OBITUARY

MRS. C. A. MITCHELL
The death of Mrs. C. A. Mitchell took place on Tuesday afternoon at the family residence 323 Scarborough Ave. Her husband C.A. Mitchell is connected with the license branch of the provincial secretary's department and C.R. Mitchell provincial member for Bow Valley is a brother-in-law.

The deceased had been in poor health for some time and at the time of her death was 58 years of age. She was born at Truro, Nova Scotia but had resided in the west for a good part of her life. Her husband worked on the early construction of the C.P.R. through the

Rocky Mountains in the west. In addition to her husband she is survived by two daughters Mrs. W. J.A. Mustard of Edmonton; Miss Marion Mitchell of Calgary; two sons C. Albert of Calgary; Kenneth B. of Calgary and one daughter-in-law Mrs. Marion Mitchell of Calgary. The remains have been removed to the Armstrong funeral home and the service will be held at the family residence on Thursday afternoon at 2 o'clock, Rev. Dr. Winchester officiating. Interment will be made in the Burnside cemetery—Calgary Daily Herald April 24th.

RUSSIA'S NEW NAME
Ottawa has received notification from Postal Administration at Moscow that the official name of their country is now "Union of Soviet Republics" and that this address instead of Russia should be used on correspondence.

CANADA THIRD LARGEST OWNER OF AUTOMOBILES

Canada has experienced an increase of 170 per cent in the number of Canadian-owned motor vehicles. Ten years ago there were only 50,558 cars and trucks in the country compared with the official figures just made public of 642,571 at the end of 1923. In 1903 the total motor vehicles registration for the Dominion stood at but 220.

World registration of motor cars and trucks totals 18,241,477 of which 15,222,655 is represented by the United States and 653,318 by the United Kingdom which although possessing a population considerably larger than that of Canada only boast of 10,000 more motor vehicles.

It will thus be seen that the Dominion is within 10,000 of being the second greatest motor-owning population in the world. In this regard it is far in advance of such large nations as France, Germany, Russia and Italy, with many times her population.

In point of production Canada stands second only to the United States. A very large proportion of the motor vehicles in the United Kingdom bear the "Made-in-Canada" stamp.

The Advocate \$2.00 Yr.

SIR LOUIS DAVIES DIED AT OTTAWA

Sir Louis Davies, Chief Justice of Canada died at Ottawa Thursday morning at a 12:35 after an illness of five days. He was 79 years of age.

Right Honorable Sir Louis Henry Davies K.C.M.G.; P.C. was born in Prince Edward Island May 4th 1845. He was educated at Central Academy Prince of Wales College; Charlotte town; called to the bar of P.E.I. in 1867; created a K.C. in 1880 was leading counsel for the tenantry before the Prince Edward Island land commission in 1875-76; one of the British council before the international fisheries commission under the Washington Treaty of 1887; was elevated to the Supreme Court of Canada in September 25th 1901 and was made Chief Justice in October 1918. He was a member of the legislative Assembly of P.E.I. in 1872 and was elected to the House of Commons for Queens P.E.I. in 1882; became Minister of Marine & Fisheries in the Laurier Government July 13 1896 continuing as such until 1901 when he was appointed to the Supreme Court Bench of Canada. He acted as Canadian representative in several capacities including the Belgian and German trade treaties and the Alaska boundary line commission 1898-99.

He was made a K.C.M.G. in 1897 and a Knight of Grace of the Order of St. John of Jerusalem in 1913 and an Imperial Privy Councillor in 1919. In May 1872 he was married to Miss Susan Wiggins daughter of Rev. Dr. Wiggins and had one son and three daughters.

90 P.C. Of White Children in U.S. Susceptible of Tuberculosis

Ninety per cent of the white children in the United States between the ages of 10 and 13 have enough tubercle bacilli in their bodies to make them potential victims of the "white plague."

This was the statement of George E. Bailey Supreme Secretary of the Independent Order of Foresters, a fraternal society with 165,000 members in the United States and Canada which maintains tuberculosis sanatoriums for members afflicted with the disease at Lopez Canyon near Los Angeles and at Rainbow Lake in the Adirondacks.

