

Easily flattened between thumb and finger.

PARKE, DAVIS & CO.'S

## Soft-Mass Pills

are worthy  
of your specification.

These pills consist of a soft interior mass, enveloped in a thin coating of chocolate. They may be flattened between the thumb and finger as one might flatten a piece of putty.

Our **Soft-Mass Pills** dissolve readily in the digestive tract. They keep well and do not lose strength under proper conditions of storage. They are attractive in appearance. They are strictly true to label.

In the soft-mass process no heat is applied, hence such volatile substances as camphor, the valerianates, the essential oils, etc., are preserved in full measure.

### THE LIST TO DATE.

- |   |   |
|---|---|
| No. 969—Quinine Sulphate, 2 grs. (chocolate-coated).                              | No. 984—Aloin, Strychnine and Belladonna, $\frac{1}{2}$ "A" (chocolate-coated). |
