

The biggest jump of all, however, came in Yukon's 85.10 per cent boost to 9,096 from 4,914. Big, too, was the Northwest Territories' 33.06 per cent jump to 16,004 from 12,028.

In the Maritimes, Nova Scotia was up by 11.18 per cent to 642,584, New Brunswick up 12.75 per cent to 515,697, Prince Edward Island up 3.56 per cent to 98,429 and Newfoundland up 12.30 per cent to 361,416.

Thus Ontario remains the largest Province, followed by Quebec, B.C., Alberta, Saskatchewan, Manitoba, Nova Scotia, New Brunswick, Newfoundland and P.E.I.

Mr. Graham F. Towers On 1952 Outlook: Ottawa, February 11 (CP) -- Mr. Graham F. Towers, Governor of the Bank of Canada, indicated today the rate of personal saving will be among factors determining the trend of prices this year.

He told a press conference it is difficult to predict what will happen to prices this year. It will depend on the rate of personal savings, the effect of increased defence expenditures in North America and whether any "frightening" developments occur in the international field.

Mr. Towers held the press conference to answer questions on his 1951 report of the bank's operations, which contained a description of economic trends from the outbreak of the war in Korea in June, 1950, but gave no predictions.

He said an encouraging feature of the fight against inflation last year was the way in which personal savings increased in the last six months of the year. Another was the fact there was no increase in the wholesale price level in the last six months of the year, despite substantial increases in defence expenditures and capital investment.

Without giving the figures in dollars, the report said it was estimated that new capital investment expenditures in Canada during 1951 were 22 per cent higher in value than in 1950 and perhaps nine per cent greater in physical volume.

Across Canada: Mr. Pearson called on Mr. Anthony Eden in London yesterday, Reuters reported....With a total of \$16,128,134 the largest sum ever raised for a single hospital in Canada, the Toronto General Hospital campaign last night reached a formal close, far beyond its objective of \$14,000,000. ....Mr. Massey will fly back to Canada the day after the King's funeral, Canadian Press reported from London....For the first time in B.C.'s labour history, wages are playing almost second fiddle to security demands. Contract demands announced by several unions last week indicate that labour is putting more emphasis on year-round security for the worker--including his safety, health and welfare--and less on the actual dollars going into his pocket, C.P. reports from Vancouver....Prospects of averting a strike of 9,000 workers at the Windsor plant of the Ford Motor Company of Canada appeared slim last night. Negotiations between the company and the United Auto Workers of America (CIO-CCL) broke down after two weeks of talks under auspices of the Provincial Labour Department, C.P. reported from Toronto.
