Several Hamilton capitalists are interested in the deal, and some idea of the wealth of the corporation may be gathered from the fact that \$1,500,-000 was paid for the Carsley store in Montreal alone. The definite plans of the promoters have not been made public, but it is understod that stores will be opened in Hamilton, Toronto, Winnipeg, Vancouver and other Canadian cities, and operated in connection with this which have been bought in Ottawa and Montreal.

Looks Like Fake Story.

When Mr. J. B. Smallman was spoken to this morning by an Advertiser representative regarding the above dispatch, he remarked: "I am satisfied that there is nothing in it. It is possible that they have bought Lindsay store, for I know that it has been on the market; they may even have bought the Carsley store, though death of Dr. James Fulton, of it is news to me. New York, Sept. 15 .- J. P. Morgan, jun., was elected yesterday to the late E. H. Harriman's place on the board of directors of the National City regarded as one of the most signifi-cant of the week's financial developments, presumably indicating that harmonious relations exist between the Morgan and the Kuhn-Loeb-Standard groups of financiers. Added veight was given the event because it followed so closely upon the recent reports that the Morgan interests were about to take an active interest in the government of the Harriman roads, and that the younger Morgan was slated as the ultimate successor of Mr. Harriman in the command of the Union and Southern Pacific systems.

The National City Bank, largest of the nation's financial institutions, is controlled by the Kuhn-Loeb-Standard Oil interests, which assumed a commanding position in the executive committee of the Union Pacific. Geo. W. Perkins, of the firm of J. P. Morgan & Co., is already a director of the bank, and the additional recognition given the firm was taken by many in the financial district to mean not merely the existence of an ententecordial but the consummation of an active working alliance between the two great groups of American finan-
