## SALE OF NATURAL GAS TO UNITED STATES

**Mr. T. C. Douglas (Nanaimo-Cowichan-The Islands):** Mr. Speaker, I ask leave, seconded by the hon. member for York South (Mr. Lewis), to move the adjournment of the House under Standing Order 26 for the purpose of discussing a specific and important matter requiring urgent consideration, namely, the recent decision of the federal government to approve the sale of 6.3 trillion cubic feet of natural gas to the United States and the serious consequences this decision will have for the people of Canada.

**Mr. Speaker:** As required by the provisions of Standing Order 26 the hon. member for Nanaimo-Cowichan-The Islands has given the Chair notice of his intention to propose this motion for the consideration of the House at this time. The hon. member knows that one of the factors which the Speaker considers in such cases is the probability of an early opportunity to debate the subject matter of the proposed motion. We were informed earlier today that the new session of the current Parliament will open on Thursday of this week. The usual debate on the address should give the hon. member and all hon. members an opportunity to initiate a discussion on the subject to which reference has been made, and in the circumstances it does not appear that the motion should be allowed.

## UNEMPLOYMENT—PROVISION OF SOLUTIONS

**Hon. Robert L. Stanfield (Leader of the Opposition):** Mr. Speaker, I ask leave under Standing Order 26 to make a motion for the adjournment of the House for the purpose of discussing a specific and important matter requiring urgent consideration. I refer to the unacceptably high rate of unemployment which presently exists and to the well-founded forecasts, not denied by the government, that the rate of unemployment will mount