"Children are particularly susceptible to tuberculosis" said Mr. Bailey "if the ravages of the disease are to be checked successfully we must begin with the youngsters. Tuberculosis can be permanently cured among children. Among adults in most cases it can only be arrested. For every death from tuberculosis there are nine active cases."

"Growing children should have ten hours of sleep. They should have plenty of sunshine and fresh air. They should learn to sleep with their windows open. They should be trained not to put their fingers in their mouths or to chew the ends of pencils. They should not bite their finger nails. They should stand erect and practice deep breathing."

"All these principles of right living should be inculcated in the minds of children so that they may become familiar with the best means of resisting tuberculosis. Good health habits and sanitation are essential factors. Instruction in the home and school is of the utmost importance."

NOT A BUSINESS
The Post Office is not a business but a service and it is about the most important service that this country is engaged in.

Here and There

The Canadian Pacific steamer Empress of Britain will arrive at Quebec shortly on her first voyage from Liverpool as a cabin-class steamer under her new name Mont-royal. She is the fastest vessel sailing out of Liverpool and is scheduled to run from there to Quebec in six and a half days.

British Columbia's payroll for 1923 was \$150,000,000, according to the annual report of the Workmen's Compensation Board. The payroll for 1922 was \$128,592,502, and for 1921, \$130,099,373. Employing firms operating at the end of last year numbered 6,324, an increase of 145 over the previous year.

The 1924 season for the port of Montreal was officially opened on the morning of the 18th of April, when the Government ice-breaker Lady Grey arrived in the harbor. A big season is anticipated, especially by the Canadian Pacific steamships, whose vessels on the St. Lawrence route this year will exceed 197,000 gross tons.

Vancouver this season has beaten Portland, the great wheat port of the Northwest and formerly the great wheat port of the Pacific. Portland includes flour in its wheat totals, Vancouver does not. According to the Portland press the American city has moved over 29,000,000 bushels of wheat to date. Vancouver, in the same period, shipped 36,000,000 bushels, exclusive of a very considerable quantity of flour.

The much prized Wilder silver medal, the highest award of the American Pomological Society, the oldest horticultural body in North America, has been awarded to the Central Experimental Farm at Ottawa for the sixth time. The medal on this occasion was given for the Lobo apple, one of the many fine varieties of McIntosh Red parentage originated at the Central Farm.

An estimate of \$1,500,000 for fire protection and management of forest reserves has been placed before the Government for approval by the Minister of the Interior. The Minister stated that more drastic measures of fire prevention would be taken this year and in this connection the Department of the Interior proposes to utilize the Royal Canadian Air Force for the detection of fires.

An appeal for increased pensions for the originals of the old Royal North-West Mounted Police is now before the Federal Parliament. The present pensions are based on the pay standards of 20 to 30 years ago and are therefore quite inadequate, the appeal claims, and it is asked that they be raised to the same level as those granted members of the present Royal Canadian Mounted Police, on retirement.

"There is not a single geological reason why each and all of the world-famous mining camps, such as those of Kirkland Lake, Porcupine and Sudbury, should not be duplicated almost anywhere in the 650,000 square miles of the Quebec Laurentian Plateau, which stretches from the Ottawa and St. Lawrence Rivers to Hudson Strait," according to a statement made by T. C. Denis, Superintendent of Mines of the Province of Quebec, at a recent meeting of the Quebec branch of the Mining Institute of Canada.

Canada is financially sound. On April 14th the investors and savings account holders of the country were offered twelve million dollars worth of Canadian Pacific Railway five per cent bonds and by four o'clock that afternoon the issue had been over-subscribed and the books were closed. Telegraph orders came from all parts of the Dominion, a splendid evidence of the amount of money available for sound investment and the country's confidence in the future of the big railway. Another evidence is seen in the fact that small investors are putting savings into C.P.R. common stock which pays ten per cent on par value of \$100,000. Since 1907, Canadian holdings of this stock have increased from 9.75 per cent to 21 per cent at the present time and holdings in the British Empire total about 75 per cent.

Need Additional Literature
A barber says that if the run of women to the barber shops keeps up they will need to add The Ladies Home Journal and Harpers' Bazaar to their stock of literature.

