# Canadian Engineer

SUBSCRIPTION RATE—\$3 a year; \$1.75 six months; \$1 three months; postpaid anywhere.

*Issued in the interests of Canadian Civil Engineers & Contractors*

This field includes chiefly the men who are engaged in municipal, railroad, hydraulic, structural, highway and consulting engineering surveying; mine-management; contracting; and waterworks superintendence.

Toronto, July 19, 1917.

## CONTENTS

Vol. 33—No. 3.

### Loop Station and One Right of Way at Hamilton ..... 43

ILLUSTRATED.—Is plan advocated by the consulting engineers as solution of railway problem in that city. Entrances for C.N.R. and Hydro Radials. Present situation at Hamilton said to be responsible for much of freight blockade near frontier. Abstract of report by W. F. TYE, M.Can. Soc.C.E., and J. E. N. CAUCHON, A.M.Can.Soc. C.E.

*The Canadian Engineer*, July 19, 1917..6½ cols.

### Montreal Aqueduct Controversy ..... 46

Ratepaying engineers report questions put verbally to Board of Inquiry by the city controllers, and the answers given by Consulting Engineers Vautelet, St. Laurent and McRae.

*The Canadian Engineer*, July 19, 1917..1½ cols.

### Letter to the Editor ..... 47

"The Engineer: A Monk is He!" By R. O. WYNNE-ROBERTS, M.Can.Soc.C.E.

*The Canadian Engineer*, July 19, 1917..1½ cols.

### Pitting of Water Turbines ..... 48

Prof. S. J. Zowski, of the University of Michigan, outlines some rules whereby the designer can reduce pitting to the minimum.

*The Canadian Engineer*, July 19, 1917....¾ col.

### Develop Water Powers to Save Coal .... 48

Every horse-power developed hydraulically means the release of coal for work that cannot be performed so advantageously by any other medium. By LEO. G. DENIS, B.SC.

*The Canadian Engineer*, July 19, 1917....½ col.

### Design of a Railway Tank ..... 49

ILLUSTRATED.—Some of the interesting problems involved in the design of a modern railway tank that are not found in any other structure. From "house organ" of the Chicago Bridge & Iron Works.

*The Canadian Engineer*, July 19, 1917..2¼ cols.

### Ontario Opposes Road Assoc. Charter ... 50

Provincial officials believe that the Dominion Good Roads Association should incorporate with provincial rather than Dominion charter.

*The Canadian Engineer*, July 19, 1917..1¼ col.

### Flushing: Its Place in the Street Cleaning Field ..... 51

ILLUSTRATED.—Basis for comparing results. Elements affecting costs. Standards of quality needed. Defective pavements increase cost of cleaning. By RAYMOND W. PARLIN, deputy commissioner of street cleaning of New York (written while Mr. Parlin was engineer with the New York Bureau of Municipal Research).

*The Canadian Engineer*, July 19, 1917..5¼ cols.

### Cement Joints for Cast-Iron Water Mains 54

ILLUSTRATED.—Discussion by members of the American Society of Civil Engineers of paper on this subject by C. H. SHAW, which appeared in *The Canadian Engineer* for May 24th, 1917.

*The Canadian Engineer*, July 19, 1917....8 cols.

### Reinforced Concrete for Ships ..... 58

The first application of concrete to ship building antedates construction of steel ships, says "The London Times."

*The Canadian Engineer*, July 19, 1917..3¾ cols.
