THE WEATHER

TORONTO, April 3.—The disturbance which was in the Mississippi Valley on Thursday moved northward across lake Superior causing gales on the Great Lakes and rain in Ontario and Quebec. It is probable that another disturbance now in the South-west States will move to the lakes. The weather is very cold in the West.

FORECASTS—Strong westerly winds fair and colder, Sunday increasing north and east winds, cold, fair at first followed by rain or snow.

CITY AND DISTRICT

Joy and Gladness For the Children

Every child—whether he be poor or rich is entitled to joy and gladness. Health is the birthright of all and there is absolutely no doubt that the healthy baby is a happy baby. It is the baby's nature to be happy—not cross. Only the sickly baby is cross. The well child is a joy to the home—it is a laughing, gurgling, happy little piece of humanity which drives dull care from the household. The sickly baby is opposite—he is cross, and peevish; cries a great deal and is a source of constant worry to the mother. But mothers there is no need of your little ones being sickly. Regulate the baby's bowels and sweeten his stomach with a gentle but thorough laxative and baby will soon be well and happy again. Thousands of mothers have proved this their use of Baby's Own Tablets—there is a smile in every dose of the Tablets. Give them to your baby and make him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

"The Wife Thou Gavest Me" is drawing big crowds at the Griffin Opera House.

Mr. A. A. Corbier and Mr. W. Houston of the United Veterans League of this city have been selected to represent that organization at a convention in Toronto on 17th to 19th when the question of amalgamating United Veterans League and the Grand Army of Canada will be taken up.

At a meeting of the joint industrial committee of Welland Board of Trade and the City Council on Monday evening it was decided to engage George Day, sales manager of M. Bentley & Sons, Limited, as industrial commissioner at a salary of \$350 per month, beginning at the first of May. Mr. Day will be given an office in the city hall and will also act as secretary of the Board of Trade.

There came very near being a vacancy in the Welland council on Tuesday, when a Michigan Central freight struck a limousine owned and driven by Alderman S. L. Lambert. The car still lies by the railroad crossing on South Main Street in a badly dilapidated condition. One side is completely stove in and on the other the wheel is in kindling wood. How Ald. Lambert came through himself without even a puncture is like a miracle.

CANADIAN MILLING INDUSTRY

The Canadian milling industry has, since 1914, made progressive strides and flour exports between that year and 1919 increased nearly five times. Today this business has an annual capacity of slightly more than 35,000,000 barrels a year and new mills are being continually added. In 1919 Canada exported 115,099 barrels of flour valued at \$621,338. By 1919 this had increased to 316,129 barrels valued at \$1,609,000. In the fiscal year of 1919, 9,156,806 barrels were milled at a value of \$99,536,696.

Great Britain has been by far Canada's best customer for flour, her imports from the Dominion of this commodity, for the last fiscal year, being equal to about 60 per cent of the total, or \$56,900,000 out of nearly \$100,000,000.

Exports by countries for the last year were as follows:—Great Britain \$56,270,225; United States \$39,794; British South Africa \$17,309; Newfoundland \$34,475; British India \$6,329,527; Other countries \$34,147,750.

The Trade returns for the present fiscal year show that, as yet, the exports of flour are holding their own, though the European countries are again engaged in grain growing and milling. In the last available period of five months 4,238,164 barrels of flour were exported, as compared with 4,461,313 in the same period in 1918. Of these 3,912,405 barrels went to the United Kingdom; 232,717 to British Columbia; 146,594 to the British West Indies; 257,845 to France; 100,182 to Greece; 55,735 to Italy; 23,109 to Newfoundland; and 22,282 barrels to other countries.

Great Britain took a little more than 3,000,000 more barrels than she did in the same period in 1918, and 3,500,000 more than in 1917. Other countries of the milling industry took a little more than the following figures show: oatmeal \$4,032,587; rye \$4,245,201; bran, etc. \$1,582,312.

What an account of the change of conditions in Europe, the export trade may fall off considerably, the Canadian milling industry by reason of its activity produced during the war is in a very strong position, and should be able to hold its own in the period of competition which is undoubtedly ahead.

