## Lates News From Fires.

TELEGRAPH LINES INTERRUPTED  
The disastrous fires raging in the neighborhood of Jumper's Brook and Lewisport for the last two days have devastated a considerable area of the forests, while much destruction has been wrought to the property of the lumbering mills operating at both these places. It is gratifying, however, to note that the prayer for rain has been listened to and that the conflagrations are being gradually subdued. Few messages were received in the city to-day about the fire owing to interruptions in the line caused by numbers of telegraph poles being burned down. The Reid Co. were in communication with Notre Dame Junction this forenoon and learned that there were copious rain showers prevailing at Lewisport and that the fire was practically out. The company also had meagre information concerning the fire at Jumper's Brook. Several telegraph poles and railway ties have been destroyed belonging to the R. N. Co., but the damage is only considered slight. A number of horses belonging to the mill there also succumbed to the ravages of the flames.

Inspector General Sullivan had the following message to-day from Const. Forsey at Gumbo: "Forest fires raged here yesterday. Walter Pritchett's mill burned. Fire not improving. It is hoped that the worst is over and the fires are being got under control. The fires are greatly hampering telegraph operations and as a result the Invermore's passenger list could not be received."

## Meeting of Football League.

A meeting of the Football League will be held to-night when the fixtures for the season will be drawn. It is probable that the first match will not take place before Monday, June 10th, so as to allow the teams an opportunity of getting more practice. This will, no doubt, prove of material benefit, particularly from the standpoint of the spectators.

## Train Notes.

The west bound express left the Quay at 8:14 a.m. to-day.  
The east bound express left Gumbo at 8:18 a.m.  
The local train from Carbonear reached the city at noon.

## What a Difference?

The cable despatch conveys the intelligence that the resignation of Mr. A. B. Morine, as Chairman of the Public Service Commission, has been accepted, and that it will take effect on Saturday next. The circumstances under which Mr. Morine resigned this office are interesting in view of the protests of the President of the F. P. U. against Mr. Morison continuing a member of the Government.

It will be remembered that objection was taken by a member of the Dominion House of Commons against the incumbency by Mr. Morine of the office of Chairman of the Public Service Commission on the ground of objectionable feature of Mr. Morine's career in Newfoundland. Premier Borden stated immediately that he would look into the protest. Mr. Morine almost as promptly placed his resignation in the hands of the authorities to take effect should they so wished when he had finished matters then pending.

It may be observed that the resignation has been accepted and it is to take effect at once.

What strikes one at once is that the objections raised against Mr. Morine were not about anything he had done or left undone in connection with his duty as Chairman of the Public Service Commission, nor had the objections any reference to any acts of commission or omission during his residence in Canada for the past six years. The gravamen of the case against him was that which caused Governor Sir Herbert Murray to call for his resignation some thirteen years ago and related to his relations with the late Robert Reid before, about and after March 1898.

In short, certain matters which were held by Governor Murray to affect the honour of one of his Ministers, are now held by Premier Borden to be incompatible with the continued tenure of the office of Chairman of the Public Service Commission by Mr. Morine, although they took place in another country and took place some fourteen years ago.

Now mark the contrast between the action of Premier Borden in that of Premier Morris and also that of Mr. Morine and Mr. Morison.

The first protest was made against Mr. Morison about the time the protest was made in Canada against Mr. Morine.

Mr. Morine immediately placed his resignation in the hands of the authorities. So far as we know, Mr. Morison did not do so, and subsequent events seem to confirm this surmise.

Mr. Morine acted most considerately towards the Prime Minister who had placed him in office. Can the same be said of Mr. Morison?

Premier Borden answered publicly a public challenge in the premises. Premier Morris has remained silent.

in spite of a public challenge in the matter of the Memorials about Mr. Morison.

Mr. more, he has done worse. He has flouted Public Opinion, by leaving Mr. Morison as Acting Premier, and practically his locum tenens during his absence. What a contrast between the conduct of these two Premiers!

## Seriously Injured

Frightened by a passing train the horse driven by Calman Thomas Druken who was returning from Mr. N. Cousins' residence, on the South Side Road, bolted yesterday afternoon and nearly killed its owner. The horse travelled at lightning speed, Druken holding the reins for some distance until thrown out on the road-side violently. Continuing its course down Water Street the animal was brought to a halt at Monroe's office where it broke a plate glass window. The horse which was cut about the legs was brought to Judge's stable, while the Victoria was wrecked and taken in charge by a wheelwright. In the interim Dr. Campbell responded and attended to Druken, who was unconscious, at a South Side residence. On examination it was found that a deep wound was inflicted near the right thigh and another on his forehead as well as internal injuries. The wounded driver was afterwards conveyed to the General Hospital in the ambulance.

## A Song of Being Busy.

If you were busy being kind. Before you knew it, you would find You'd soon forget to think 'twas true That someone was unkind to you.

If you were busy being glad. And cheering people who were sad, Although your heart may ache a bit You'd soon forget to notice it.

If you were busy being good. And doing just the best you could. You'd not have time to blame some man Who's doing just the best he can.

If you were busy being true. To what you know you ought to do. You'd be so busy you'd forget The blunders of the folks you've met.

If you were busy being right. You'd find yourself too busy, quite. To criticize your neighbor long Because he's busy being wrong.

In a Glasgow school recently, a class of boys had been studying physiology with remarkable results. They were ordered to write an essay on the "spine." Many interesting papers were handed in on the subject, from one of which the following is an extract.

"The spine is a bunch of bones that runs up and down the back, an' heads the ribs. The skull sits on one end, and we sit on the other!"—Glasgow News.

In a recent election in a little town of Northwest Arkansas one of the candidates for city marshal received only five votes out of some five hundred cast. He took his defeat very much to heart, and had many bitter things to say of the "political" ring that he claimed had brought about his defeat. To a friend who was sympathizing with him he unburdened himself. "They think I ain't on to their little game," said he, "but I
