Increase of Assets	8,891,461.96

New Assurance written in 1883, the largest business ever transacted by the Society or by any other company in a single year; the business of 1884 three millions over that of 1883, and that of 1885 eleven millions over that of 1884.

Skilful Life Insurance Agents can do more business for the Equitable than for any other company, and consequently can earn more money for themselves. Interviews and correspondence invited

THE ANTHONY STEEL PLATE FURNACE.

Marks a new era in the sanitary warming of our houses. The objections that have heretofore been urged against hot-air furnaces are entirely overcome in this apparatus. The vital point of superiority consists in covering the entire fire chamber and flues by an impervious drum of heavy steel plate, securely riveted. By this arrangement the escape or leakage of gases is an impossibility, while, by the system of flues used, the maximum quantity of heat is secured.

The construction and sanitary application of this furnace is fully described in our new 52-page book, entitled "OUR HOMES; HOW TO HEAT AND VENTILATE THEM." This book will be mailed free to any one on application.

THE ANTHONY FURNACE

Is endorsed by the leading architects of Boston and other New England cities as being the highest development of the sanitary idea yet attained in a furnace. Those who value the ultimate health and comfort of their families will be careful that they breathe pure air during the winter months. Our system of heating and ventilation secures air that is absolutely free from gas and at the proper temperature for respiration.

ESTIMATES FURNISHED FOR ANY PART OF THE COUNTRY.
