Notwithstanding the combined as under, we are out on top as usual. Look at the record for 1889. Policies issued for nearly \$3.500,000. Not bad for a roung company, you will say. True, took some of the old fogies 10 years to write up the same amount. Why, we declined more applications last year than some of the other companies wrote up altogether. How do we account for it, you say. Well, we have plans to suit everybody. Our premium rates are as low as any other company. Our policy is the most liberal, being nearly unconditional; almost a simple promise to pay at death or maturity, as the case may be. The policy-holders are entirely free from all liability; but are, never theless, allowed to participate in the control of the Company's affairs and to monopolize nine-tenths (9-10) of the profits of the business. Each policy-holder has one vote for every \$1,000 of insurance held by him in this Company. These privileges are secured by the act of incorporation. It you are not insured, or want more invarance, take a policy in the MANU-FACTURERS'.

Interesting Statements of the Progress of City and Suburban Parishes as Shown at the Annual Meeting.

"Of the many preparations before the public for the cure of colds, coughs, bronchitis, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Pectoral. For years I was subject to colds, followed by terrible coughs. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Pectoral and to lay all other remedies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure."
