

WORM EXPELLER

World's Famous Tape Worm Exterminator

IS SAVING PEOPLE'S LIVES IN ALL PARTS OF THE WORLD, WHILE THE PROFESSOR SITS IN HIS OFFICE, WHERE YOU ARE INVITED TO CALL, AT 211 OSSINGTON AVENUE, AND BE CONVINCED OF THIS FACT. THE INDISPUTABLE EVIDENCE TO BE SEEN, THE RESULT OF WHAT HIS REMEDY HAS DONE FOR SUFFERING HUMANITY, REMOVES ALL DOUBT. IT WOULD BE WISE TO SAVE THIS FOR FUTURE REFERENCE.

Many Children's Lives Saved By Professor R. L. Mulveney's World-Famous Remedy

How People Feel When They Have Tape Worm

Tape worm is bred from a parasite. This parasite is a small, round, and female in one. It is pear shaped, having two, four and six suckers. It lays the eggs, which are only counted with a microscope. They develop and form a body, which is the worm. Each joint is an individual, having a sucker at the head. The worm grows to be much longer than the bowels, where it is located, and sometimes a whole coil of them are found, enough to fill a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy the parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm and remains there to breed another. It is an internal demon and causes its victim to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe that the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for mania, the bowels, consumption of the bowels, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of the bowels, appendicitis and other complaints when one or more of these internal demons were eating their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite, as well as expelling them, with one dose of medicine, without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The professor has in his possession enough to convince us of this alarming fact. Some of the prominent symptoms are—ravenous appetite, dizzy spells, headache, cramps in the bowels, a feeling of soreness, some people also a feeling as though something was crawling up the throat. The only certainty of the presence of worms is when segments or joints are seen, which come away almost any time. They are flat and from three-quarters of an inch to one inch long, which have often been mistaken for pin worms, by those who do not know the difference. There are many who have been distressed which would take too long to enumerate. Strange to say, some very little distress.

MOTHER'S FRIEND FOR SICK CHILDREN

EXPELS STOMACH AND PIN WORMS, BUT IS NOT FOR TAP WORMS

This valuable medicine expels stomach and pin worms. It is not only valuable as a Worm Medicine, but it is an excellent Tonic, Physic and Laxative. It has been used for generations and has stopped some of the worst cases of Wasting the Bed. Many children that were wasted and thin, and whose mothers made happy, good for Coughs and Colds; also checks Fever. It is a real Mother's Friend, and gains its name from restoring sick children to health and quietness.

This valuable medicine is working wonders in all cases of sickness among children. I have one case in mind just now of a little girl 11 years old who had been treated for over a year, without any marked improvement. In fact, she got worse all the time. Her case seemed to puzzle the physicians, and attendance, and they finally agreed that an operation on the stomach would be necessary to find out what was the matter. Her father had opposed the operation, called and got a bottle of Mother's Friend. He told me his little girl was in a hopeless condition, and she measured 33 inches around the stomach, and her body was wasted away to skin and bone. Her mother said she was a beautiful, patient child, with a lovely disposition; to make a long story short, she was able to go to school, which was a great surprise to her mother and father. She was a beautiful, patient child, with a lovely disposition; to make a long story short, she was able to go to school, which was a great surprise to her mother and father.

Another case comes to my memory of a baby about two years old. The mother brought her to me in her arms. She was wasted away to a living skeleton, and it was a pitiable looking sight. The case was beyond all reasonable hope of recovery. I thought, well, your faith is great if you ever expect this child to get well. She purchased a bottle of Mother's Friend, and took it as directed, and the little one was relieved of scores of worms of various kinds. It was about three months later when this lady brought the child to me. She was after another bottle of Mother's Friend for her own children, and another for one of her neighbors. She had recommended it to I did not recognize either the lady or the child until she told me of the circumstances. She said: "Do you not remember me bringing a baby in my arms, all skin and bones. This is her. Isn't she a fine, healthy child now? No one would have believed it. Worms were the trouble. She got rid of scores of worms. Now you can see for yourself what a fine, healthy child she is. Just look at the rosy cheeks."

About 9 o'clock one night, a lady called for a bottle of Mother's Friend. She said her little boy had been taking fits for 24 hours, and the doctor had given him up with brain fever. She had asked a lady friend to call in and look at him, and she pronounced him to have worm fever, recommended her to try Mother's Friend, and a few minutes after taking the first dose he went to sleep, and next morning was relieved of a lot of stomach worms. The little fellow has had no fits since and is healthy and well. Just send \$1.

