

## INTEREST IN RIFLE SHOOTING INCREASES

Present Week of Dominion Rifle Association at Ottawa Most Important Since 1902—Number of Entries 100 More Than Last Year—Trouble Over Private Gougou.

Ottawa, Ont., Aug. 23.—Rockcliffe, forty-first annual meeting of the Dominion Rifle Association, which is the most interesting held since its inception with the possible exception of the one in 1902 when the Palma trophy was shot for at the Rockcliffe range and the British team shot through the matches as well as many Australians. The fact that the council has decided not to send a team to compete for the trophy this year will mean that a decision will have to be made and the match committee will get out of a somewhat ominous and unpleasant situation.

The entries number about 570 regular and 34 cadets, which is over 100 more than last year. This in part is due to the number of cadets, who entered as a result of "two" matches especially, one with age limit of 18 and one of 15 years. A very large entry has also been secured from rifle club members.

A feature of the meeting is the large number of tyros on hand, numbering over 250, as against 126 at last year. This year, however, the D.R.A. returns them a part of their rifle rifles which has proved a great improvement. The number of employees this year is increased to 200 and the prize money totals \$16,618.

There was an interesting dispute today over which regiment Private Gougou should shoot with. He is one of the crack shots of the third Victoria and a former Bisley man. He formerly shot with the Winnipeg regiment as he had never been discharged. After a discussion it was decided that he belonged to the Montreal regiment, who had entered him in its team.

Results of the Canadian rifle league meeting were announced. The following being the leaders of the prize winners: First series (City Corps) 1st C. A. Halifax 3, 732; 2nd R.R. Quebec, 3, 726; 3rd Ottawa 3, 697; 13th (First team) Hamilton 3, 692; 6th D.C.O.R. Vancouver, 3, 691; 3rd Vics Montreal 3, 684; 10th R. G. Toronto, 3, 680. Second series (Mounted and rural corps) 6th Laurentian 3, 764; Royal Canadian Engineers, Halifax 3, 724; 102nd regiment Nelson, B.C., 3, 714; 19th battery C. F. A. Moncton 3, 673.

Third series (Civil rifle association) Quebec 3, 717; Yukon (First team) 3, 680; Moncton 3, 661; Vancouver 3, 659. Fourth series (Cadets corps); see

tion A—Harbord Collegiate—Toronto 2,174; Dundas High school, 2,029; Ottawa Collegiate 1,942; Hamilton Collegiate 1,726; Renfrew Collegiate 1,698; Section B. Toronto Public schools 1,666; Ottawa public schools 1,349 Club Target Rifle Associations, Halifax Garrison 1,175; Moncton 1,675; cadet corps Harbor 1,716; Colingwood Collegiate 1,565.

## COMPANY STILL MINING COAL.

Dominion Coal Company Maintains An Average Output.

Halifax, N.S., August 23.—The official statement of the Dominion Coal Company, covering today, is given by your correspondent is: Hoisted from shafts, 6,708 tons; loaded from the banking station, 4,833 tons; total output for the day, 11,541 tons.

Dominion No. 1 colliery fell short of the 2,000-ton mark by only thirty tons. Dominion No. 2 raised nearly 1,300 tons; No. 3, 700; No. 4, 700; while the other collieries are all doing fairly well. Present indications point to a very substantial increase in the production from the collieries during the present week and the following days to the close of the month.

A number of new men have gone to work at No. 2 colliery and before this week is out the tonnage hoisted from the big shaft will probably reach the 1,000 or 1,700 mark. The company is now preparing to re-open collieries Nos. 5 and 9. A large number of men came in on Friday, Saturday and today from Newfoundland, Inverness, Grand Narrows, Pictou County and Montreal. About 75 per cent. of these men are practically miners and most of them have at some previous time been employed for the Dominion Coal Company.

## TO RAISE A MILLION.

New Orleans Woman Has Big Suffrage Project.

New Orleans, La., August 20.—"I want to raise a million dollars to aid in making the woman's suffrage question an issue and to attack the power of organized vice," said Kate H. Gordon, on her return here today from the Northwest. She was recently elected chairman of the Susan B. Anthony fund. "My plan is to get one hundred women to give me \$1,000 each," she continued, "and one thousand women to give me \$100 each for this memorial fund to Miss Anthony."

