Their life consists in their mystery. I have no restrict. Two composition of my preparations is liad open to all men, and all who are competent to judge on the subject, freely acknowlidge their convictions of their intrinsic merits. The Cherry Peetron! was promotineed by scientific men to be a wondeful medicine before its effects were known. Many em-tion Perspicians have declared the same thing of my Fills, and even more confidentity, and are well-hand to certify what their anticipations were more than arealised by their bacets upon trial. They persue by their bacets upon trial. They persue by their powerfail influence on the internal viscers to purify the blood and stimulate it into healthy action - remove the obstructions of the stomach, howeds, liver, and other organs of the body, restoring their inregular action to health, and by correcting wherever they exist such derange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take, and been gurely vegetable, no harm can arise from their use in any quantity. For minute directions, see they wrapper on the Eox.
