

the criminal law affords any punishment for similar conduct; to consult counsel, if necessary, for the foregoing purposes, and to report the result of their deliberations to the College."—*Carried.*

Dr. F. W. Campbell moved, seconded by Dr. Gibson, "That the subject with regard to the legality of the fourth year of medical study being passed with a practitioner, after he has passed all the examinations for his degree, introduced by Dr. F. W. Campbell, at the morning sitting of the Board, be referred to one school representative, from the medical schools in Montreal, and the two outside governors for the city of Montreal."—*Carried.*

Moved by Dr. Lanctot, seconded by Dr. Marsden, "That the governors of the College of Physicians and Surgeons be notified by post card of the time of holding the semi-annual meeting."—*Carried.*

A vote of thanks to the Laval Faculty of Medicine (Montreal), for the use of their rooms, was unanimously passed.

THE NEW YORK SANITARY ENGINEER.

The above is the name of a paper published in New York, and although but in its fourth year it is now acknowledged to be the leading Sanitary authority on this Continent. It has labored for some time to get a food and drug adulteration bill through the Legislature of New York State, and success has at last crowned its efforts. We congratulate our contemporary on this practical evidence of its being "a power" in the Legislative Halls of the Empire State.

LACTOPEPTINE.

This is a remedy which is constantly gaining in favor with the profession. Our own experience with it has been most satisfactory. In the summer complaint of children we have used it with excellent results. Indeed we have found it very valuable as a preventative of this affection. We frequently order it, with this object in view, and we believe that our expectations have been realized.

"NANA'S DAUGHTER"

Is destined to make a deep sensation among novel readers. It is a sequel to ZOLA's famous "NANA," but is in many respects superior to it. Intense and continuous action characterizes it

throughout, and every page is of absorbing interest, while there is no lack of refinement and fine feeling. The aim is to show that evil instincts are not hereditary. All the characters are vividly sketched, the plot is of unusual strength and merit, and the style of composition is vigorous and concise. The translation of "NANA'S DAUGHTER" is by John Stirling, who has done his work conscientiously well. It is published in a large square duodecimo volume, paper cover, price 75 cents, and will be found for sale by all Booksellers and News Agents, and on all Railroad Trains, or copies of it will be sent to any one, to any place, at once, on remitting 75 cents in a letter to the Publishers, T. B. Peterson & Brothers, Philadelphia, Pa.

WYETH'S VINUM CIBI.

Owing to the type of debility which characterizes the great majority of the diseases now prevailing, the tonics or strength-giving remedies have assumed an increasing importance of late years. Much attention has been paid to preparations of this class, and we desire to bring to the notice of the Medical Profession, Wyeth's Wine of Beef (Vinum Cibi). In each tablespoonful of this preparation there is the essence of one ounce of beef, in solution in sherry wine. It is therefore a refreshing stimulant, the effect of which is not merely to quicken the circulation and impart a temporary excitement, but also to supply actual strength.

THE MACKINNON PEN OR FLUID PENCIL.

We direct attention to the advertisement of this pen. We have now been using one for the past six months, and consider it a most valuable invention for medical men. The profession know how difficult it is to get good ink in the majority of houses with which to write prescriptions, and, if the ink is generally bad, the pens are nearly always execrable. Pencils are unsatisfactory, for prescription-writing, and it soon fades and often gets illegible. The Mackinnon pen, when once charged with ink, will last a long time without replenishing. It is always ready for use, and not being as large as a fair-sized pencil it can with perfect ease be carried in the vest pocket.
