ANOTHER CASE OF BRONCHITIS CURED.
Butdonwater, N.S., March 2nd, 1872.

Mn James I. Petraows.

Dear Sin: White in Windsor on a visit in December has, I fell in with an old friend—Capt, H. Colli-and finding him looking hearty and robust, was led to enquire what had produced the great change, for when I Lateau him two years previous he was a mere skeleton. He infermed me that your very valuable Syrup of Hypophosphites had effected a perfect cure. He persuaded me to try the Syrup for Bronchitis, from which I had suffered much during several years. I purchased one dozen of this Syrup, and have used only three bottles, and my bealth is better than it has been for years. Not requiring the balance of the dozen, I sold it to different parties, and now there is a general demand for it from all parts. Respectfully yours, W. J. NELSON.

Capt. H. Coffil is the person whe was cured of Consumption in 1866 by Fellows Compound Syrup of Hypophosphites, whose letter was published some time ago.

PROSPECTUS FOR 1872.

Proportor.

Fifth Year.

REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

THE ALDINE:

AN ILLUSTRATED MONTHLY JOURNAL claimed to be the

HANDSOMERT PAPER IN THE WORLD.

"Give my love to the artist workmen of THE ALDINE who are striving to make their profession worthy of ulmination for beauty, as it has always been for usofulnoss."—Henry Ward Beecher.

THE ALDINE, while issued with all the regularity, has none of the temperary or timely interest characteristic of ordinary periodiculs. It is an elegant inteschance of pure, light, and graceful literature and a collection of pictures, the arrest specimens, of artistic skil, in black and white. Although each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound no at the close of the year. While other publications may claim superior cheapness are compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unspreached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

New Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartly support any sincere effort to elevate the tone and standing of illustrated pupilications. That so many weekly wicked sheets exist and thrive is no evidence that there is no market for anything better-indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so vast, and of such varied taste, a publisher can choose his patrone, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of this department, the publishers would beg to amonuce during the conding year, specimens from the following entinent American Artists.

W. T. RICHAIDS,

GRAIV. PERKINS.

W. T. RICHARDS, WM. HART, WM. HART, GEORGE SMILEY, AUG. WILL, JAMES SMILEY, FRANK BEARD, J. HOWS.

GRANY. PERKINS, F. O. C. DARLEY, VICTOR NEHLIO, WM. H. WHICOX, JAMES H. BEARD, R. E. PIGUET, PAUL, DIXON,

The pictures are being reproduced without regard to expense by the very heat engravers in the coun-try, and will hear the very severaterifical compari-son with the best foreign work, it being the deter-mination of the publishers that THE ALDINE; shall be a successful vindication of American taste in competition with any existing publication in the world.

LITERARY DEPARTMENT.

Whole so much attention is paid to illustration and get up of the work, to much dependence on appearances may very naturally be feared. To aiditicipate such misgivings, is only necessary to state that the editorial management of THE ALDISE has been intrusted to Mr. Richard Henry Stoddart, who is received assurances of assistance from a host of the most popular writers and poots of the country.

THE VOLUME FOR 1872,

will contain nearly 300 pages, and about 250, the engravings. Commencing with the number for January, every third number will contain a beautifully tinted picture on plate paper, inserted as a frontispieco.

The Christman number for 1872, will be a splendid volume in Uself, containing fifty engravings, stone in that and, although retailed at \$1 will be sent without extra charge to all yearly subscribers

A Chromo to every Subscriber

was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and repeated, at great expense, the beautiful oil panting by Seis, entitled "Dame Nature's School." The chrono is 11 x 13 inches, and is an exact fac-simile, in size and appearance, of the original picture. No American shrone, which will at all compare with it, has yet been of forced at rotal for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.
