, raw weather, changeable winds N. W., 18th, clear and cool; 19th, very cloudy, wind S. We went to Haba, and as I was rolling a stone of about three hundred weight, my foot slipped and fell upon my head, and I lay for some time, but my brother came several rods and lifted it off; I got it immediately into the head of a good spring, where I laid it for half an hour, which made such an alteration, that, although I could not make the least use of it, I got to the spring, I could use it coming from it. I got some blue clay and vinegar put on to it, and against the 28th began to walk about again.

To be Continued.

The pulpits are supposed to preach soon of "The Fellowship." We have just heard a story of Pius IX, which may serve
