THEIR ORIGIN.—The first leather boot probably led to the first corn, the first bunion, the first swearing at the feet.—But, notwithstanding corns were a late production, they soon became universal. They are now found in all parts of the old and new world. They are to be met with in the palaee of the king, and in the cabin of the ploughman. They are found in London, Paris, and New York. They flourish on the Thannes, grow luxuriantly on the Hudson, and yield magnificently on the Hudson, and yield magnificently on the disciplination. J. Briggs, at his offices 208 Broadway, N. EMIGRATION AGENTS IN GREAT BRITAIN.—The Ottawa correspondent of the Toronto Telegraph says, it is understood that the emigration agent in London, England, is to have his salary raised to \$2,000: that an agency is to be established for the South of Ireland, salary; \$1,200 with travelling expenses; another in the North with a similar salary; and a fourth in Glasgow, for Scotland, with a similar salary as Ireland. It is also understood that Mr. Moylan, of the Toronto Freeman, will have the refusal of the South of Ireland agency.

A young man in Columbus, Ohio, named Fred, S. Jamison, committed suicide by taking laudunum, on Tuesday, because a young lady to whom he was engaged to be married was dying of consumption. The lady died the same day.

TRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest point being first attacked, and a feeling of languor, lassitude and "all goneness" pervades the system. Stimmants only affort temporary relief, and have the same effect as giving a tired horse the whip instead of each. The true require is to expect the state of the state
