10 Cent Cascarets Best Laxative for Liver and Bowels

Don't stay constipated, headachy, bilious, with breath bad or stomach sour.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from a cold, constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, bad cold, offensive breath and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

Your Boys and Girls.

The child crippled physically deserves all the help and comfort it is possible to give, but the child crippled morally by lack of training is in a pitiable plight. Often the mother becomes hard pressed by child bearing and infant nourishing, while the children on their feet are literally pushed into the street, to make room in the house for their juniors.

Children learn by imitation, either in thought or act. The imitation of wrong becomes as much a matter of course or natural sequence to the child as does the imitation of right. In the matter of "taking things," which becomes stealing if indulged in after baby days, the condition is often but the unintermitted continuance of the baby habit, of reaching out and taking what is wanted.

In Lady's Boudoir.

KEEPING THE TEETH PEARLY.

It has been said that the smile of the American girl is altogether too golden. This means that filled teeth are too often revealed by the American smile. While this is less to be regretted than unfilled teeth that should be filled, or teeth lost altogether, it is a calamity that could be averted by greater care of the teeth that show in our smiles.

A noted actor when asked what he considered as a chief physical qualification for a girl who wished to enter the charmed circle behind the footlights, said: "Sound teeth without gold filling." In other words, the golden smile is not half so pretty as the simple pearly one. One of the most prominent dentists in America, who, because he is a big dentist and not a little one, wants everyone to know how to need him, has issued a few "Don'ts" which are worth consideration by every woman who cares for the beauty of her smile.

Don't bite off the thread, is one of his injunctions that may seem like going to extremes; yet biting a thread may injure the enamel on the edge of the teeth, and start the insidious decay. Needless to say, biting any hard substances, such as nut shells, is firmly forbidden.

Do not hold pencils or penholders in the teeth. Pins or hairpins, being harsh metal, should not be held in the teeth for the same reason. Also don't bite your nails. This is not on account of the influence on the teeth, for not only the action of the nail surface, but the snapping together of the teeth as they come together through the nail is sufficient to begin or aggravate the harm.

Mince cold chicken and cream it, add green peppers chopped, and when it is served put over the top chipped beef which has been minced fine and browned in butter. This is truly a very good dish.
