MONDAY, March 24, 1913.

What Does This Mean?

We direct the attention of the Government to a paragraph which was published in the Westminster Gazette of February 22nd, which is of more than passing interest to the electors of Newfoundland. The item is under the caption of "Newfoundland and the Dominion," and runs as follows:

"Representatives of the Newfoundland Government are stated to be interviewing Parliamentarians in Ottawa (says the Central News), relative to the admission of Newfoundland to the Canadian Confederation. The Ottawa Government, adds the Agency, is prepared to consider a proposal to this end."

Two members of the Morris Ministry, were, we understand, in Canada some little time ago, but we do not know whether they were in Ottawa, or were in any way connected with the negotiations which the Central

News alleges have taken place. In any case, it is up to the Government to take notice of the story published in a London newspaper, which is looked upon as the principal organ of the British Government. We have given the story as it comes to us, and we now await the answer of the Prime Minister, Sir Edward Morris.

Mr. Clapp's Speech on the Coastal Service.

Monopoly of the coastal steam service, as it applies to the District of St. Barbe, on the northwest coast, especially during the spring and fall months, when the people are at the mercy of such service as the s.s. Home is able to give, was the subject for an attack on the Government in the Assembly on Wednesday afternoon by Mr. Clapp, member for St. Barbe District. A digest of Mr. Clapp's speech made when presenting a numerously signed petition from prominent electors in his district, dealing with the irregularity and inadequate service of the s.s. Home during the past year, and begging that some relief be afforded, will be found in another column. He (Mr. Clapp) read at length extracts from a letter which appeared in this paper on the 12th inst., from the pen of the Rev. Mr. Richards, Church of England missionary on that part of the coast. These excerpts referred to the present service as "a scandalous insult."

"A mockery of a service"—and "A disgrace to the Colony." Such scathing criticism, made through the public press by a gentleman of high character and integrity, comes to us with convincing force. Mr. Clapp has also fearlessly done his duty as a representative of the people. The district he represents and the whole country well know how to appreciate his honest and manly fight against monopoly and a supine government. The conditions said to exist under which passengers are carried, the herding together at times of human beings in the manner described, is without doubt a disgrace to any country, and this state of affairs is tolerated and allowed to go on by a "combination" parading under the misnomer of "The People's Party."

The acting leader of the Opposition, Mr. Kent, in commending Mr. Clapp on the capable and convincing manner he had taken to present the case of his constituents to the House, assured him of the full support of the Opposition in forcing the Government to move in this matter. Referring to the service of the "Home," Mr. Kent said it was "utterly and absolutely inadequate." Can it be true, as intimated by Mr. Clapp, that the present Government are more minors and are not able to take hold of the contractor and see that the work for which they are subsidized and paid for is properly and faithfully performed? These grievances are of long standing—they are not new to Sir Edward Morris and his following; he admits in a mild way some knowledge that congestion exists in the spring and fall. Mr. Clapp, on the other hand, has had the subject matter of an unsatisfactory coastal service on the N. W. coast before the Government at every session during the past four years, but no move has been made to remedy conditions or to alleviate the hardships complained of. Most certainly St. Barbe has been outrageously neglected in the matter of its coastal service, and if a measure of relief comes this spring, as we hope it will, then it will be the order of the day to further congratulate Mr. Clapp.

Personal.

Miss Gertrude O'Neill, of Sydney, C. B., who was here on a visit to friends, left by the express yesterday for home.

Mr. William Horwood, of the Horwood Lumber Company, who was ill for a while in Hospital is now at his home and is making rapid strides towards complete recovery.

Rev. Fr. McPhail, of the Redemptionist Order, who left here by the express yesterday will with other priests conduct a mission in Toronto.

No Better Impossible

Arms and Legs Broken.

MEN SERIOUSLY INJURED AT BELL ISLAND.

Two men named Hickey, were seriously hurt on Bell Island last week. One, a native of Conception Harbor, was knocked down by an empty ore car, and had one of his arms broken while he was also badly cut and bruised about the head and face. Another man named Hickey, of Harbor Grace, was so seriously hurt Saturday, that he may not recover. He was at work in the submarine deeps of the N.S.E. Co's mine when a "trip" of cars ran away and struck him, and he had one leg broken in two places; he suffered also from a fractured arm and was terribly cut and bruised about the head and face. Both men are being treated in hospital.

Used Poison.