GRANTS ANNUAL PASSES.

C. P. R. Encourages Loyalty in Service.

The C.P.R., to encourage loyalty in service, and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless, be much appreciated. This is the granting of annual passes to officers and employees of their wives under the following classifications:

Employee on a general superintendent's district, who has had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed.

Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines upon whichever employed. Employee of any other department of the service will enjoy the same privilege as above, stating the territory over which pass is desired. Head office employees who have had fifteen years' service will receive annual passes over eastern or western lines where employed. Women employees are to be treated the same as men in this connection. This action expresses the policy of the C.P.R. to aim at the contentment and loyalty of the employees of whom there is an army of 60,000 at present, including all classes.

The Pension Fund, a gift of the company, was the thought of Lord Staugheessy. The employees contribute nothing. Already the operation of the fund has wrought the greatest benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation, and to stimulate the general purpose and interest of the company. There are many all over the system on the Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its inauguration.

MOTHERS PRAY THAT BABIES MIGHT DIE

Suffering Among Jews is So Bad That Death Alone Gives Relief.

Mothers begging for death to relieve their children's suffering, was the most tragic thing seen by Leo Wolfson, New York attorney and journalist, in seven weeks spent in Roumania, Galicia, Bessarabia and Bukowina. Mr. Wolfson, who has just returned to New York, made the trip in order to study political conditions in these countries.

"There are one and one-half million Jews in this section of Eastern Europe who are in immediate want," declared Mr. Wolfson. "In every town I visited, I saw starving, naked Jews stretching out their hands to passers-by for a piece of bread."

"They hardly look like human beings. All one sees are living skeletons, covered with yellow skin. The children are small, worn-out, frightened, little creatures, who just drag themselves aimlessly around."

"How they will live through the winter, no one knows. No one can begin to describe this picture of misery and want. But one can get an idea of it, knowing that mothers are actually praying that death take their children, to relieve their terrible suffering."

What is the S.

Good Deal of Advers Reference to the Fa to Take Hold of Extensions Are Bad

That there is a considerable amount dissatisfaction in the city over the tatory manner in which the street highway situation is being handled at the obvious efforts of the Standard newspaper seconded by the mayor, becloud the real issue, is quite apparent today from what one hears in the street.

The remark of Mayor Lovelace, of least according to The Standard reported to be his, with reference to a letter "purporting to have been sent by Hon Dr Reid to former Mayor son," is not taken very kindly. The guarded insinuation that the lter might be a myth, is looked upon as merely in keeping with the dignity a man who occupies the honorable position of chief magistrate.

The Mayor has accused the Toronto of misstating the facts which says the city is in a quandary. This is not the position according to the news of business men and citizens generally. There is decided unrest as to the future of the railways, and Ham Beck says he will take it over and make it part of the hydro radio system. D. B. Hanna, head of the National Railways says the N. S. Ry. will not be handed over to Beck. Dr. Reid says no recent negotiations have occurred between the two forces. The citizens don't know what will happen.

As a matter of fact the road is being operated on certain streets of St. Catharines without a franchise. People Know That

It was not necessary for Mayor Lovelace or The Standard to tell the citizens that application has been made to the Hydro to take over the N.

Create Discon The People Lead

GENEVA, April 5.—New instructions issued by Lenin, Bolshevik Premier of Russia, to all radical and Communist leaders in Europe and America have been revealed to your correspondent by a trustworthy informant fully initiated in the secrets of Russian Soviet diplomacy. In these instructions which hthrow a dazzling light on many recent events and developments, the Bolshevik Premier draws the general lines to be followed by his adherents everywhere in about a world revolution.

To Foment Unrest

The main theme is a minute and systematic plan of creating and stimulating discontent not only among the workers but more particularly among those classes of citizens opposed to Socialism, that the latter may be placed to a state of irresolution or pathetic indifference, excluding any opinion when the Red minorities speak.

As the most effective means of spreading universal discontent, Lenin especially advocates the introduction of Socialistic legislature into a democratic State. Bolshevik leaders in Europe and America are urged to stand and support all legislative measures calculated to cause friction among the public and certain elements of it.
