

# WHEELER'S TISSUE PHOSPHATES.

Bone-Calcium Phosphate  $\text{Ca}_2 \text{P.O.}_4$ , Sodium Phosphate  $\text{Na}_2 \text{H.P.O.}_4$ , Ferrous Phosphate  $\text{Fe}_2 \text{P.O.}_4$ , Trihydrogen Phosphate  $\text{H}_3 \text{P.O.}_4$ .

**Wheeler's Compound Elixir of Phosphates and Calisaya.** A Nerve Food and Nutritive Tonic, for the treatment of Consumption, Bronchitis, Scrofula, and all forms of Nervous Debility.

The Lactophosphate prepared from the formula of Prof. Dusart, of the University of Paris, combines with a superior Penmartin Sherry Wine and Aromatics in an agreeable cordial easily assimilable and acceptable to the most irritable stomachs.

Phosphorus, the oxydizing element of the Nerve Centres for the generation of Nerve Force; Lime Phosphate, an agent of Cell Development and Nutrition; Soda Phosphate, an excitant of Functional Activity of Liver and Pancreas, and Corrective of Acid Fermentation in the Alimentary Canal; Iron the Oxydizing Constituent of the Blood for the Generation of Heat and Motion; Phosphoric Acid, Tonic in Sexual Debility; Alkaloids of Calisaya, Anti-Malarial and Febrifuge; Extract of Wild Sherry, uniting with tonic power the property of calming Irritation and Diminishing Nervous Excitement.

**The Superiority of the Elixir** consists in uniting with the Phosphates the special properties of the Cinchona and Prunus, of Subduing Fever and Allaying Irritation of the mucous membrane of the Alimentary Canal, which adapts it to the successful treatment of Stomach Derangements and all diseases of Faulty Nutrition, the outcome of Indigestion, Mal-assimilation of Food, and failure of supply of these essential elements of Nerve Force and Tissue Repair.

The special indication of this combination of Phosphates in Spinal Affections, Caries, Necrosis, Ununited Fractures, Marasmus, Poorly Developed Children, Retarded Dentition, Alcohol, Opium, Tobacco Habits, Gestation and Lactation to promote Development, etc., and as a physiological restorative in Sexual Debility, and all used up conditions of the Nervous system should receive the careful attention of therapeutists.

There is no strychnia in this preparation, but when indicated, the Liquor Strychnie of the United States Dispensatory may be added, each fluid drachm of this solution to a pound bottle of the Elixir making the 6th of a grain to a half fluid ounce, an ordinary dose, a combination of a wide range of usefulness.

**DOSE.**—For an adult, one table-spoonful three times a day, after eating; from seven to 12 years of age, one dessert-spoonful; from two to seven, one teaspoonful. For infants, from five to twenty drops, according to age.

**Prepared at the Chemical Laboratory of T. B. WHEELER, M. D., Montreal, D. C.**

Put up in pound bottles and sold by all Druggists for One Dollar.

## HALIFAX MEDICAL COLLEGE.

THE TWENTY-SECOND SESSION of the Halifax Medical College will be opened on **MONDAY, NOVEMBER 3rd, 1890.**

The regular order of lectures will begin on that day and will be continued during the six months following.

The College building erected for the special purpose of medical teaching is in every way fitted for the object in view. It is situated in an open, airy locality, in close proximity to the Victoria General Hospital and the new City Alms House. The lecture room, dissecting room, etc., are well lighted, warmed and ventilated, and are fitted with appliances for imparting knowledge in the different subjects of medical education.

Certificates of attendance on the various courses of lectures are accepted as qualifying candidates for examination before the licensing bodies of Great Britain and Ireland, and the Medical Schools and Universities in Canada and the United States.

### DRUGGISTS' ASSISTANTS AND PHARMACY STUDENTS

generally, will be interested to know that the College has decided to revive the curriculum formerly established in Pharmacy, and by co-operation with the Pharmaceutical Society, all endeavours will be made to provide a course thoroughly satisfactory in this department.

## BELLEVUE HOSPITAL MEDICAL COLLEGE,

CITY OF NEW YORK.

### SESSIONS OF 1890-91.

The REGULAR SESSION begins on Wednesday, September 24th, 1890, and ends about the middle of March, 1891. During this session, in addition to the regular didactic lectures, two or three hours are daily allotted to clinical instruction. Attendance upon at least two regular courses of lectures is required for graduation.

The SPRING SESSION consists of recitations, clinical lectures and exercises, and didactic lectures on special subjects. This session begins about the middle of March and continues until the middle of June. During this Session, daily recitations in all the departments are held by a corps of Examiners appointed by the Faculty.

The CARNEGIE LABORATORY is open during the collegiate year, for instruction in microscopical examinations of urine, practical demonstrations in medical and surgical pathology, and lessons in normal histology and in pathology, including bacteriology.

For the annual Circular and Catalogue, giving requirements for graduation and other information, address Prof. AUSTIN FLINT, Secretary, Bellevue Hospital Medical College, foot of East 26th Street, New York City.