Between Saturday night and Sunday morning some person had access to Mr. W. Scater's premises between the annex of the Balsam House and the rear of his residence and using poisoned food killed a splendid setter dog which Mr. Scater highly prized. Only a short while ago he refused \$70 for the animal. The person who did the deed is well known and will be prosecuted.

False Rumour.

It was rumoured about the railway station to-day that a wireless from the Lintrose had been received giving her position as 185 miles S. E. of Cape Spear and passing through a large patch of seals considered to be the main patch. The Reid Nfd. Co. say they had no such message.

ROME, To-day.
So far as the Italian Government knows the question of Albania is practically solved as has been confirmed. Austria has agreed that Jakova shall go to Serbia which will satisfy the wishes of Russia. Russia has agreed that Scutari shall remain part of Albania, thus Russia, Austria, and Italy are acting in accord and supported by the other Powers.

Special to Evening Telegram.

LONDON, To-day.
A great crowd of youths, armed with various kinds of missiles, tin whistles, mouth organs and bells, gathered in Hyde Park yesterday, prepared to repeat the rowdy scenes of last Sunday, should the suffragettes attempt to hold their regular Sunday meeting. The women, however, wisely refrained but the crowd who were out for trouble in any event, spent the afternoon hustling men who declared themselves to be sympathisers with the suffrage movement. The police held a strong force patrolled the park adjoining the streets. The crowd finally became weary of waiting and dispersed toward evening. Officers who had long experience in handling mobs, said it was a good thing the women did not appear, as the men were in angry mood because of the burning of the fine country home of Lady White, widow of Field Marshall George White, hero of Ladysmith.

Special to Evening Telegram.

NEW YORK, To-day.
Ten sufferers from tuberculosis who were inoculated Monday by Dr. Friedman declared at the clinic held by the Berlin physician, Saturday, that their health improved since receiving treatment. Before entering clinic Dr. Friedman authorized announcement that two weeks hence he will return to Germany for a brief period, complete unfinished laboratory tests. He will return to the States, hopeful by that time the Government Health Authorities will have recognized his vaccine as a cure. The visiting specialist consented to an interruption of his demonstration long enough to let Dr. Brannan, head of the Bellevue Hospital, city institution, where the clinic was held to question patients treated five days ago. Government physicians, private practitioners, fifty nurses and a hundred students of Bellevue and Cornell Medical Colleges were present. Nine of ten patients reported they gained from three quarters of a pound to four and one half pounds since Monday. None had been troubled with night sweats since Wednesday, none suffered with hemorrhages since Thursday; from Monday to Thursday felt their pains decreasing, many of them felt better and stronger generally. Twenty-three sufferers were treated to-day, eighteen have pulmonary tuberculosis, the others affections of bones, one was a two-year old child with arm so swollen that Dr. Friedman could not locate vein, he sought holding the baby by ankles head downward, the physician injected his vaccine into the jugular vein and again intramuscularly on legs.

About Motor Engines

The FRASER motor engine with its wonderful new kerosene Adapter is meeting with great success. Everybody wants a strong, powerful, simple and easily understood engine which will run on a cheaper fuel than gasoline. All these requirements are found in the FRASER. Its Kerosene Adapter is a marvellous invention, it contains every known principle of power, economy, and simplicity.

S. MILLEY.

The co-operative trade societies and trade unions of Great Britain are preparing to organize a huge industrial combine which will affect about four million workmen and involve many millions of capital. In the case of the co-operators alone this is expected to involve \$250,000,000. The scheme, which has not yet got beyond the inception stage and which will take years to produce practical results, aims at co-ordination of all unions. The co-operators propose to organize for educational, industrial and political purposes. Their aim is to secure ultimate control of industry and commerce and thus enable the workers to solve the problem of labor unrest by the nationalization of industry.

On motion of Lord Curzon of Kedleston, the Royal Geographical Society decided to admit women as fellows on the same terms as men. A referendum by correspondence showed 2,189 members in favor, and 678 against the proposal.

Mr. Mitchell May, Secretary of State, in advocating the licensing of all chauffeurs after thorough examination, said in the Legislature at Albany that 212 persons were killed in Manhattan last year by automobiles and that the majority of accidents were caused by unskilled, intoxicated or reckless drivers. No death was caused by a taxicab in charge of a professional chauffeur. He would license all

chauffeurs and cancel the license after a stated number of convictions.
