

of the day—Accompanying his application with the necessary fees, &c., for the officers of "Ulster King-at-Arms"—to have his genealogy, together with the records, &c. of his family, duly authenticated, collected, and recorded with all necessary verifications, in order that his children and their posterity in France might have all-sufficient proof of the proud fact that they were Irish. All this was accordingly done, as may be seen in the records in Birmingham Tower, Dublin Castle, counter-signed by the then Lord Lieutenant of Ireland, and the various other requisite signatures. In those records he is described as of "the noble family, paternally of MacMahon of Clondrales (in-Clare) and maternally of the noble family of the Marshall Duke of Magenta.

The Count's genealogy commences in the middle of the fifteenth century, and traces him through of the generations as follows:—Terence MacMahon, proprietor of Clondrales, married Helena, daughter Maurice Fitzgerald, Earl of Kildare, died 1473, and was interred in the Monastery of Ashelin, in Munster. He was succeeded by his son Donatus MacMahon, who married Honor O'Brien of the noble family of Thomond; and his son Terence MacMahon, Esq., married Joanna, daughter of John MacNamara, Esq., of Dohaghtin, commonly styled "MacNamara Reagh," and had a son Bernard MacMahon, Esq., whose wife was Margarita, daughter of Donatus O'Brien of Daugh. Moriagh MacMahon, son of Bernard, married Elinora, daughter of William O'Nolan of Emri, colonel of a regiment of horse, in the army of Charles I, and was father of Maurice MacMahon, Esq., whose wife Helena, was daughter of Maurice Fitzgerald, Esq., of Ballinacorney, Knight of Glen. Moriagh MacMahon, son of Maurice, married Helena, daughter of Emanuel MacSheehy, Esq., of Ballylunan, and was father of the above-named Patrick MacMahon, who married Margarita, daughter of John O'Sullivan, Esq., mother of John, first Count de Equilly.

The descent of the Count MacMahon, maternally, through the O'Sullivans is as follows:—Mortogh O'Sullivan, Esq., of Bantry, in the county of Cork, married Maryann, daughter of James Lord Desmond, and dying was interred, 1541, in the Convent of Friars Minor, Cork. His son, John O'Sullivan, of Bantry, married Joanna, daughter of Gerald de Courcy, Baron of Kinsale, and died 1578, leaving Daniel O'Sullivan, Esq., his son, who married Anna, daughter of Christopher O'Driscoll, of Baltimore, in the county Cork, Esq., and died at Madrid, leaving his son John O'Sullivan, of Bantry, Esq., who married Margaret, daughter of James O'Donovan, of Roscarbery, Esq., Bartholomew O'Sullivan, son of John, was Colonel in the army of James II. at the siege of Limerick, and married Helena, daughter of Thomas Fitzmaurice, Baron of Kerry, by whom he had Major John O'Sullivan of Bantry, who married Honoria, daughter of Robert MacCarthy, of "Castro Leonino, in the County of Cork, Esq., grandson of Daniel MacCarthy, Lord of Gloucra, and Margaret, his wife, daughter of Donogh, Lord Desmond, and died 1731. Their daughter was Margarita, who married Patrick MacMahon, Esq., of Torridole.

Through his grandmother, Helena, daughter of Emanuel MacSheehy, John MacMahon, Count de Equilly, was descended from the Fitzgibbons of Ballyninch, the Laeys of Ballingarry, the Purcells of Cragh, the Lyaschts of Shanagan, the O'Callaghans, MacNamaras of Cragh, the MacMahons of Corribol, and through the MacCartys and Fitzgeralds, with all the leading families of Munster, of native and Anglo-Norman descent—*ipsi Hibernis Hiberniores*. Said we not truly a few weeks since that Marshal MacMahon was "every inch an Irishman." There is scarcely a noble family of Catholic and Irish Ireland whose blood does not mingle in the hero's veins; there is not a corner of the island in which there will not be pride of family besides pride of race and country, when this chronicle of his ancestry is read to-day. But well may Clare exult and Bantry rejoice. Around the shores of that matchless bay still throng the kinsmen and clansmen of "the noble House of Beare," watching with pride and reverence the sacred wounds of Donogh, where Daniel O'Sullivan, Prince of Beare, made his last stand for Irish rule. When young Donal fell, sword in hand, in the breach at Belgrade, and Philip, illustrious in literature as in war, was laid in his Spanish tomb, the name seemed to have disappeared on the Continent. We find in the above, however, that one of the Bantry family commanded and fought at the siege of Limerick; and those who have read the narrative of the adventures and escape of Prince Charles Edward, will recognise in the devoted and faithful "O'Sullivan" the companion of all his sufferings and privations, a relative of the noble-hearted wife of the first exiled MacMahon.