Miss Gordon refused to accept reelection as secretary of the National Woman's Suffrage Association because she said she wanted to devote more of her time to spreading the propaganda of woman suffrage throughout the south.

## Germany's Aerial Supremacy.

London, August 21.—As the result of an investigation of the German aerial supremacy made by a British expert, the British government will spend ten million dollars to equal the superb organization which Germany now commands.

## G.T.P. ADOPTS UNIQUE ADVERTISING METHODS

Cinematograph Pictures Will Be Used to Show the People of Europe and the U.S. the Possibilities of Farming in Western Canada. Advertising Men in the City.

H. R. Charlton, of Montreal general advertising agent of the G.T.P. and the C.T. railroads, is in the city today with a group of publicity men who are securing data of Edmonton and district. Along with him are A. E. Duff, District Passenger Agent of the G.T.P., and general agent of the C.T.P., and a general agent of the G.T.P., W. Swan, official photographer of the street, F. E. Batchelor, of London, Eng., representing the largest cinematograph company in the world and G. B. Johnson, professor of journalism Indiana University, Bloomington, Indiana, who is writing a series of feature stories of the West. The party has just returned from a trip west to the end of steel at Wabunan.

The London cinematograph man is securing a series of harvesting and general farming scenes in the West for advertising purposes of the Grand Trunk Pacific. In European countries and in the United States, the feature will be the development of the settler or the pioneer. His first habitation is a log hut but in the course of a few years he has splendid farm buildings and cultivated fields that stretch far away on the horizon. Mr. Butler has secured pictures of ten binders at work in a single wheat field and a traction engine drawing five binders. Other scenes have been secured at Buffalo Park and in the construction camps of the railroad. In Edmonton Mr. Butler is securing a bird's eye view of the city, street scenes and a glimpse of the farming district at Clover Bar. This is an absolutely unique feature in immigration and colonization advertising of a railroad company.

Prof. Johnson is finding plenty of material for good journalistic work in the West. He is particularly interested in the life of the increasing settler and agricultural development of the prairie provinces.

"The G.T.P. line across the continent is the most northerly of the seven or eight in North America," said Mr. Charlton, "and I have no hesitation in saying that it has no peer in picturesque scenery. It is bound to become a great line for tourist travel."

## KILLED BY STEAM FLOW.

Swede Employed Near Cochrane.

Calgary, August 24.—Olaf G. Oleson, a Swede employed on Wilson's steam plow outfit, working on the Hutchinson ranch, near Cochrane, was caught in some manner in the gearing of the plow and before the machine could be stopped he had been run over and killed. He died three hours after.

The Normal School opened this morning with a very large attendance.

## MEDICAL MEN FOR THE PEG.

Two Hundred and Forty Physicians Register at Association Meeting.

Winnipeg, Aug. 23.—The assembly hall of the University of Manitoba resembled the scene of a great family reunion this morning when members of the Canadian Medical Association gathered for their 42nd annual meeting. An atmosphere of congeniality pervaded the assembly and physicians from every section of Canada, from the Atlantic to the Pacific, expressed in their faces the pleasure they felt at meeting old colleagues of their academy, and members of their profession whom they had not hitherto known.

Early in the morning registration began, and by noon 240 physicians had handed in their names, many of them being local members of the profession. The attendance, however, included men from the largest centers of Canada, from Great Britain, and the United States as well as men from the smaller towns of the eastern provinces and from the western prairies. There were four lady doctors registered, Dr. Douglas, Mrs. Green and Dr. Mary Crawford, all of Winnipeg, and Dr. E. Amelia Neuman, of McGregor, Iowa. A great many of the physicians were accompanied by their wives, and it is expected that when all reach the city, the combined number of visitors will reach 500. The attendance at the meeting this year is expected to eclipse all former conventions. There are 150 local physicians who are members of the association.

The medical men were formally welcomed this afternoon by Mayor Edward Smith, who addressed them in the school room of the Broadway Methodist church.

## HAIL STORM AT BALDUR, MAN.

Cleans Up All Standing Crops For Some Distance East.

