

No. 35 "D" Standard Metal Lockers.

## "D.L." Standard METAL LOCKERS and Shelving

**P**RACTICALLY all buildings to be used for factories, offices, stores, hotels, or for public and institutional purposes require a locker installation. The superiority of metal lockers for all purposes is unquestioned. The only point to decide is what make of metal lockers to specify.

D. L. Standard Metal Lockers have several hygienic and safety features to commend them.

They are made in Canada's largest locker works, by workmen especially skilled in this class of work.

Our factory facilities enable us to undertake the largest contracts and we will submit special designs for any particular work required.

Have us estimate on your plans.
