A new pavement, which is finding favor in Germany, is formed by first laying a bed of concrete from four to six inches thick, over which is laid a mixture of a-phalt and powdered granite to a depth of about half an inch, and then broken granite in cubes of one to two inches, the joints being filled also with a mixture of asphalt and powdered granite.

The very difficult feat of laying the main for the waterworks across the Narrows at Vancouver, B C., was accomplished a few days ago. The pipe was of rolled steel of lengths of 12 or 14 feet. The part of the pipe which was submerged was put together into one long piece of 600 ft. Cables were attached to the main and stretched across the water, and by means of two pile drivers the heavy length of pipe was successfully moved into place within two hours.

TENDERS

Will be received up to 5 p.m. July 8th, for the different trades required in the erection of a dwelling on Heward Ave

EDWARDS & WEBSTER, Architects, 18 Victoria Street,

TO CONTRACTORS.

Tenders will be received until noon on FRIDAY, THE 4711 JULY, for the completion of the Mason, Brick, Cut Stone, etc., work required in connection with the erection of Head Office Buildings for the FREEHOLD LOAN & SAVINGS CO. Contractors, when tendering, will take into consideration the amount of work that has already been executed and tender accordingly. Plans and specifications can be seen, and all necessary information can be had at my offices.

E. J. LENNON, Architect,

Cor. King and Yonge Streets.

TO CONTRACTORS.

Sealed tenders will be received by the undersigned until Saturday, the 12th proximo, for the Mason, Bricklayer, Carpenter, Roofer, Plasterer, Painter and Glazier, Ironwork and Elevators of

Medical Wing of the Royal Victoria Hospital.
