Big Apple Crop.

At the annual meeting of the National Apple Shippers' Association of the United States, at Chicago, with delegates representing all apple-growing states from Maine to Colorado, it was announced that the July report of the department of agriculture indicating a short apple crop is entirely incorrect and misleading. Information in their possession shows that in New England the crop is one of reasonable proportions, and in New York, while light in some districts, the aggregate exceeds last year both in quantity and quality. West of the Allegheny Mountains the crop is declared the largest grown in any recent year, and much larger and of better quality than that of last year, the only exception being in limited districts in Ohio, Michigan, Wisconsin and Minnesota.

The steamship *Warramoo*, of the Canada-Australian line was badly damaged by striking on the reef at Bonilla Point, Vancouver Island. It will cost many thousand dollars to repair her.
