BEEKEEPERS' COURSE AT STRATHROY SOON

Ontario Department of Agriculture to mark. Give instruction in Practical Work.

Arrangements are being made by the short course for beekeepers at Strathroy soon. Similar courses have been given in Guelph for some time, but the distance is too great for many to attend from this district.

The course will last for about ten days, and will include all lines of the work. Amateurs will be especially benefitted, as many apiarists who have been in the business for years will be present to give their advice If the course is a success it is likely that other lines of agricultural work will be taught in short courses. The proper treatment of apple orchards is one which will demand attention, as many are being ruined through lack of

A Story From Life

About thirty years ago a man of our acquaintance bought a farm. He paid for it with the savings he had on hand, and to put up buildings borrowed \$2,000.00 on a mortgage. Shortly afterwards he died leaving his wife with five sons, the eldest of whom was only ten years of

It was found that he had wisely taken out a life insurance policy equal to the mortgage he had put on his farm. With the money thus secured, his widow paid off the mortgage and had a free farm with good buildings, on which to support her family. By employing men to Insurance work the farm and paying them from the stock and crops raised, she was able to support her family and educate them. At present her five sons are playing an important part in the life of Canada. One is a banker, one a doctor, one a college professor and two are successful business men. Everyone familiar with the case knows that she could not have supported her children and educated them had it not been for the life insurance policy that left her free

from debt with a good farm. If you have a mortgage on your property you will have no trouble in working out the moral of this little story. We have policies to suit your needs whatever they may be. Send us your name and address and we will tell you
