Premier Laurier Denies Any Knowledge of the Scheme of the Papal Ablegate.

Mgr. Sbaretti Had no Authority to Effect Sullen, Discontented, Any Compromise With Manitoba.

LIVELY DISCUSSION IN COMMONS.

OTTAWA, April 5.— The most heated debate of the present parliament, lasting from prayers and routine till dinner hour, was precipitated this afternoon by Laurier, who, anticipating conservative cross-examination over the statement made by Rogers of the Manitoba government, made what his followers call an explanation. It consisted in reading Rogers' statement in full and commenting on its various sections.

Sir Wilfrid's Denial.

"In so far as there is a charge that there was an understanding between Mgr. Sbaretti and myself to have the school question considered in connection with the extension of the boundaries of Manitoba, there is not," said Sir Wilfrid, "a shadow or tittleoftruth in it. I assert that if Mr. Rogers states that Mgr. Sbaretti did press him to make the suggestion of terms and conditions, which he says he did with my knowledge and consent, he states something which is not in accordance with truth.

Without His Knowledge.

Without His Knowledge.

with truth.

Without His Knowledge.

If that has taken place it has been wholly without my knowledge and without my participation, and I never heard of it in any way whatever until last Saturday, when the matter was brought to my notice by a telegram from the Toronto Globe. On Monday last I brought down to the house a return to an address moved for some time ago by Roche (Marquette) asking for copies of all correspondence that had taken place between the government of Manitoba and this government of Manitoba and this government of the bundaries of Manitoba. The last paper upon this return was the acknowledgment of the receipt of your reply to the prayer of the Manitoba government. We have received since that time a further rejoinder by Manitoba to our reply. We did not bring it down on Monday with the return because we had not then received it. It arrived at the privy council office only yesterday, and I at once gave orders to the clerk of the privy council to have it prepared for presentation at the House, and I have today laid it on the table of the House. In all this there was no evidence of an intention to conceal anything. There was nothing to conceal. This was a public document.

Then I see by the correspondence that the order of the Manitoba government was passed on March 31. It was sent to us on the following day (Saturday). It could not, therefore, get here until yesterday morning, and as soon as it was received by us, as I said a moment ago, I gave instructions to have it prepared and I laid it on the table of the house so as to form a part of the correspondence which the people of this country have the right to have before them.

That Correspondence.

That Correspondence.

Sir Wilfrid then read again from Mr. Sir Willia then read again from Mr. slogers' statement regarding the inviation from Mgr. Soaretti for the lanitoba delegates to a conference with him. "According to this statement," Sir Wilfrid continued, "it apears that Mr. Rogers and Colin ampbell, who were the delegates of a Wanitoba covernment bed according to the statement of the second statement with the control of the second statement with the seco nears that Mr. Rogers and Colin Campbell, who were the delegates of the Manitoba government, had a conference with Mgr. Sbaretti, the papal legate. There has been a rumor in the press—not in the press, but at all events about the corridors of this house—that this conference had been brought about by one of my colleagues. I have to say to the house, and I have the authority of my colleagues for this, that there never was any conference brought about by them between the delegates and Mgr. Sbaretti, and I have to make the further statement, neither myself nor any of my colleagues were the intermediaries between Mgr. Sbaretti and the delegates of Manitoba. If there has been such a conference, how it came about I cannot say. Perhaps Mgr. Sbaretti may have had previous communications with these gentlemen. I do not know. Perhaps he knew them and perhaps that is the reason why he called upon them to have a conference.

Elliousness and Torpid Liver

Headache and stomach troubles are thoroughly cured by Dr. Chase's Kidney-Liver Pills.

MR. ROGERS CLANCY, farmer, Chepstowe, ruce County, Ont., states:—"I have used Dr. hase's Kidney-Liver Pills, and would say that are is no medicine that equals them as a cure stomach troubles, billionishess, torpid liver not headache. I was troubled a great deal with these ailments before using Dr. Chase's Kidney-liver Pills, and they have proven wonderfully uccessful in my case.

government. What conversation took place between the papal delegate, Mr. Rogers and Colin Campbell, I do not know. This is a question perhaps as to which there may be something later on. I do not know."

Contradicted Rogers' Statements.

Contradicted Rogers' Statements.

Item by item Laurier contradicted Rogers' statement, denied he had induced the Manitoba delegates to remain in Ottawa under false pretenses, or that he had misled them in any way, and made the point that Mgr. Sbaretti was here as representative of Rome on behalf of his co-religionists for church purposes only, and with no power or authority to interfere with affairs of state.

Mulock Corroborates Premier's Ver-

Hon. Mr. Mulock corroborated Laurier's version of what took place at the conference of February 17th with the Manitoba delegates, and asserted that he then stood up stoutly for Ontario being heard before extension of the prairie province's boundary to Hudson Bay should be considered by the cabinet. The recent statements in the press was the first he heard of the Papal Ablegate taking a part in fixing the bounds of Manitoba.