Baldur, Man., August 24.—A terrific hail storm passed over Baldur yesterday at 3:40 p.m., doing very little damage, however, except that caused by the hail of wind which accompanied it. The hail was about the size of a pea and fell for some distance east to Indian Springs. The heaviest losses are A. W. Playfair, G. Playfair, C. Creamer, J. Creamer, J. S. Conibear, F. Beaulieu, K. Stratford, N. Ramap, S. Oleson, and the worst loss was that of a small moving group, thus making the efficiency of the shells a mere matter of chance.

The special correspondent of the Liberal at Melilla insists that Spanish operations on a large scale are impossible for at least six weeks.

## AWAIT 20,000 RE-INFORCEMENTS.

Baldur, Aug. 23.—Five infantry regiments, one of cavalry, and one of artillery have been ordered to proceed to Ceuta, where the frontier lines are rapidly being fortified, and guns placed in position, entrenchments thrown up and the garrisons placed on a war footing. The road between Ceuta and Tetuan, constructed by Spanish labor under the surveillance of troops, has been abandoned, as the Angora tribe has assumed a threatening attitude. The Moors also are entrenching themselves in the Kytle territory. News has just been received here that the Spanish vessel Soledad has been captured off Palmas with contraband of war.

It is learned from what is deemed a trustworthy source that the Spanish fleet at Melilla will not begin the pro-

## MOORS ARE RECEIVING BIG RE-INFORCEMENTS

Many New Uniforms Appear in the Ranks of the Fanatical Tribesmen Who are Giving Spain Endless Trouble in Successfully Quelling Them.

Madrid, Aug. 24.—The Moorish fanatics over Penon which began on Saturday continued until Sunday, when the gunboat General Concha approached and shelled their strongholds, scattering the Rifians. The Rifians also persisted in their attack upon Alhucemas where they fired upon the Spanish positions all night and all day and at five o'clock in the afternoon, when the last report was received by General Marina, the fighting was still being continued there, the Moors using their artillery. According to a report they fired four shots against the town but without effect.

All reports, whether official or private, agreed in the statement that the Rifians have increased the number of their fighting men and are again showing great boldness, although they were apparently tamed after the combat of July 27.

The Spanish notice that the new arrivals in the Moorish ranks are dressed in white, from which circumstances it is surmised that they come from the interior. El Chandy, who seems to be the leading chief of the Kabyles and directing their war against Spain intends to keep the Spanish army busy so as to prevent the execution of General Marina's plans.

When the Spanish artillery opens fire on the heights of Gurugu, aiming at places pointed out by an officer from a balloon, the Rifians scatter in small moving groups, thus making the efficiency of the shells a mere matter of chance.

The special correspondent of the Liberal at Melilla insists that Spanish operations on a large scale are impossible for at least six weeks.

## AWAIT 20,000 RE-INFORCEMENTS.

Baldur, Aug. 23.—Five infantry regiments, one of cavalry, and one of artillery have been ordered to proceed to Ceuta, where the frontier lines are rapidly being fortified, and guns placed in position, entrenchments thrown up and the garrisons placed on a war footing. The road between Ceuta and Tetuan, constructed by Spanish labor under the surveillance of troops, has been abandoned, as the Angora tribe has assumed a threatening attitude. The Moors also are entrenching themselves in the Kytle territory. News has just been received here that the Spanish vessel Soledad has been captured off Palmas with contraband of war.

It is learned from what is deemed a trustworthy source that the Spanish fleet at Melilla will not begin the pro-

jected general attack until 20,000 more men have arrived. This means that there will be a delay of three weeks. Instructions have been given to all officers to adopt modern uniforms and to wear nothing which will distinguish them from private soldiers. They are to dye their swords, and take other precautions to prevent the enemy from distinguishing them and then taking such a heavy death toll as they did in the recent engagements. There is much dissatisfaction with General Marina's confidence in the so-called friendly Moors. These tribesmen are regarded as spies, who will finally prove treacherous.

The health of the army is excellent and the soldiers are full of enthusiasm.

**Moors Receive Reinforcements.** Melilla, Aug. 23.—A Spanish convoy was attacked by the Moors today at a point near Sidimusa. After severe fighting in which seven Spaniards were wounded, the convoy was extricated from the position. The Moors are receiving reinforcements in large numbers.

