EESUMES SERVICE.

Last evening the Pacific Coast steam ship Umatilla made her first appearance in port since early in November 185t, when, meeting with an accident on the Sound, she went south for repairs. These have been in progress until less than a week ago, and the changes made in the interval have been many and costly. Not alone has practically a new bottom been put on the ship, necessitated through the east of plant flashes light to every quarter of the ship, and the machinery has been all overhauled and now runs very smoothly. The crew, with the exception of Captain Hunter, who will rejoin the steamer at Seattle, relieving Captain Thomas, stayed by the vessel while laid up, and there was not a corner of the ship requiring a renovation that did not receive it. On the way to Victoria, the Umatilla experienced the best of weather and reports having sighted no sealers or seals. She brought 50 odd tons of freight for Victoria and a fair number of passengers. The Mexico, which was running in the Umatilla's place, is preparing in San Francisco for continued service and service of the case of the Continued services and services and the most of the case of the Captain She progent 50 odd tons of freight for Victoria and a fair number of passengers. The Mexico, which was running in the Umatilla's place, is preparing in San Francisco for continued service and services and the first of the captain gers. The Mexico, which was running in the Umatilla's place, is preparing in San Francisco for continued service and was visiting her husband, the house was right of the council.

San Francisco for continued service and may run south.

THE AUSTRALIAN LINER OUT.

Having adopted the new rule of calling at Comox for coal, the Canadian-Australian liner Miowers got in from Vancouver on Sunday at midnight and sailed on route to Sydney, N.S.W., at 6 o'clock in girls decided to ask the incoming city overserday morning. She carries a full cargo, including nearly 80 tons of salmon, cargo, including nearly 80 tons of salmon interest of cargo including nearly 80 tons of salmon interest of cargo including nearly 8

novel, and the officers feel that they will accomplish a vast amount of good.

The most important news in connection with the army is that Gen. William Booth, the head of the army, is coming from London in the fall, perhaps in September, to give two months of his time to the work in America.

The greatest of all the projects to be unterested by the contract of the

his being the first marriage ceremony sne ever performed. While he is one of the loyal and active men in the Salvation Army, he corresponds with Ballington Booth and his wife, and in a letter to them yesterday he told them he believed that God was pointing the way to a union of the two organizations.

work will be started on an extensive scale in a hundred new cities by the Salvation Army next month. The cause is going to be pushed as it never has been before. Much of the new work will be special. Major Winchell will go to California in a week or two to organize the social work there. Two farms and some buildings for chospital purposes have been presented to the army there, [and he will devote his energies largely to the sick and the unemployed. The Salvation Army people call such work their social work.

The local Council of Women held a brief meeting at the city hall yesterday afternoon, adjourning almost immediate in meeting at the city in the allotment of street work.

ALD. PAETRIDGE moved that this be received and filed, with the observation of the tecreved and filed, with the observation work could not be provided for everyone. At the same time funeral of the late Henry Lawson yested to bring to the attention of the wished to bring to the attention of the board a subject which he held to be endorse, besides that of the regular manner. It was said deserving of inquiry. He had lately been twitted with having profited by the of two of the gentlemen seeking election as school trustees—a complete ticket being obtained. The consensus of oninion the timber instead of being burned done what he could for the cause of true

tion in London and other European cities say that the results are immediate and gratifying.

mination to ferret the matter to the botation of that say that the results are immediate and gratifying.

Quebec, Jan. 11.—At a convention of Irish Liberals held on Saturday night, Ald. E. Reynolds was nominated as Liberal to the first you heard of that story," inquired Ald. Glover, "why that was old news a month ago."

ALD. Humphrey treated the report as the grave side Ven Archdeacon Scriven to osilly altogether to make inquiry into."

ALD. Humphrey treated the report as the grave side Ven Archdeacon Scriven to osilly altogether to make inquiry into."

"I'm afraid you won't find it silly over."

THE OLD TROUBLE REPEATED. It seems, from the news brought from

> The Council of 1896 Close Their Career With a Little Acrimonious Debate.

William Smith, a resident and a rate-payer, complained that unjust discrimination was being made against the department of the lethbridge, other returning officer in America could alta., collieries and railway, Miss Galt and F. Hamilton Newburn, M.D., who parallel. serving and needy married men of the city in the allotment of street work.

the Salvation Army people call such work their social work.

In New York the salvage work is new. It is to assist the unemployed. The army has the city marked out by streets or wards, and to men who are willing to earn a living will be furnished, pushcarts and they will be sent from house to house collection bound and urged to assist by giving waste articles to the men. The cartmen will bring the goods they gather to headquarters, and will be cartmen will bring the goods they gather to headquarters, and will be principle that they have secured. Fair wages can be earned in this way by a great many persons.

A salvage brigade is to be organized at once in all the large cities. This involves a great deal of hard work, but the officers who have seen the plan carried to perfection in London and other European cities and the land the large cities. This involves a great deal of hard work, but the officers who have seen the plan carried to perfection in London and other European cities.

The Best Way To Cure Disease is to establish health. Pure, rich blood and provided the plan carried to perfection in London and other European cities as school trustees—a complete ticket be that when the land there was cleared to be however, that the council he path and the council be timber instead of being burned in the usual manner. It was said the timber instead of being burned in the usual manner. Lat when the land there was cleared to be however, that the council had gone far enough in emphasising the composed of both the choice of the Colons of the Colons of the corporation and sent to the city. Some of the aldermen were said to have sent as mark of their sympathy with the content of the council board. At the same time had for one been of the council board. At the family have not, "I certainly have not," replied His had any knowledge of the transaction.

The Best Way To Cure be added to the

when I get through with it, as far as you are concerned," was Ald. Partridge's rejoinder and his parting shoe.

ALD. CAMERON disapproved of the introduction of this side issue in connection with the business in hand. He moved the reference of the communication to the city engineer for report, at the same time commenting that there seemed to be a grave difficulty in the matter complained of. A number of steady, reliable men were very "hard-up" at present, and believed themselves discriminated against. In the allot-

westerday morning. She carries a full cargo, including nearly 80 tons of salmon, flour and hops from Saanich. Her passengers who embarked here were William Carter, wife and son, who are going to Honolulu; H. E. Keisay, of Seattle, who is also going to Honolulu; J. Seigohn, for Sydner; Alex. Graham, of San Francisco, who is bound to Suva; and Mrs. C. James and W. H. Watts, who are going to Sydney.

Candidates for the city remarked the Mayor, with a bland semployed. street to a News reporter to-day, "and I will very gladly tell you what you want to know. About three years ago my husband was very ill, and I had frequently occasion to rise in the night and go for a doctor or to the druggist. In my hurry I often neglected to properly cloth myself, and contracted several heavy colds, which turned at last to chronic catarrh. I tried doctors, who helped me, but did not cure me, and several special catarth medicines. I was relieved but not cured. I was suffering intolerably when Mr. Shuff recommended me to try CHASE'S CATARRH CURE, and it began at once to help, and in about two months had entirely cured me. I cannot speak too highly of this remarkable medicine, and cheerfully recommend it to all sufferers from catarrh." The blower included is a great help to sufferers.