"Hail to our Celtic brethren!" sang the Poet of the Nation: Ireland to-day sends her greeting to the victor of Magenta; may his future be as glorious as his ancestry is illustrious.

UNITED STATES.

ACCIDENT TO THE BISHOP OF ALBANY.—As Bishop McClosky and two Priests in company with him were on their way to Port Kent, on Monday morning, the 25th ult., one of the forward wheels of the carriage in which they were riding came off, and the horses becoming frightened, the carriage was upset and smashed to pieces. The Bishop and his friends fortunately escaped with a few slight scratches. Mr. Tufts, stage proprietor, was driving, and he says it is most astonishing that in such a smash up all should have escaped without material injury. The first that Mr. Tufts saw of his passengers, after being thrown himself from his seat, was the Bishop and his friends extricating themselves from the wreck of the carriage, that lay bottom side up in the ditch.—*Alb. Argus 1st inst.*

CONVERTED CHURCHES.—The Catholics of Burlington, Iowa, and Beaver Dam, Wisconsin, have purchased two Presbyterian churches in those towns, and are making the necessary improvements and alterations in them to fit them for Catholic worship.—*N. Orleans Standard.*

MORTALITY OF NEW YORK CITY.—According to the city inspector's report there were 616 deaths in the city during the past week, an increase of 2 as compared with the mortality of the week previous, and 82 less than occurred in the corresponding week of last year. Of the whole number 84 were men, 74 women, 261 boys, and 197 girls. There were 103 deaths of diseases of the brain and nerves, 1 of generative organs, 13 of the heart and blood vessels, 106 of the lungs and throat, 3 of old age, 29 of eruptive fevers and skin diseases, 40 stillborn, and premature births, 268 of diseases of the stomach and other digestive organs, 41 uncertain complaints, 3 of the secret organs, and 10 from violent causes.

A REASONABLE WOMAN.—The Chicago, Ill., Tribune says, a day or two since a lady of unusual amplitude of crinoline got into one of the street railroad cars. She spread her skirts over the adjacent seats, to the horror of the conductor, who calculated on a rush of passengers immediately. After arranging matters and things, the lady called the conductor and said: "How many seats do you think I occupy?" He was an unmarried man, and not caring about exaggerating the matter, replied: "Three seats." With that the lady handed over fifteen cents, saying: "There's the pay for three seats—now don't let me be disturbed." And she was not.

AGRICULTURAL.—A statement is made in the Springfield Journal, which, if true, possesses an importance to the farmers of the North that is almost incalculable. It says that Dr. Goodman, an old farmer in that county, has corn planted six weeks since, which is now in tassel. It is of the common variety, soaked in chloride of lime eight hours. The corn planted at the same time, not subject to this process, is hardly a foot high. A pound of chloride of lime is sufficient to plant forty acres of corn.

Mr. James Buchanan has written and published a letter to say that he will positively decline again to be a candidate for President of the United States.

BLOODY AFFAIR AT WATERBURY, CONN.—A bloody affair occurred at Waterbury on Saturday night, about twelve o'clock, at a German house called Meyer's Hotel, in Scovill street. It appears that about midnight on Saturday John Riggs entered the bar-room of Meyer's Hotel, and soon began abusing a boy who was present. He became so brutal that James Shannon, who was sitting in the room, finally interfered to protect the boy, and some loud talking followed between him and Riggs. The landlord finally turned Riggs out of the house. He soon returned, armed with a dirk, and meeting Shannon at the door, stabbed him four times, inflicting wounds which will probably cause his death. So rapidly did this transpire, that Shannon himself did not at the moment know that he was injured, and none of those present perceived that anything serious had taken place until Shannon walked to a friend in the back part of the room, and requested him to loosen his belt, declaring that he had been stabbed. The person addressed was incredulous even then, till he saw blood falling upon the floor. Riggs is a notorious scamp, and has served one term of three years in the State Prison. He has been out nearly four years.—*New-Haven Palladium, August 1.*

On the 26th ult., a German named Peter Arndt, living near Cedarville, Ill., killed three of his children with an axe and wounded the fourth so badly, that it is not expected to live. He made no resistance when arrested, and assigned no reasons for the murder.

MURDER FROM REVENGE.—The Hartford (Conn.) Press relates that, about a year ago, Mrs. Woods, of Warren, Conn., a widow lady 77 years of age, discharged a servant she had employed for several years, named Curtis Dart, who became enraged and threatened her life in consequence of which he was put under bonds to keep the peace. Not being able to furnish bonds, he was confined several months in jail. He was released in April, and on the 10th of this month returned to the house of Mrs. Woods, and claiming to be very friendly; she again hired him. On 14th inst., while Mrs. Woods, as is supposed from the subsequent appearance of things, was washing a floor, Dart attacked her with his fists and the mop handle, beating her terribly, and held her face downwards in a pool of water, until life was extinct. The coroner's jury charged Dart with the murder, and he was arrested and bound over for trial.