WOULD MAKE A GOOD WIFE
A woman who can be a member of a church choir for ten years and never have a squabble would make a fine wife for any man.

Here and There

Shipments of grain from Vancouver for the 1923-24 season have now passed the 41,000,000 bushel mark. Officials estimate that the 50,000,000 bushel mark set for the season will be surpassed in the near future.

Reports from England state that it has been universally conceded that Canada's pavilion was in the best condition when the King opened the British Empire Exhibition at Wembley on April 23rd. "It was the Canadian building," the reports said, "spick and span and complete to the last nail that led all others in the race to the finish in time for to-day's official opening."

Over 3,000 settlers left Liverpool for Canada on April 24th. Thirteen hundred of these sailed on the Canadian Pacific liner "Montcalm," including a party of 200 skilled workers from Manchester, 58 belonging to engineering trades, 40 to building trades and 42 farm hands. Eighty skilled workers from Leeds and a party of engineers from Barrow-in-Furness were also on board.

A total of 40,000,000 salmon trout eggs has been collected during the last season by the Department of Marine and Fisheries in Lake Huron, Georgian Bay and Lake Superior. The total number obtained compares favorably with the average collections of recent years and is sufficient to fill all the hatcheries on the Great Lakes engaged in the propagation of salmon trout.

Graphic and interesting educational motion pictures will bring Alberta's various resources to the eyes of those who attend the British Empire Exhibition this year. In addition to pictures illustrating the life of Alberta's citizens on the farms, on the ranches and in the mining districts, charts will be used to bring out interesting compilations of statistics illustrative of the province's agricultural and industrial output.

Carrying an invitation to the President of the United States to attend the celebrations of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists, which will be held in June, Miss G. Lauer, herself a descendant of the Loyalists, left Belleville recently on horseback to ride to Washington alone, a distance of 600 miles. Elaborate arrangements for the celebrations are being made and it is expected that thousands of visitors will attend.

An attractive booklet entitled, "A Week in Quebec in the Spring," by Betty Thornley, internationally known writer associated with "Vogue" and other magazines, has just been added to the series of artistic pamphlets published by the Canadian Pacific Railway. It describes the Ancient Capital and its environs, is illustrated by many striking photographs and bound in a cover which reproduces in natural colors the pattern of cloth called catalogue, woven by Quebec habitant women.

That the Indian village of Hochelaga, which stood on the site of the present city of Montreal, was a place of about fifty wooden houses having a population of some 4,000 souls when Jacques Cartier sailed up the St. Lawrence, was the assertion made by Dr. W. D. Lighthall before the Antiquarian and Numismatic Society of Montreal recently. Dr. Lighthall was able to give the boundaries of the village and described it as resembling the home of Cedric the Saxon, in "Ivanhoe."

Aprons of the recent "Save the Forest Week," E. W. Beatty, President of the Canadian Pacific Railway, stated: "A week's concentration on saving the forests of Canada is well worth while—much better to make it a 'Forest Saving Year' and, if the forest resources of this country are to be conserved to adequately avail the greater Canada of a few years hence it must be a 'Forest Saving Generation.' Forest wastage is to-day tragically too great and we Canadians must pay and are paying for the loss."

Next week is
Robin Hood Week

HAT a week of Genuine pleasure, profit and food for thought and the most wonderful picture ever shown on the silver sheet, adding its beautiful story of love and romance to the equally nourishing and appetizing story of the greatest flour ever milled.

The picture comes for the first time and is here for only four days.

ROBIN HOOD FLOUR

is here every day and has long since established itself in the estimation of the housewife. From Robin Hood Flour she knows what a light, even-grained loaf of bread and what a delightful pan of buns she can bake.

Three times a day and every day in the year the dining tables in thousands of homes in Yarmouth, throughout Nova Scotia, the Maritime Provinces and the entire Dominion bear testimony to the merits of Robin Hood Flour.

Do your part in celebrating Robin Hood week. See the special window and store displays and ask your Grocer to include a bag in your next order.

Every week the dining table in thousands of homes in Newcastle, throughout New Brunswick and the entire Dominion of Canada bear testimony to the merits of ROBIN HOOD FLOUR.
