TO SUBSORIBERS.

We do not think we are asking too much in requesting very one of our subscribers to look at the little RED LADEL on his paper, which will tell him how his account stands with us. Should you find that the time paid for has expired, renew at once, by remitting in REGISTERED LETTER, AT OUR RISK. Let no one delay because he may suppose the amount of his indebtedness to be small. Thousands of subscription accounts over the country aggregate a large amount, and it is only by the prompt payment of these small same that the publisher is placed in a position to meet the formidable bills tor paper, wages, rent, ac. During the next two months we have unusually heavy demands to meet; and we look to our friends for a cheerful response to this somewhat pressing invitation to PAY UP !

TWO MONTHS FPEE!

In order to secure large additions to our subscription list before the 1st of January next, we have determined to offer the paper for FOURTEEN MONTHS at the regular yearly subscription price of \$2, payable in advance. May we ask our friends to aid us in this connection! There is not a reader of the BRITISH AMERICAN PRESBYTERIAN but could place the paper in the hands of a neighbour. Indeed, many could secure several new subscribers, if they but made the effort. But even supposing each of our subscribers forwarded only one New Name, our list would at once be doubled, and THE PRES-BYTERIAN, for a long time struggling for a mere existence, at one bound would take a proud position among the journals of the Dominion.

The object is well worth the effort; and we ask the hearty co operation of ministers, elders and others, in the work of extending the circulation of THE PRESBYTERIAN in every congregation throughout the country. don't put off the work. Begin as soon as possible, and continue until every family has been approached.

ELECTRICITY! THOMAS' EXCRESION EC-LECTRIC OIL!-WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine over made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cent's worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical: J. Collard of Sparta, Ontario, writes, "Send me 6 doz. Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now; its cures are truly wonderful.' 'Vm. Maguire, of Franklin, writes, "I have sold all the agent left, it acts like a charm-it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 doz. Thomas' Eclectic Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it."
J. Bedford, Thamesville, writes—"Send at once a further supply-of Eclectric Oil, I have only 1 bottle left. I never saw any-thing sell so well and give such general satisfaction." J. Thompson, Woodward, writes—"Send me some more Eclectric Oil. Whites—"Send me some more Eelectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton. P. Q., writes—"The Eelectric Oil is getting a great reputation hore, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. A REPRESENTATIVE & CHAMPION OF AMERICAN ART TASTE

Prospectus for 1875-Eighth Year.

THE ALDINE,

The ART JOURNAL, of America ISSUED MONTHLY.

"A Magnificent Conception Wonderfully carried out."

The necessity of a popular medium for the representation of the productions of our great artists has always been recognized, and many attempts have been imade to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE 47 DINE, while issued with all the regularity, has none of the temperary or timely interest characteristic of ordinary periodicals. It is an elegant miscellaney of pure, light and graceful literature; and a collection of pictures, the arrest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapners, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely withou competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for in times its cost, and then, there is the chromo, besides!

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not conduct at tasto, one that will discriminate only on grounds of intrinsic meritan. While THE ALDINE is a strictly American institution, it does not conduct a trasto, one that will discriminate only on grounds of intrinsic meritan. While THE ALDINE is a strictly American institution, it does not conduct the art tasto, one that will discriminate only on grounds of intrinsic meritan. While THE ALDINE

more appropriate to the satisfactory treatment of details than can be afforded by any inforor page. The judicious interspersion of landscape, marine, figure, and animal subjects, sustain an unabated interest, impossible where the scope of the work content the arrist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of theartistic features, with only such technical disquisitions as do not interfere with the popular interest of the work

PILLS, LIVER

Hepatitis or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE. Symptoms of a Diseased Liver. DAIN in the right side, under the edge

of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is nerally a considerable loss of memory, accompanied with a painful sensation ... having left undone something which ought to have been done. A slight, dry court is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. veral of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the VER to have been extensively deranged.

AGUE AND FEVER.

DR. C. M'LANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by overybody as a cathartic, nor was over any before so universally required by overybody as a cathartic, nor was over any before so universally required by overybody as a cathartic, nor was over any before so universally adopted into uso, in overy country-and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more roc link and far more effect that it mover fails through any fault or neglectof fits composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any delectious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

The, operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, rostoring their "regular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigention, Listlemants, Sick Headache, Januilly taken for each case, to stimulate the stomach and restore its healthy tone and action.

For Every and Thouse of Appetite, they should be taken in defence of Green Sickiness, Billions Colic and Billions Pewers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

its natural Vitality and Color. A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or saving off, and consequently prevent baldness. Free from those deleter in substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