A STRANGE STORY.—The following story is from the Troy Budget:—We have for some time been cognisant of a persistent piece of cruelty towards a lady of the first respectability in this city, and whom we hoped ere now to find relieved by the interference of friends. It appears that her husband in a fit of jealousy something more than a year ago procured a cage complete of iron, into which he compelled his wife to enter, and although it is impossible for her to stand erect within it, she is never permitted to leave it except at night. The social position of the parties is such that we are persuaded not to mention names at present, but shall not fail to do so within a day or two, unless, in the mean time, we find the lady quietly released.

RICH GOLD DISCOVERIES IN INDIAN GRAVES.—We have been favored with the perusal of two letters lately received in this city from David, from most highly respectable and reliable parties, giving some particulars of the gold discoveries in the Indian graves. One of them, which we translate, says:—"The principal event here is the discovery of great riches in the sepulchres of the original inhabitants of Chiriqui. At present over a thousand persons are working in the district of Esqueron at the places called Mamudo and Bugalita in opening the 'huacas' (Indian graves) there, and it is calculated that at least nine arrobas (225 lbs.) of fine gold have been extracted. There is a tradition that in former times a Spanish ship, obliged to put into one of our ports from stress of weather for repairs, brought off a box of earth from the shore for the galley fireplace, and that on arrival at home on removing the box a thin cake of gold was discovered at the bottom of it; the circumstances gave rise to the large immigration to the district, and the city of La Esmeralda was founded, where the richest mines between Cans and San Martin were for many years worked, but the depredations of the filibusters and the hostility of the Indians compelled the inhabitants to abandon the spot, and they retired to Costa Rica, where they founded the city of Cartago. Notwithstanding many attempts made to discover the site of the city and its gold mines, it is still unknown; but it is thought that these discoveries will induce fresh explorations, which may at least lead to the discoveries of the rich auriferous deposits known to exist in the province.—The number of huacas throughout the country is very great and may yield immense treasure." The other letter to which we allude says:—"I saw \$10,000 worth in the hands of one man alone, and there are others who have still more. There are millions of these graves all over the country in this province and also throughout Central America, enough to employ thousands of men for many years. It is only three weeks since the diggings commenced and the amount of wrought gold discovered is enormous." The letter goes on to say that agriculture is quite deserted, and that provisions, liquors, clothing and tools would find a good market. These accounts come from most reliable and disinterested sources and are worthy of every credit. Chiriqui is a beautiful and healthy country, sparsely populated by a quiet and simple people. As the graves are scattered over a vast extent and far from any settlements, persons who think of trying this novel mode of mining should go well prepared and not trust to the present resources of the country. We saw yesterday (July 13) at the office of Messrs. Cabrero, Hourquet & Co., some twenty pounds of gold images, idols, &c., recently taken from an Indian "huaco" (burying place) near David in this State, and brought here for sale, by Mr. Manuel Fernandez. It is currently reported that the company who are engaged in the speculation have taken out some eighty thousand dollars worth from this same "huaco." Among the lot, we saw some curiously wrought alligators, similar to those found in the Indian burying places of Peru and Mexico. At what date these relics of antiquity were deposited here, no one knows. Some of them looked old enough to have been made by "Tubal Cain." The alligators seems to have been in great veneration by the aborigines of these countries as well as of ancient Egypt. No doubt large quantities of manufactured gold lie buried all through North and South America in these Indian huacos. In all of the wars between different tribes, no enemy was ever guilty of disturbing the resting places of the dead.—*Panama Star.*

Ayer's Sarsaparilla A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:— SCROFULA and SCROFULOUS COMPLAINTS, ERUPTIONS and ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS and SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSENTERY AND INDIGESTION, ERYSIPELAS, ROSEA OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pollution of life disordered, there can be no lasting health. Sooner or later something will go wrong, and the great machinery of life be disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug thus has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little if any Sarsaparilla, but often no operative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. PREPARED BY DR. J. C. AYER & CO., LOWELL, MASS. Price, \$1 per Bottle; Six Bottles for \$5. Ayer's Cherry Pectoral, has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills, FOR THE CURE OF Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetters, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood. They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic. Price 25 cents per Box; Five boxes for \$1.00. Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure. Do not be put off by unprincipled dealers with other preparations, they make more profit on Demand Ayer's, and take no others. The sick want the best and there is for them, and they should have it. All our Remedies are for sale by Lyman, Savage, & Co., at Wholesale and Retail; and by all the Druggists in Montreal, and throughout Upper and Lower Canada.
