

## TWO NERVOUS WOMEN

Made Well By Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headaches, dizziness, noise in my ears, fluid, nervous, restless feelings, and sleeplessness. I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound so I threw away the medicines the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. Your medicine has proved itself able to do all you say it will and I have recommended it in every household I have visited."—Mrs. MARY JOHNSTON, 210 Siegel Street, Philadelphia, Pa.

Another Bad Case. Ephrata, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headaches and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I then took I could hardly stand long enough to eat my dishes. Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and my face looks healthy now."—Mrs. J. W. HORNBERGER, R. No. 3, Ephrata, Pa.

## WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the medicinal food and building tonic, free from any harmful drugs. Try it.

### "ABEGWEIT"

The Indian "Abegweit"—cradled on the waves; the early French explorer's "La baffe et belle Ile"—low and beautiful Island; and the Islander's "Garden of the Gulf" are sobriquets as eloquently descriptive of Prince Edward Island today as when they were first bestowed on this province surrounded by the sea.

Situated in the Gulf of St. Lawrence, Prince Edward Island is separated from the shores of New Brunswick and Nova Scotia by the Straits of Northumberland. From tip to tip, the island is one hundred and thirty miles, while the width varies from two to thirty miles. The surface is gently undulating. There are no mountains and no forests to speak of, but the lack of forest does not mean that the country is bare; for copses and clumps of trees are visible on every hand, giving a charming variety to the agricultural scene, and wild bits of woodland are still to be found.

The "Island" as its people love to call it—for where else in all America can be found its duplicate—is in summer a garden of perfect beauty fanned by cooling breezes from the Ocean, with music after miles of sandy beaches. Invading the land and moulding the red cliffs into fantastic shapes are the ever restless sea. Everywhere are verdant fields, prosperous farms and comfortable homes. Arms of the sea cut into the land in all directions, forming bays and peninsulas of surpassing loveliness.

The north shore of the Island has a character of its own. For many miles high sand-dunes act as a barrier to the sea. This combined with an unbroken beach of hard white sand permits of surf bathing that would be hard to equal elsewhere.

Numberless trout streams furnish sport for the angler, and deep sea fishing is easily obtainable. In season brant, wild geese, snipe, woodcock and other game birds are plentiful, and good bags are not difficult to secure.

The summer climate is perfect. Singularly free from extremes, the days are never hot and the nights are always cool; while the glorious fresh air, excellent food, and a good appetite induced by the breath of the sea, are factors in making a happy frame of mind and a comfortable bodily state.

The Island has 274 miles of railway owned and operated by the Canadian Government under the name of Prince Edward Island Railway. The high-ways have a reputation for general excellence and a driving tour of the island is one of the most pleasant experiences and an enjoyable means of thoroughly appreciating its many attractions.

Accommodation for summer visitors is provided by numerous hotels, bungalows, private homes, and farm houses at surprisingly reasonable rates. The hospitality of the Islanders is proverbial. There is an absence of social