B'WELL? It Makes People Feel Well

B'Well is a medicine that assists nature, made from roots, herbs, leaves, etc. The concentrated extracts of these herbs tone up the stomach, regulate the liver, act on the kidneys, and it contains a harmless worm destroyer that is sure death to worms, and can be used with perfect safety.

B'Well is not a tapeworm exterminator, and is not recommended for that trouble. B'Well is restoring thousands of people to health. I am not going to enumerate the different diseases and complaints that people have been relieved of from the use of B'Well, as it would take up too much space. I can simply say that restlessness and disease cannot remain if you take this medicine for a time, if it will surely make you feel fine.

It does not contain poison in any form, or narcotics that only relieve pain, but the different roots and herbs that regulate the system. It stimulates the stomach, liver and kidneys into healthy action, helps digestion and keeps the bowels regular, expels all gases from the system and takes away the bad feeling around the heart, and a cheerful spirit from the head, depressed spirits and melancholy simply vanish, and a cheerful spirit takes their place. B'Well is a blessing to those that feel life is a burden to them, that are downhearted and unhappy from disease. B'Well carries the poison out of the system through the natural channels of health, and as the poison is carried out of the system, nature restores herself, and a cheerful spirit follows, as there is nothing like good health to make a person cheerful and happy. People treated for Epileptic Fits have been restored by its use. Don't ask me if it cures this, that and the other disease. It is different from most medicines advertised in the press, as I am not advertising this remedy as such, but simply advising it as a medicine that will help and will regulate the system, carry the poison out of the blood, and common sense must surely tell you the result. Men and women who have been nervous, weak, with hollow cheeks and sunken brow, have become plump, healthy and cheerful from its use. It has done for others what it will surely do for you. Young men and women whose faces were much for pimples, and a sickening sight to look at, are now free from them from its use. Men, women and children who have been eating and running sore have been healed, and what it has done for them it is likely to do for you.

Prof. Mulveney's World-Famous Tapeworm Remedy is saving thousands of valuable lives, and B'Well is doing just as much for those requiring this kind of medicine.

B'Well is put up in powder form for convenience of use, and is sent by mail, which does away with all breakages. The package of powder makes it easy to use. The same amount of money. Full directions for making. Prices, \$1.25, six packages \$6.00.

Write for further information, free, and send self-addressed, stamped envelope with your address written plainly for reply. The remedies are sold only by Prof. R. L. Mulveney, 211 Ossington Avenue, Toronto, Ont.

Sept. 24, 1914.
Dear Sir—Your wonderful medicine, received, and I took it according to directions, and am pleased to say the tapeworm was expelled. The head and all, in one hour and a half—first motion of the bowels. Your medicine is certainly a wonderful discovery. I would like to express my thanks to you. During the last nine years I have taken five other remedies, but none have done what B'Well has done for me. I have been suffering from 36 hours to 48 hours and 50 hours before I took your medicine, and it took me just as much time to get rid of it. I shall tell my doctor at once of your great remedy, that he may direct others to you. I know of another lady who has been troubled longer than I have, and I will send your address to her. I feel it a duty to let all who need help, as I did, know of your worthiness, for what you can do for me I know you can do for others. I hope you may be spared a long time to continue your noble work, but sincerely hope you will in some way leave your discovery so that it won't die with you, for it is so easy to take and acts so quickly. Gratefully yours,
Mrs. Ingersoll, Ont.

Hamilton, June 23, 1915.
This is to certify that my son was in poor health for some time. We did not know what was wrong with him. He was doctored with several doctors without success. I went to the drugist and got medicine for him several times without any benefit to him whatever. I was beginning to think there was no cure for him. I went into a grocery store one day and I noticed part of a Toronto paper on the counter. I picked it up and looked at it. The first thing I saw was Prof. Mulveney's Tapeworm Remedy. I told my son about it. That is how I found out about the Tapeworm Remedy; so we decided to try the remedy. I sent for the medicine. He took it according to directions, and one hour and thirty minutes after taking the medicine, the tapeworm was expelled from the system. Words would fail to express our gratitude. It is my earnest prayer that Prof. Mulveney may long be spared for the sake of suffering humanity.
Mrs. May McKenna, Hamilton.
