PUBLISHED MONTHLY BY

THOMAS BENGOUGH,

29 KING STREET, WEST, . . . TORONTO.

At 25 Cents per Year.

PLATFORM—PURPOSE—PLAN.

THE ATHENEUM is the outcome of an idea which has for years impressed us as desirable and feasible. The idea was that there should be published, at a popular price, a popular journal which could discuss educational matters from the standpoint of practical business life. By education is meant not simply book learning, but rather the practical training of the mind to think, the hand to manipulate, the ear to discern, and the eye to observe. Admirable is our school system; intelligent and progressive are our teachers; yet we believe that the rising generation are not learning sufficiently the practical things of life, and that there is room for great improvement in teaching them the studies now on the curriculum. We shall advocate the introduction into our schools and colleges of the practical and progressive arts—extending the Kindergarten idea beyond the infant grades into those in which boys and girls, young men and women, are being taught. We believe that school instruction should be made more attractive; we know it can be. We believe it should be made more serviceable; we are convinced that it will be when teachers and parents realize the need of a reform and know how to accomplish it. We propose not only to impress the need for a reform, but to show how it can be accomplished.

THE ATHENEUM will not contain dry-

as-dust theoretical dissertations on abstruse questions; it will treat, in a popular style, popular subjects,—its object being to popularize time-and-labor-saving arts; to improve mental methods; to make education possible and delightful; to develop mental activity and invention. All this it will do at a popular price.

THE ATHENEUM is not for any class except the progressive people—and these are to be found in every grade and occupation in life.

No pent-up school-room shall confine our powers—
The whole unbounded universe is ours.

There is no one who will not be benefited by reading THE ATHENEUM. It will bring to brain-workers lightness and inspiration; it will carry to the mechanic and toiler encouragement and enthusiasm. Progressive people everywhere will welcome it as a long-needed help in removing hindrances and hastening a better day.

THE ATHENEUM will be sent, post free, to any address in Canada, United States or England for a whole year for only 25 cents. Any one sending four names, with a dollar, will receive a free copy for a year. Friends who have not time to canvas will oblige the publisher by sending the names and addresses of their friends who might become subscribers, and free sample copies will be forwarded.

WANTED—AN EDUCATIONAL COMMISSION.

Not long ago the Ontario Government appointed an Agricultural Commission, instructed to collect information from farmers and fruit growers, with a view to the improvement of the agricultural and horticultural interests of the Province. The Commissioners spent a large amount of time and money "interviewing" prominent and progressive culturists in various parts of the Province, and the information thus gleaned was summarized and systematized, and published in a series of "blue books."
