

A D V E R T I S E M E N T.

THE whole Sheet Map of a great Part of *North America*, intended for the Illustration of these Travels, could not be got ready in Time for the first Volume, on Account of its Size and the great many Names of Places brought into it, which must give it a Superiority above any Map hitherto published of this Part of the World: but the Translator hopes, the Public will the more readily excuse this Omission, as it will greatly tend to make the Map more perfect, and as the second Volume will soon appear, where it shall undoubtedly be inserted.

At the same Time he intreats the Encouragers of this Work to compleat the Subscriptions for the second Volume, and to favour him with the Lists of Subscribers as soon as possible; and if any more Gentlemen will favour him with their Subscriptions, he will look upon it as an incentive the more vigorously to go on with the rest of the Publication.