Mr. Border,

Mr. Border.

Mr. Border,

Mr. Borden congratulated Premier Laurier on breaking his silence, and suggested that if he had as good a case for ignoring Sifton in framing the autonomy bill as he put up today on this matter, he could have told the whole story weeks ago. But the premier might have made his explanation days ago, and set at rest for the good of the country the disquieting rumors that had been afloat, among them the threat that "until Manitoba alters its school policy it cannot expect to have its boundaries enlarged."

That threat was repeated in the newspapers claiming to voice the views of the premier, and in newspapers alleged to be owned and controlled by cabinet ministers. He (Borden) had nothing to say regarding the conduct of the Papal Ablegate, as Mgr. Sbaretti was not responsible to parliament, but he did hold the government responsible for what it had done in connection with this case, and with the Northwest Territories, and when the proper time came he would take up the matter at more length.

The Missing Letter,

The Missing Letter.

Staples of MacDonald, Manitoba, referring to Laurier's statement that he had never received the letter of Feb. 25rd, missing from the correspondence he had tabled, flatly asserted that he had been handed the letter by Mr. Rogers in person, had taken it to a messenger of the commons, and instructed him to deliver it at Sir Wilfrid's residence. The messenger took the letter and on his return reported that he had delivered it. Today, when questioned, the messenger reiterated his statement as to having promptly delivered it.

This little speech created a sensation but Luurier stuck to it, he had never seen the letter.

McLean of East York.

McLean of East York.

It was at this stage the debate took on forcefulness. McLean of East York starting the tall by showing there was no denial on Laurier's part that the papal ablegate had issued an ultimatum to the Manitoba government. This action, McLean contended, was further proof that the government of Canada was carried on by two forces—a solid Quebec and a corporation havirg its centre in Toronto. Education all freedom in the North West would not get five votes in this house from Quebec, which was going out of its way to shackle all new Canada as it had tried to manacle Manitoba. He dared Laurier to open one seat in the west, and offered if Mulock or any other Ontario liberal member would resign to do the same, and fight for that seat on the sole issue of provincial rights. This Canada of ours wants no Italian priest interfering with its domestic affairs, and Laurier would have to follow the example of Presice at Cleveland when he dismissed Sis Sackville West, British Minister, and send Sbaretti back to Rome, as whether by accident or design "his usefulness was gone."

Bourassa Again.

Bourassa Again.

Bourassa followed in a violent harangue, accusing MacLean of attacking the Pope's representative here and of raising the cry of French domination. He had confidence in the liberality of the mass of the Ontario Protestants and was ready to meet the member for East York on any platform in that province. His speech was most inflammatory and evoked great applause from the back Grit benches.

Hon. Peter White.

Hon. Peter White.

Hon. Peter White, ex-speaker, followed. The old man was in excellent voice and felt what he said when he asserted that in all his parliamentary career he had never listened to a more inflammatory appeal to race and religion than that uttered by Bourassa. He had the greatest respect for the Roman Catholic church, although he did not believe in its tenets. The church had a right to its own ablegate in Canada, but if it were true that Sbaretti had interfered with provincial and federal matters the authorities which brought him here should secure his recall.

Dr. Sproule.

Dr. Sproule in advocating for Car

ada that complete separation of church and state, which is one of the main underlying planks of British freedom, streunously objected to the papal ablegate stepping into the political arena and dictating to the people of Manitoba and the Northwest.

This closed the debate, which was punctuated with some stirring incidents concerning points of order, in which the speaker did not cover himself with glory. When members are in hot blood it takes an educated parliamentarian to keep them in subjection.

INDIAN EARTHQUAKE.

lany Deaths Resulted From the Severe Shocks Near Lahore.

CALCUTTA, April 6 - Reports from many towns show widespread damage and more fatalities in the earthquake of April 4. This is especially the case at Firospur, 47 miles south east of Lahore, Amritzar, Derhirdun and Sranigarm, at which places many natives were killed or injured. At Lahore the fatalities were between fifty and one hundred. Personal stories from Mussoore state that the mountains heaved and swayed a full minute and then three severe shocks, each lasting a few seconds, were felt in quick succession. Between six a.m. April 4 and midnight there were twelve shocks. The day was fine and clear and most of the inhabitants were already up when the first shock came. Those who were still in bed described the motion as being like that of a ship in a storm, while those on foot could not maintain their balance. "Many narrow escapes are reported. The effect of the shock in sickness and dizziness with many still continues. Many persons sat or slept out of doors during the whole of last night.

A Spartan virtue seems to have the inherent quality of making its possessor a 44 caliber bore of the worst sort.