## BLEACHED FLOUR SEIZURES.

Will Be Continued—Violation of Pure Food Laws.

Washington, D.C., August 23.—The requests of manufacturers of bleached flour that no further seizure of bleached flour be made until a test case should have been decided, were refused today, following a conference between Wade Ellis, acting attorney general and Dr. H. F. Dunlop, of the pure food board of the agriculture department.

The food experts of the agriculture department some time ago decided that bleached flour was in violation of the pure food law, not so much on the ground of purity, but because of alleged misbranding, and the agents of the department were instructed to make seizures of the flour.

Counsel for the millers, the largest of which are in Iowa and Nebraska, have been seeking to have the seizures discontinued until a test case could be made and decided. Today it was determined that the seizures will be continued without regard to a test case. The large millers of the Northwest stopped bleaching flour on February 1.

## UNITED BAPTISTS IN SESSION.

Will Do Much More Work Along Missionary Lines.

Halifax, N. S., Aug. 24.—The convention of the United Baptists of the Maritime Provinces is making good progress. It held three sessions yesterday.

The decision to increase the missionary staff three fold and the expenditure for missions four fold was reached at this morning's session. The consideration of foreign missions occupied much time. The Baptists responsibility in foreign missions is being worked with those points in supplying 240 missionaries and 3,000 native workers and an annual outlay of \$360,000.

## TO CROSS LAKE ONTARIO.

New Yorker in Bi-Plane Will Make Flight From Toronto Next Week.

Toronto, Aug. 23.—Starting from Toronto, L. C. Foster Willard, of New York, will attempt next week to fly across Lake Ontario to Niagara Falls, on a bi-plane airship. The machine is owned by Edward T. Landy, of New York, a member of the Aeronautic Society of America, and has been one of 23 successful flights which include the longest cross country flight in the world's cross country record made at Minna, L.I., Friday 19th, when Willard flew 12 miles.

"We are bringing our machine to Toronto with the intention of exceeding Bristol's feat, by flying across Lake Ontario," said Landy.

The machine, with Willard, who operates it, will arrive Thursday.

Landy's machine is the smallest bi-plane in the world, being 29 feet, 11 inches across. It was designed and constructed by G. H. Curtis, of Hammondsport, N.Y. Willard recently flew 33 miles in 52 minutes and has flown at a rate of 461 miles an hour. The machine weighs 400 pounds, outside of gasoline and driver and is equipped with a 25-horse power, 1,000 revolution per minute motor. The engine cost \$7,500 to construct.

## INCENDIARIES BURN RINK.

The Big Arena at Portage La Prairie Is Destroyed.

Portage La Prairie, Aug. 24.—The big arena skating rink was totally destroyed by fire this morning, the loss being twelve thousand dollars. It was work of a firebug, traces of gasoline being observed by those who first arrived on the scene. This is the third fire within a week and the sixth within a month and the authorities are convinced that incendiaries are at work. The town is much wrought up over the circumstances.

## Case Against Strike Dismissed.

Port Arthur, August 24.—The first of fourteen charges of rioting in connection with the strike at Fort William was heard here at noon by Judge McKay and resulted in the acquittal of the defendant, Thomas St. Lamuck. Three witnesses swearing he was not in the crowd while the shooting was going on, but in a house some way off. St. Lamuck started to work as a strikebreaker, but was induced to join the strikers.

## Storm Interrupts Communication.

Winnipeg, Aug. 24.—Owing to heavy storms in the south, particularly at Grand Forks, N.D., Winnipeg was practically cut off from communication with the Twin Cities last night after midnight. A Western Union wire worked with those points intermittently only this afternoon but no connection could be obtained with Chicago.

# FINAL WINDUP

The last final windup of the great sale of the CALEDONIAN DEPARTMENT STORES is at hand. The last great sweep. One more application of the price cutter's knife and the greatest sale Alberta ever knew will be but a matter of history. Have you profited by it? Have you taken advantage of this one grand opportunity to save while you had the chance

**THREE DAYS MORE - THURSDAY, FRIDAY, SATURDAY - Sale positively closes Sat., Aug. 24, at 11 p.m.**
